

Session Program

June 28, 2015 to July 2, 2015

CEC-ICMC 2015 - Timetable, Abstracts and Presentations

M3PoA - Superconductor Materials IV: Properties and Applications

JW Marriott Starr Pass Resort
Tucson, Arizona USA

Wed, July 1

9:00 AM

M3PoA - Superconductor Materials IV: Properties and Applications

Poster Session | **Location:** Exhibit Hall (Arizona Ballroom) | **Conveners:** Pei Li, Matthias Mentink

Effect of Transport Current on Magnetization of an IBAD Coated Conductor

Speaker

Cory Myers

Assessment of Critical Factors Affecting the Performance of Trapped Field Magnets using Thin Film Superconductor Tapes

Speaker

Ms Kavita Selva

Effect of heat treatment and test barrel materials on critical current measurements of Ag/Bi2212 round wires using ITER barrel configurations

Speaker

Tengming Shen

High Strain and Twisting Tolerance in AIMI and PIT MgB₂ Strands

Speaker

Yuan Yang

11:00 AM
