

**Session Program**

**May 11 - 13, 2015**

**Physics at the High-Luminosity LHC**

***Flavour physics***

CERN, 4/3-006 - TH Conference Room

# Wed, May 13

9:00 AM

## Flavour physics

**Session** | **Location:** CERN, 4/3-006 - TH Conference Room

9:00 - 9:40 AM

### Experimental prospects for studies of CP violation in the charm and bottom systems (25'+15')

**Speaker**

Greig Cowan

9:40 - 10:20 AM

### CP violation in the charm and bottom systems: theoretical perspective (25'+15')

**Speaker**

Zoltan Ligeti

10:20 - 11:10 AM

### Flavour physics of the top quark; and projecting on the Higgs to light (35'+15')

**Speaker**

Gilad Perez

11:10 - 11:40 AM

### Coffee break

11:40 AM - 12:20 PM

### Rare decays of hadrons: experimental perspective (25'+15')

**Speaker**

Marc Olivier Bettler

12:20 - 1:00 PM

### Rare decays: the theoretical perspective (25'+15')

**Speaker**

Sebastian Jaeger

1:00 PM
