Searches for New Physics at the Energy Frontier

Tuesday, 4 August 2015 11:20 (35 minutes)

I will give an overview of searches for new physics at the Large Hadron Collider.

I will discuss lessons learned from Run-1, outline the anomalies in the current data-set, and plan to present the first Run-2 results at 13 TeV.

Oral or Poster Presentation

Oral

Primary author: ALISON, John (University of Chicago (US))
