

Session Program

1-5 Dec 2014

Zimányi School 2014

Jets and correlations

Wigner RCP, Budapest, Hungary, Building III, 2nd floor, Tanácsterem
Budapest XII, Konkoly-Thege 29-33, KFKI Campus

Tuesday 2 December

14:00

Jets and correlations

Session |**Location:** Wigner RCP, Budapest, Hungary, Building III, 2nd floor, Tanácssterem, Budapest XII, Konkoly-Thege 29-33, KFKI Campus

14:00–14:25

Anisotropic flow measurements of identified particles from RHIC to LHC

Speaker

Dr Panos Christakoglou

14:25–14:50

Jet probes of the nuclear and proton wavefunctions in proton-lead collisions with the ATLAS detector

Speaker

Dennis Vadimovich Perepelitsa

15:15–15:35

Probes of nuclear parton distribution functions in pPb collisions from CMS

Speaker

Anna Zsigmond

15:35
