MPI, soft QCD and diffraction session I

Session |**Location:** Borgo, Corsica, Club Belambra "Pineto" Lido de la Marana Route du Cordon Lagunaire 20290 Borgo France

09:00–09:35

Elastic scattering at the LHC: what have we learnt?

Speakers

Christophe Royon, Jan Kaspar

09:35–09:55

Updated RENORM/MBR predictions for diffraction at the LHC

Speaker

Prof. Konstantin Goulianos

09:55–10:15

A model for soft interactions based on the CGC/saturation approach

Speaker

Errol Gotsman

10:15–10:35

PDF up to the LHC: a statistical approach

Speaker

Jacques Francis Soffer

10:35
