

Quark Matter 2015 - XXV International Conference on Ultrarelativistic Nucleus-Nucleus Collisions

Tuesday 29 September 2015

Future Experimental Facilities, Upgrades, and Instrumentation - Convention room 1 (14:00 - 16:20)

-Conveners: Megumi Naruki

time	[id] title	presenter
14:00	[133] Prospects for the dense baryonic matter research at NICA	Prof. KEKELIDZE, Vladimir
14:20	[714] Studies of high density baryon matter with high intensity heavy-ion beams at J-PARC	Dr SAKO, Hiroyuki
14:40	[45] Nuclear collisions at the Future Circular Collider	ARMESTO PEREZ, Nestor
15:00	[254] The STAR Heavy Flavor Tracker and Upgrade Plan	CONTIN, Giacomo
15:20	[373] sPHENIX calorimeter design and jet performance	HAGGERTY, John
15:40	[360] Upgrade of the ALICE Inner Tracking System	RIEDLER, Petra
16:00	[361] The ALICE TPC: from wires to GEMs	GARABATOS CUADRADO, Chilo
