CernVM Users Workshop

Thursday 5 March 2015 - Friday 6 March 2015

CERN

Scientific Programme

The scientific program of the workshop will consist of plenary sessions with oral presentations from the CernVM team and invited speakers from the users community. We also plan to dedicate a session to current technology trends, with invited speakers from industry.

The contributions will cover all the topics relevant for CernVM ecosystem:

CernVM File System

CernVM Appliance

Contextualization (adapting to clouds, cluster / facility definition, ...)

Volunteer Computing

Software environment (data) preservation
