

NExT Meeting at Sussex

Wednesday, 19 November 2014 - Wednesday, 19 November 2014

University of Sussex

Scientific Programme

News from BSM, Higgs and supersymmetry

The programme and schedule can be found under 'Timetable' and includes:

Steve Abel - Gauge mediation of exact scale breaking and novel Higgs potentials

Agni Bethani - Higgs at CMS and ATLAS

Ulrik Egede - Status and challenges for rare decays in LHCb

Gudrun Hiller - A challenge to lepton universality

Daniel Litim - From asymptotic freedom to asymptotic safety

R. Lopez - A light Higgs in a strongly interacting electroweak symmetry breaking sector

Veronica Sanz - BSM in the light of future colliders

Marc Thomas - Model-independent exclusion of the light stop scenario

Iacopo Vivarelli - Search for stops and sbottoms at ATLAS: status and prospects
