

Dark Matter: Astrophysical probes, Laboratory tests, and Theory aspects

Dark Matter:
Astrophysical probes,
Laboratory tests, and
Theory aspects

Feb 2015
Munich Institute for Astro- and Particle Physics

Contribution ID: 41

Type: **not specified**

Beyond DM EFT: Higgs portal DMs as examples

Thursday 19 February 2015 15:30 (30 minutes)

Presenter: Prof. KO, pyungwon (Korea Inst. for Advanced Study (KIAS))

Session Classification: Miniworkshop on QFT aspects of dark matter
