Session Program

11–12 Apr 2015

2015 WLCG Collaboration Workshop

Computing at the HL-LHC timescale

Okinawa Institute of Science and Technology, Auditorium

Sunday 12 April

09:30

Computing at the HL-LHC timescale: Experiment views
Session | **Location:** Okinawa Institute of Science and Technology, Auditorium | **Conveners:** Jose Flix Molina, Alessandra Forti

09:30–09:45 Planning for the future

Speaker
Ian Bird

09:45–10:35 Experiment computing models at HL-LHC (1/2)

Subcontributions

ALICE

Speaker
Tatsuya Chujo

ATLAS

Speaker
Graeme Stewart

10:35–11:05 Coffee break

11:05–12:15 Experiment computing models at HL-LHC (2/2)

Subcontributions

CMS

Speakers
Dr Maria Girone, David Lange

LHCb

Speaker
Dr Marco Cattaneo

Discussion

12:15

14:15

Computing at the HL-LHC timescale: Technology evolution
Session | **Location:** Okinawa Institute of Science and Technology, Auditorium | **Conveners:** Alessandra Forti, Jose Flix Molina

14:15–15:00 Hardware technology trends

Speaker
Bernd Panzer-Steindel

15:00–15:40 New Storage Technologies

Speaker
Luca Mascetti

15:40–16:20 **Resource provisioning**

Subcontributions

Resource Provisioning: Overview

Speaker
Laurence Field

Resource Provisioning: Implementations

Speaker
Andrew McNab

16:20

16:50

Computing at the HL-LHC timescale: Software

Session | **Location:** Okinawa Institute of Science and Technology, Auditorium | **Conveners:** Alessandra Forti, Jose Flix Molina

16:50–17:30 **Software evolution**

Speaker
Elizabeth Sexton-Kennedy

17:30
