

10th Anniversary "Trento" Workshop on Advanced Silicon Radiation Detectors

Tuesday, February 17, 2015

Planar Sensor 1 - "Stringa" Conference Hall (11:00 AM - 1:00 PM)

-Conveners: Yoshinobu Unno

| time | [id] title | presenter |
|-------|--|---------------------|
| 11:20 | A30 CMS Silicon Strip Tracker Readiness for LHC Run II | STROM, Derek Axel |
| 11:40 | A31 Development of thin n-in-p planar pixel modules for the ATLAS upgrade at HL-LHC | MACCHIOLO, Anna |
| 12:00 | P71 Industrial production of silicon strip sensors with Infineon | Dr BERGAUER, Thomas |
| 12:20 | P72 First silicon tracking system prototype with artificial retina for fast track finding | NERI, Nicola |
| 12:40 | P73 Applications of Atomic Layer Deposition (ALD) on ultra-fine pitch pixel detectors | HAERKOENEN, Jasu |
