

Session Program

23-30 Aug 2015

4th International Conference on New Frontiers in Physics ICNFP2015

Plenaries: Session 4

Friday 28 August

15:30

Plenaries: Session 4: Plenaries: Session 4

Session | **Convener:** John Matthews**15:30–15:50** **Highlights of DAMA/LIBRA****Speaker**

Antonella Incicchitti

15:50–16:10 **AGN observations with a 100 GeV threshold using H.E.S.S.II****Speaker**

Andrew Taylor

16:10–16:30 **Recent physics results from BaBar****Speaker**

Giuseppe Finocchiaro

16:30–16:50 **Physics and Philosophy: Tao Source Physics****Speaker**

Rulin Xiu

16:50

Saturday 29 August

15:45

Plenaries: Session 4

Session | **Convener:** Antonio Vairo

15:45–16:15

Future Accelerators at the High Energy Frontier

Speaker

Emmanuel Tsismelis

16:15–16:45

Perspectives for New Physics at the LHC

Speaker

Abdelhak Djouadi

16:45–17:15

Quark Matter in Compact Stars and in Heavy-Ion Collisions

Speaker

David Blaschke

17:15
