

Next ESI school 2015, date, venue, highlight topic

Reminder

ESI 2009, CERN, 11 - 15 May 2009, "Radiation hardness issues for detectors and electronics"
<http://eiro-school.web.cern.ch/eiro-school/>

ESI 2011, Grenoble, EPN campus, 15-22 May 2011. "Advanced Data Analysis Techniques"
<http://www.epn-campus.eu/esi-2011>

ESI 2013: CERN, 27-31 May 2013, "From basic research to industrial applications"
<https://indico.cern.ch/event/233159/page/3>

Each of the schools attracted around 60 +/- 10 students and some 35 lecturers from the EIRO organisations. All schools were evaluated very positively, both from students and lecturers.

Today, we should try to find

- a suitable time window
- a hosting organisation (or a team)
- a highlight topic

The practical organisation of the school has to start early in 2015.
