

Session Program

28 August 2016 to 4 September 2016

XIIth Quark Confinement and the Hadron Spectrum

Student Lectures

Sunday 28 August

13:00

Student Lectures

Session | **Location:** Makedonia Palace, Amfitrion II | **Convener:** Yiota Foka

13:00–14:30 **Introduction to Nonrelativistic effective Field Theories for QCD**

Speaker
Antonio Vairo

14:45–16:45 **Introduction to chiral QCD**

Speaker
Hagop Sazdjian

17:00–19:00 **Introduction to Large N QCD**

Speaker
Jose Luis Goity

19:15–20:15 **General Relativity and Gravitational Waves**

Speaker
Alvaro De Rujula

20:15
