

Session Program

25-27 Sept 2006

HG2006

High-gradient technology, materials and processing

CERN European Organization for Nuclear Research, 40/S2-B01
Meyrin Switzerland

Monday 25 September

16:00

High-gradient technology, materials and processing

Session | **Location:** CERN European Organization for Nuclear Research, 40/S2-B01, Meyrin Switzerland

16:00–16:30

Tungsten development

Speaker

Dr Lisa Laurent

16:30–17:00

3 and 30 GHz conditioning control software

Speaker

Alexey Dubrovskiy

17:00–17:30

Experiment on metal surface damage using 120 keV beam

Speaker

Dr Valery Dolgashev

17:30
