

8th FIM₄R meeting

3-4 February 2015

CERN

Geneva

Meeting agenda

Agenda page online with material:

<https://indico.cern.ch/event/358127/>

A written summary of this event will be produced

Short reception tonight at 17:30 in R2
(Restaurant across the road)

The FIM₄R Vision

A common policy and trust framework for Identity Management based on existing structures and federations either presently in use by or available to the communities.

This framework must provide researchers with unique electronic identities authenticated in multiple administrative domains and across national boundaries that can be used together with community defined attributes to authorize access to digital resources.

The FIM₄R Vision

- Specific focus of the 8th FIM4R meeting:
 - Aim at production services
 - Critical role of the Pilots
 - Requirements for eduGAIN + AARC (EU)
 - Aim at solving a global problem
 - Harmonise interoperation, policies and practices
 - Attributes definitions & release

Expected outcome

- A list of clear, specific recommendations to eduGAIN + AARC on:
 - Pilots
 - Production services
- Plan to integrate further with non-EU participants
- Recommendation & feedback for “Sirtfi”
