# **GridFTP v1**

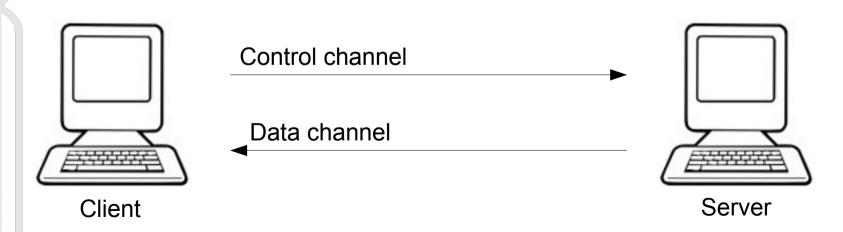

#### **FTP Transfers**

#### Passive servers

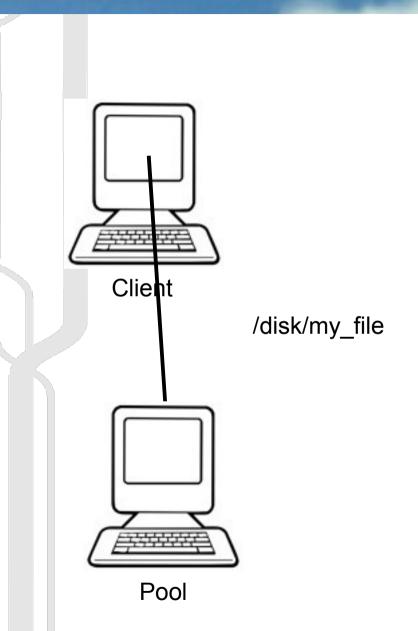

#### **Active servers**

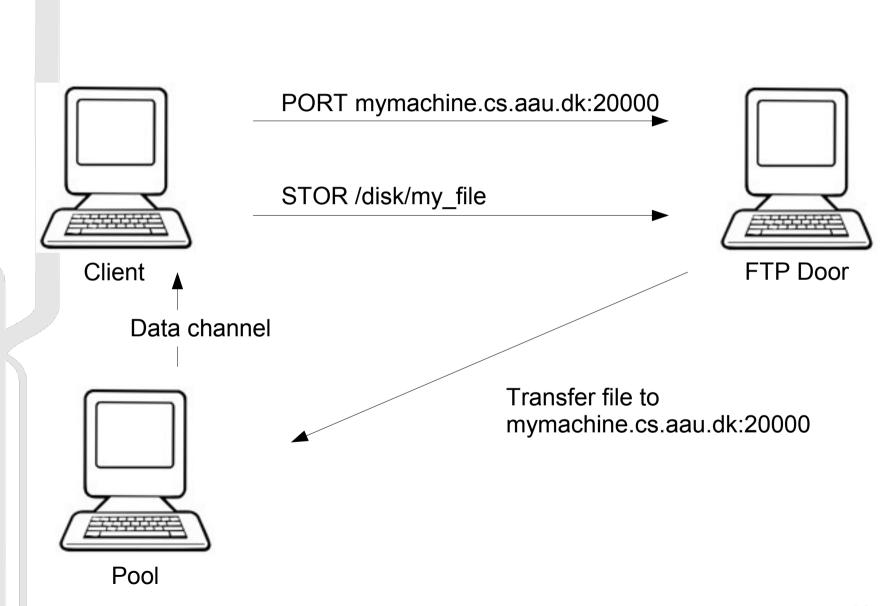

#### FTP in dCache

#### **Active transfers in dCache**

#### Passive transfers in dCache

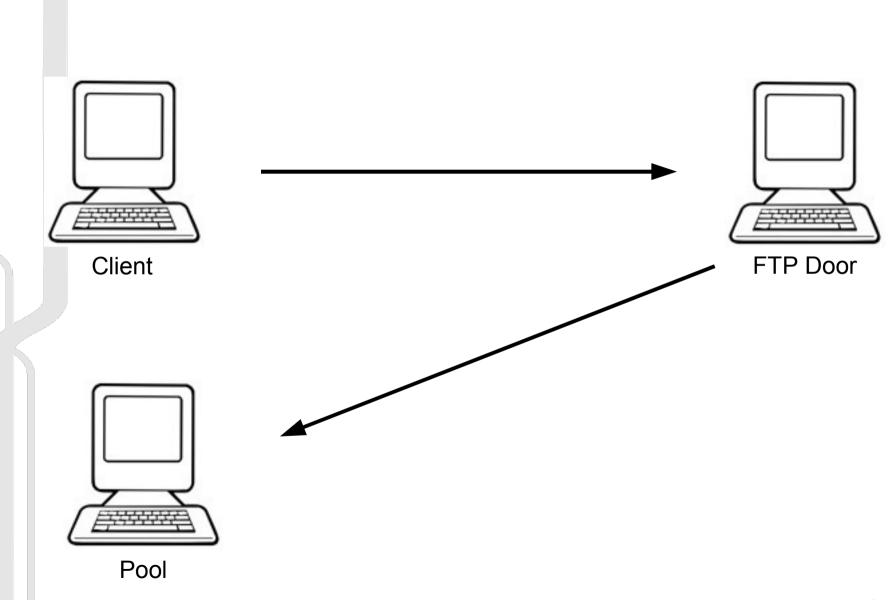

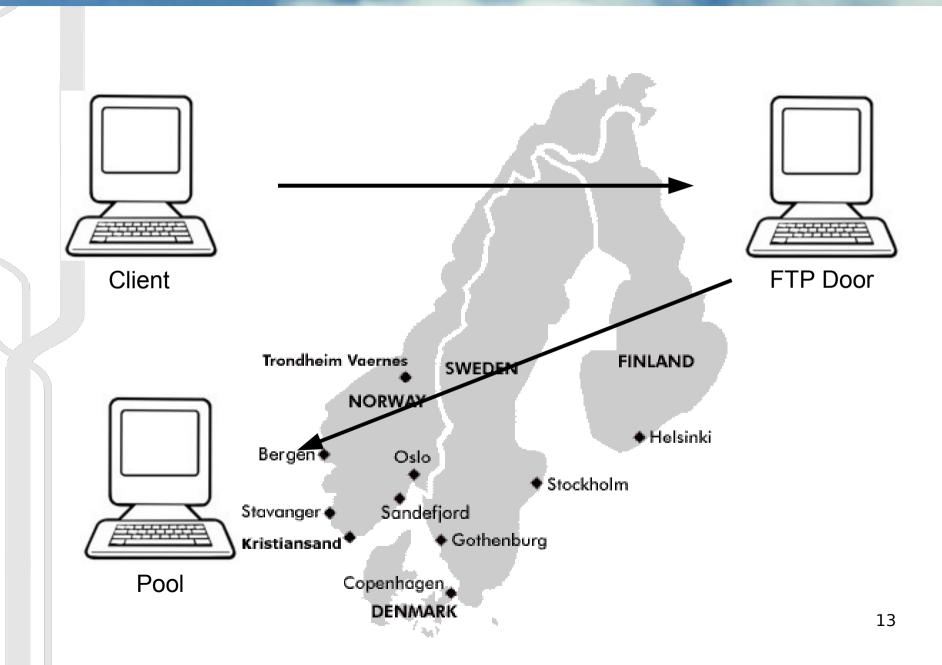

## **DEF** Passive transfers in dCache

#### Passive transfers in dCache

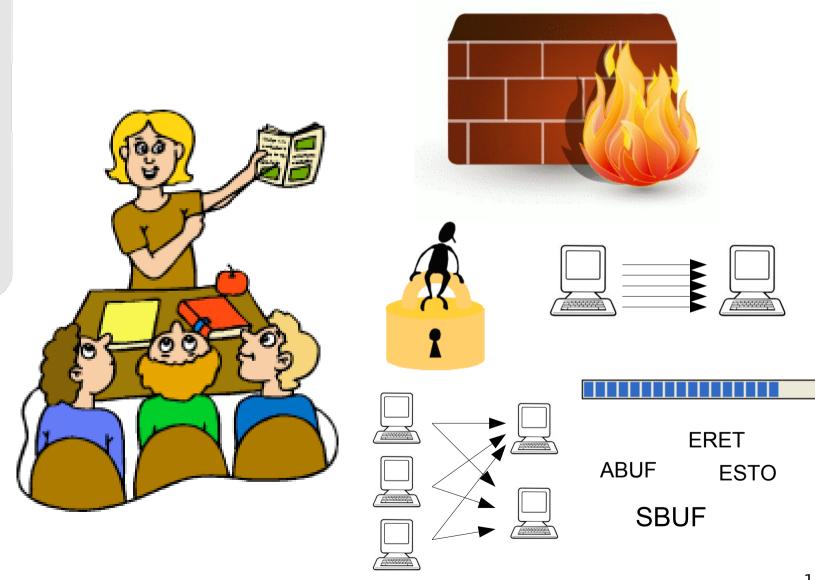

## **Use active transfers!**

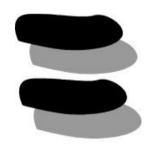

#### Active transfers won't work

## F Introducing GridFTP2 GETPUT

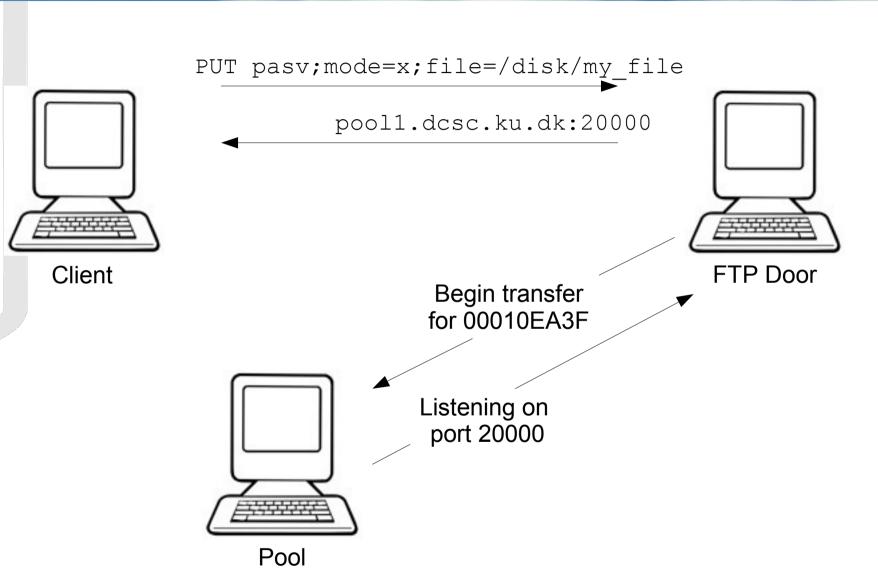

```
PASV
227 PORT=(a.b.c.d)
MODE E
200 OK
STOR /disk/my_file
150 Opening data channel
```

PUT pasv;mode=x;file=/disk/my\_file
127 PORT=(a.b.c.d)
150 Opening data channel
