HEP Software Foundation

Monday 23 March 2015 14:25 (25 minutes)

The HEP Software Foundation (HSF) is a one year old inititative to foster collabarotion in software development in the HEP community and related scientific communities. Launched by a kick-off meeting at CERN in April 2014, the first year has been spend to better define what HSF should be. An HSF workshop was held in January at SLAC and HSF is now entering is "implementation phase". This talk will present the reasons behind HSF, the goals and organizational model.
