## Cosmology of Massive Gravity

*Thursday, August 6, 2015 2:36 PM (18 minutes)*

The quest for a stable, compelling, cosmology of massive gravity.

I will introduce some of the everyday tools of massive (bi)gravity and then show how, confronted with stability and observational requirements, one may employ them to place strong constraints on the parameters space of the theory.

### Oral or Poster Presentation

Oral

**Primary authors:** Prof. TOLLEY, Andrew (Case Western); Prof. DE RHAM, Claudia (Case Western Reserve University); Dr FASIELLO, Matteo (Stanford University)

**Presenter:** Dr FASIELLO, Matteo (Stanford University)

**Session Classification:** AstroParticle, Cosmology, Dark Matter Searches, and CMB

**Track Classification:** Cosmology and Dark Matter Theory
