

# CEC-ICMC 2015 - Timetable, Abstracts and Presentations

## Tuesday, June 30, 2015

### C2OrF - Superconducting Magnets II - Tucson Ballroom F (4:00 PM - 6:00 PM)

-Conveners: Michael Green; Luisa Chiesa

time	[id] title	presenter
4:00 PM	[194] [Invited] Superconducting Detector Magnets for the proposed 100 TeV Future Circular Collider	Prof. TEN KATE, Herman H. J.
4:30 PM	[192] Performance of the cold powered diodes and diode leads in the main magnets of the LHC	Dr WILLERING, Gerard
4:45 PM	[512] Dimensional Changes of Nb <sub>3</sub> Sn Cables during Heat Treatment*	PONG, Ian
5:00 PM	[446] Design and manufacture of the large-bore 8T superconducting solenoid for the NAFASSY test facility	Dr DELLA CORTE, Antonio
5:15 PM	[399] Testing of a sub-scale HTS coil for wind turbine generator	MASSON, Philippe
5:30 PM	[269] Quench Characteristics of Conduction-cooled 6T NbTi Magnet System	KAR, soumen
5:45 PM	[289] Development of integrated superconducting Quadrupole Doublet Modules for operation in the SIS100 Accelerator	Mr MEIER, Jan Patrick Mr CEBALLOS VELASCO, Jorge
