

Quark Matter 2015 - XXV International Conference on Ultrarelativistic Nucleus-Nucleus Collisions

Wednesday 30 September 2015

Electromagnetic Probes II - Exhibition Space 2-B (10:50 - 12:30)

-Conveners: Harald Appelshaeuser

time	[id] title	presenter
10:50	[363] PHENIX results on low-mass dileptons in Au+Au collisions with the Hadron Blind Detector	MAKEK, Mihael
11:10	[290] System-size and energy dependences of dielectron excess invariant-mass spectra at STAR	Mr YANG, Shuai
11:30	[566] Low-Mass Dielectron Measurements in pp, p-Pb and Pb-Pb Collisions with ALICE	REICHEL, Patrick Simon
11:50	[516] Vector boson production in p+Pb and Pb+Pb collisions measured with ATLAS at the LHC	GRABOWSKA-BOLD, Iwona
12:10	[685] W and Z bosons in pp, pPb and PbPb with CMS	CHAPON, Emilien
