

Session Program

17-19 Feb 2015

10th Anniversary "Trento" Workshop on Advanced Silicon Radiation Detectors

HV CMOS (2) and LGAD (1)

FBK, Trento, "Stringa" Conference Hall
Via Sommarive, 18 38123 Povo - Trento ITALY

Tuesday 17 February

16:20

HV CMOS (2) and LGAD (1)

Session | **Location:** FBK, Trento, "Stringa" Conference Hall, Via Sommarive, 18 38123 Povo - Trento ITALY |
Convener: Gregor Kramberger

16:20–16:40

Capacitively Coupled Hybrid Pixel Assemblies for the CLIC Vertex Detector

Speaker

Dr Daniel Hynds

16:40–17:00

Studies of non-irradiated and irradiated HVCMOS detectors

Speaker

Igor Mandic

17:00–17:20

Issues in the design of Ultrafast silicon detectors

Speaker

Mr Nicolo Cartiglia

17:20–17:40

Measurements of the Time Resolution of Low-Gain Avalanche Detectors (LGAD)

Speaker

Hartmut Sadrozinski

17:40–18:00

Measures with strips LGAD p-type detectors fabricated at CNM-Barcelona

Speaker

Marta Baselga

18:00
