

Power supply discussion

December 8th

Carlos Abellan

Power Supply Needs for UT

- 12 Maraton Needed
 - Configuration:
 - 12 channels 2-8V @ 50A
 - LV to be later regulated with a linear regulator
 - Work at 75% of full load (35 A)

ST Power supply recycling

- Available:
 - 4 (TT) + 4(IT) + 1 (SPARE) = 9 Maraton
 - BUT:
 - Currently 6CH 2-8V@50 A and 6CH 5-15V@20 A
 - Need to modify these supplies
- Cost estimates:
 - New Maraton: 8956€
 - Modify 6CH of a Maraton: 4540€ (~50% of a new one)
