

Session Program

1-5 Dec 2014

Zimányi School 2014

Jets and flow

Wigner RCP, Budapest, Hungary, Building III, 2nd floor, Tanácsterem
Budapest XII, Konkoly-Thege 29-33, KFKI Campus

Monday 1 December

14:00

Jets and flow

Session |

Location: Wigner RCP, Budapest, Hungary, Building III, 2nd floor, Tanácsterem, Budapest XII, Konkoly-Thege 29-33, KFKI Campus

14:00–14:25

Fluctuation contribution to anisotropic flow in pA collisions at RHIC and LHC energies

Speaker

Peter Levai

14:25–14:45

Multiplicity dependence of charge dependent correlations in pp, p-Pb and Pb-Pb collisions at LHC

Speaker

Alis Rodriguez Manso

14:45–15:05

Probing the interplay of jets and flow using two-particle correlations

Speaker

Monika Kofarago

15:05–15:25

Exploring the pPb ridge effect with CMS: Azimuthal correlations with identified hadrons and pseudorapidity dependence

Speaker

David Englert

15:25
