

# Phenomenology 2015 Symposium

## Tuesday, 5 May 2015

### BSM III - G31 (14:00 - 16:00)

-Conveners: James Gainer

time	[id] title	presenter
14:00	[55] Search for new physics in the low MET monophoton channel with the CMS Detector	ORIMOTO, Toyoko
14:15	[9] Characterizing Invisible Electroweak Particles through Single-Photon Processes in $e^+e^-$ Colliders	WANG, Xing
14:30	[42] A Model of Flavor and Flavor Changing	Prof. BARR, Stephen
14:45	[90] Searches for new physics in final states with an electron/muon pair at CMS	GUTH, Andreas
15:00	[26] Hunting for Hierarchies in $\mathcal{PSL}_2(7)$	PEREZ, Michael
15:15	[56] Anarchy In Unified Theories	SAAD, shaikh
15:30	[159] Spurion Analysis of the Little Flavor Model	GRABOWSKA, Dorota
