

# 2015 CAP Congress / Congrès de l'ACP 2015

## Wednesday 17 June 2015

### DPP Poster Session with beer / Session d'affiches, avec bière DPP - CCIS Ground Floor PCL lounge (19:00 - 22:00)

-Conveners: Chijin Xiao

time	[id] title	presenter
19:00	[635] Measurement of High Magnetic Fields in Laser Produced Plasmas	Ms LIZA, Fatema
19:02	[773] Intense, double pulse irradiation of targets for MeV proton acceleration	KERR, Shaun
19:04	[637] Interferometric characterization of preplasma density for laser created plasmas	MANZOOR, Laila Nawsheen
19:06	[861] Optical Pumping Within a Laser-Induced Plasma to Enhance Trace Element Signal Intensity	Mr PIAZZA, Anthony
19:08	[855] Terahertz source development for studying Warm Dense Matter and High Energy Density Plasmas	CURRY, Chandra
19:10	[868] Characterization of Initial Target Conditions in High Intensity Laser Solids Interaction Experiments	TSUI, Ying CHEN, Zhijiang
