

# ICRC2015

## Monday, August 3, 2015

### Parallel SH 04 STEREO - Mississippi (11:00 AM - 12:30 PM)

time	[id] title	presenter
11:00	<del>AM</del> Filament Eruptions Outside of Active Regions as Sources of Large Solar Energetic Particle Events	KAHLER, Stephen
11:15	<del>AM</del> First near-relativistic electron spike event observed simultaneously by both STEREO spacecraft	Dr KLASSEN, Andreas
11:30	<del>AM</del> STEREO observations of the 7 Nov 2013 SEP event - an event inside a magnetic loop	Dr DRESING, Nina
11:45	<del>AM</del> Insights Into Particle Transport Obtained from Solar Energetic Particle Anisotropies	LESKE, Richard
12:00	<del>PM</del> Constraints on Mechanisms for Longitudinal Spreading of Impulsive SEPs from Multispacecraft Observations of Scatter-free Events	WIEDENBECK, M.
12:15	<del>PM</del> Multi-spacecraft observations and transport modeling of energetic electron for a series of solar particle events in August 2010	Prof. DRÖGE, Wolfgang
