

Session Program

27 September 2015 to 3 October 2015

Quark Matter 2015 - XXV International Conference on Ultrarelativistic Nucleus-Nucleus Collisions

Jets and High p_T Hadrons I

Kobe, Fashion Mart, Japan

Monday 28 September

14:30

Jets and High pT Hadrons I

Session | **Location:** Exhibition Space 1-B | **Convener:** John Harris

14:30–14:50

Charged particle production in proton-lead collisions measured by the ATLAS detector

Speaker

Evgeny Shulga

14:50–15:10

Decomposing energy balance contributions for quenched jets with CMS

Speaker

Olga Evdokimov

15:10–15:30

Angular distributions of the quenched energy flow from dijets with different radius parameters in CMS

Speaker

Christopher Mc Ginn

15:30–15:50

Interplay between Mach cone and radial expansion in jet events

Speaker

Dr Yasuki Tachibana

15:50–16:10

Thermalization of mini-jets in a quark-gluon plasma

Speaker

Bin Wu

16:10–16:30

Modification of reconstructed gamma-jets in heavy-ion collisions

Speaker

TAN LUO

16:30
