# LHCf – Takashi Sako

---

- Recently we LHCf fixed our detector installation dates with a help of Julie Coupard. As we think it is better recognized by TREX,
- I summarize our plan below. If you know any conflict especially with ATLAS ZDC or BRAN, please let us know.
  
- week 47 (17 Nov.-) installation of LHCf Arm1 at the IP8 side (1L)
- week 48 (24 Nov.-) installation of LHCf Arm2 at the IP2 side (1R)
  
- 1L – same week as BRAN
