

Blois2015: 27th Rencontres de Blois on "Particle Physics and Cosmology"

Wednesday, 3 June 2015

Astro + Cosmo I-II: Parallel Session (14:00 - 19:50)

-Conveners: Rafael Lang; Michael Rigault

time	[id] title	presenter
14:00	[0] A compelling case for Dark Matter in the Gamma-Ray Sky	LINDEN, Tim
14:20	[215] Preliminary results of the final SNLS cosmology analysis	EL-HAGE, Patrick
14:40	[1] The LSST: General Presentation and New Method for Redshift Reconstruction	CHOYER, Adeline
15:00	[2] Cosmology in the era of BOSS	BUSCA, Nicolas
15:20	[3] Early Science Results from the Dark Energy Survey	ROMER, Kathy
15:40	[4] Updates from the BICEP/KECK Array	AHMED, Zeesh
16:00	Coffee Break	
16:30	[209] South Pole Telescope E-Mode, B-Mode, and Gravitational Lensing Spectra	GALLICCHIO, Jason
16:50	[5] Recent highlights from the Fermi-LAT	LOTT, Benoit
17:10	[172] Antares Results in the Light of IceCube Discovery	KULIKOVSKIY, Vladimir
17:30	[173] Status and Perspectives of KM3NeT/ARCA	TROVATO, Agata
17:50	[174] VERITAS: Observatory Status and Recent Highlights	MAIER, Gernot
18:10	[175] HESS Highlights	BRUN, Francois
18:30	[176] The HAWC Gamma Ray Observatory	RIVIERE, Colas
18:50	[177] Results from the Telescope Array	THOMSON, Gordon
19:10	[178] The MAGIC Telescope System: Scientific Highlights, Status and Future Perspectives	EINECKE, Sabrina
