Review of CP violation studies at Tevatron

Thursday 11 December 2008 17:00 (25 minutes)

The most recent Tevatron results concerning CP violation are reviewed, including β_s phase and $\Delta\Gamma$ measurements performed in the $B^0(s) \rightarrow J/\psi \phi$ decay

Author: FERNANDEZ, Juan Pablo

Presenter: FERNANDEZ, Juan Pablo

Session Classification: Parallel Session A. CP violation in the SM and beyond-II
