

5th International Workshop on Mechanisms of Vacuum Arcs (MeVArc 2015)

Thursday, 3 September 2015

Pre- and post-breakdown surface phenomena (11:00 - 12:30)

-Conveners: Yinon Ashkenazy

time	[id] title	presenter
11:00	[21] Scanning Electron Microscopy tools for material characterization - Focus on EBSD for characterisation of dislocation structures	LEAUX, Floriane
11:30	[22] Microstructural features of pre- and post-BD and post-FE tested Cu samples	POPOV, Inna
11:50	[23] SEM Observations of Pre-breakdown Structures on OFHC Cu Surfaces	YASHAR, Ayelet
12:10	[24] SEM images review on CLIC structures after testing	PEREZ FONTENLA, Ana Teresa
