

# Blois2015: 27th Rencontres de Blois on "Particle Physics and Cosmology"

## Wednesday 3 June 2015

### QCD + Heavy Flavour: Parallel Session (14:00 - 19:50)

-Conveners: Emmanuel Sauvan; Stephen Lars Olsen

time	[id] title	presenter
14:00	[181] Recent QCD&EW Results from the Tevatron	PRICE, Darren
14:20	[182] Latest results on jets and photon production from Atlas and CMS	OCALAN, Kadir
14:40	[183] Inclusive W, Z, and W&Z+jets production at Atlas and CMS	BRAU, Benjamin
15:00	[184] NNLO corrections to Higgs + 1 jet	CAOLA, Fabrizio
15:20	[185] N3LO corrections to inclusive Higgs production	MISTLBERGER, Bernhard
15:40	[186] Progress in NNPDF	BERTONE, Valerio
16:00	Coffee Break	
16:30	[171] Electroweak physics and QCD in the forward direction at LHCb	BARTER, William
16:50	[14] Charmed hadron physics at BESIII	HUANG, Yong
17:10	[15] Exotics and charmonia at BESIII	WANG, Zhihong
17:30	[16] Heavy quark spectroscopy at LHCb	LI, Yiming
17:50	[18] Recent results and prospects on kaon physics from CERN	PETROV, Plamen
18:10	[19] Results of HI physics from Atlas and CMS	CHAPON, Emilien
18:30	[179] Test of the Weak Equivalence Principle on Antimatter with the AEGIS Experiment	PAGANO, Davide
