

Session Program

25-27 Sept 2006

HG2006

Specialized experiments

CERN European Organization for Nuclear Research, 40/S2-B01
Meyrin Switzerland

Tuesday 26 September

14:00

Specialized experiments: (cont.)

Session | **Location:** CERN European Organization for Nuclear Research, 40/S2-B01, Meyrin Switzerland

14:00-14:30 **Pulsed surface heating: Ultrasonic and Laser fatigue experiments**

Speaker

Samuli Tapio Heikkinen

14:30-15:00 **Some HG RF Issues in a HOM Polarized RF Gun for the ILC**

Speaker

Dr Juwen Wang

15:00-15:30 **What to do with a high gradient**

Speaker

Jonathan R. Ellis

15:30
