

... (Oracle C++ Call Interface) and
 ... into a temporary table, the
 ... a PL/SQL package.

Time (s)	% Total Call Time	Wait Class
137	42.56	User I/O
120	37.22	Other
61	18.88	

Table 1. AWR report during a test after iteration 1.

... the system
 ... second.

16'000 events/s

... ("db file sequential read" is a
 ... I/O request), several changes
 ... mented:
 ... reduction

- each of the tables is partitioned
- each of the "clients" inserts into

Event	Waits	Time (s)
row cache lock	813	66
gc current multi block request	7,218	15
CPU time		12
log file parallel write	1,542	10
undo segment extension	785,439	8

Thanks to these changes, the
 ... achieved 150'000 events per second
 ... peak. It has been observed that
 ... loading can sometimes freeze.
