PanDA instance for supercomputer HPC2 @ NRC-KI
Main Issues

- **PanDA packaging**
  - Taiwan instance, EC2 instance, NRC KI instance
  - Form new group – will start meetings

- **PanDA as a service beyond ATLAS**
  - Useful for HPC workload management
  - Useful for other communities like biology
  - ALICE group will restart now after holidays

- **PanDA core**
  - Need a slimmed down version
  - Reduced dependencies on certificates, services, VOMS, DDM…
  - For example, local APF
  - For example, local catalog
