

Standard Model at LHC 2015 (SM@LHC)

Tuesday, April 21, 2015 - Friday, April 24, 2015

Galileo Galilei Institute

Scientific Program

The meeting aims to bring together both experimentalists and theorists to discuss Standard Model phenomenology and the very latest results from the LHC experiments. Topics covered are split into the following categories:

QCD (hard, soft & PDFs)

Conveners: Niki Saoulidou, Victor Coco, Andrea Banfi

Electroweak physics

Conveners: Jeff Berryhill, Guido Montagna, Joao Guimares da Costa

Higgs boson physics

Conveners: Andre David Tinoco Mendes, Markus Schumacher, Massimiliano Grazzini

Top quark and flavour physics

Conveners: Tancredi Carli, Mika Vesterinen, Ulrich Haisch, Alexander Mitov
