

Session Program

25-27 Sept 2006

HG2006

High-gradient rf experiments and results (cont.)

CERN European Organization for Nuclear Research, 40/S2-B01
Meyrin Switzerland

Monday 25 September

11:00

High-gradient rf experiments and results (cont.)

Session | **Location:** CERN European Organization for Nuclear Research, 40/S2-B01, Meyrin Switzerland

11:00-11:30 **Waveguide and single cell experiments**

Speaker

Dr Valery Dolgashev

11:30-12:00 **RF driven and beam-driven high-gradient test of dielectric structures**

Speaker

Dr John Power

12:00-12:30

Status report of JINR-IAP-CLIC experiment on the copper cavity heating

Speaker

Dr Sergey Sedykh

12:30
