2015 CAP Congress / Congrès de l'ACP 2015

Tuesday, 16 June 2015

T2-3 Ground-based / in situ observations and studies of space environment II (DASP) / Observations et études de l'environnement spatial, sur terre et in situ II (DPAE) - CAB 243 (13:45 - 15:15)

-Conveners: Donald Danskin

time	[id] title	presenter
13:45	[463] New View of Aurora from Space using the e-POP Fast Auroral Imager	Prof. COGGER, Leroy
14:15	[513] CASSIOPE e-POP and coordinated ground-based studies of polar ion outflow, auroral dynamics, wave-particle interactions, and radio propagation	YAU, Andrew
14:30	[531] The nature of GPS receiver bias variabilities: An examination in the Polar Cap region and comparison to Incoherent Scatter Radar	Mr THEMENS, David
14:45	[566] Transmission of Waves from a High-Frequency Ionospheric Heater to the Topside Ionosphere	Dr JAMES, Gordon
15:00	[578] Dawn-dusk asymmetry in the intensity of polar cap flows as seen by SuperDARN	KOUSTOV, Alexandre
