

## **Session Program**

**1-5 Dec 2014**

# **Zimányi School 2014**

## ***Jets and flow***

Wigner RCP, Budapest, Hungary, Building III, 2nd floor, Tanácssterem  
Budapest XII, Konkoly-Thege 29-33, KFKI Campus

# Monday 1 December

14:00

## Jets and flow

**Session** |**Location:** Wigner RCP, Budapest, Hungary, Building III, 2nd floor, Tanácssterem, Budapest XII, Konkoly-Thege 29-33, KFKI Campus

14:00–14:25

### Fluctuation contribution to anisotropic flow in pA collisions at RHIC and LHC energies

**Speaker**

Peter Levai

14:25–14:45

### Multiplicity dependence of charge dependent correlations in pp, p-Pb and Pb-Pb collisions at LHC

**Speaker**

Alis Rodriguez Manso

14:45–15:05

### Probing the interplay of jets and flow using two-particle correlations

**Speaker**

Monika Kofarago

15:05–15:25

### Exploring the pPb ridge effect with CMS: Azimuthal correlations with identified hadrons and pseudorapidity dependence

**Speaker**

David Englert

15:25
