

and elements: geometry, tracks, lines and points
transformation and detector pre-scaling allow
simultaneous view of all detector components
and inspection of the primary-vertex region

Calorimeters

- **3D View**
- **2D Projections**
- **Lego View – 2D & 3D**
 - automatic rebinning
- **Data-sources:**
 1. **THStack** of 2D histos
 2. Cell enumeration
- **Any # of layers**
 - **threshold / color** per layer
- **Energy scaling:**
 1. Relative / per event
 2. Absolute / external
