Two years of HTCondor at the RAL Tier-1

Friday, March 27, 2015 11:05 AM (25 minutes)

After running Torque/Maui for many years, the RAL Tier-1 migrated to HTCondor during 2013 in order to benefit from improved reliability, scalability and additional functionality unavailable in Torque. This talk will discuss the deployment of HTCondor at RAL, our experiences and the evolution of our pool over the past two years, as well as our future plans.
