

Session Program

2-5 Dec 2008

CARE'08

Plenary

CERN, 503/1-001 - Council Chamber

Wednesday 3 December

09:00

Plenary: Highlight Talks

Session | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Gilbert Guignard

09:00-09:20

HT-7 : Coupler conditioning

Speaker

Hassen JENHANI

09:20-09:40

HT-8: Achievements in low level RF control

Speaker

Dr Stefan Simrock

09:40-10:00

HT-9 : Development of the accelerating structures for Linac4

Speaker

Frank Gerigk

10:00-10:20

HT-10 : Superconducting Cavity activities within HIPPI

Speaker

Juliette Plouin

10:20

10:50

Plenary: Highlight Talks

Session | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Frank Zimmermann

10:50-11:10

HT-11 : Crystal collimation update

Speaker

Walter Scandale

11:10-11:30

HT12: Validation of the MERIT MMW target concept

Speaker

Ilias Efthymiopoulos

11:30-11:50

HT13: Code benchmarking with beam experiments

Speaker

Lars Groening

11:50-12:10

HT-14 : LHC crab cavities

Speaker

Rama Buchi Rao Calaga

12:10-12:30

HT15: The NED conductor review: experience gained and outlook for future development

Speaker

Gijs De Rijk

12:30
