

Session Program

8-9 Apr 2015

2nd RDA Europe Science Workshop

Report Summaries

CERN, 31/3-004 - IT Amphitheatre

Wednesday 8 April

11:15

Report Summaries

Session | **Location:** CERN, 31/3-004 - IT Amphitheatre

11:15–11:30 Summary of 1st RDA EU Science Workshop

Speaker

Bernard Schutz

11:30–11:50 Summary of 1st RDA US Science Workshop

Speaker

Cees De Laat

11:50–12:10 Summary of Data Harvest Report

Speaker

Leif Laaksonen

12:10–12:30 Summary of Data Practices Report

Speaker

Peter Wittenburg

12:30–13:00 Q&A and Discussion about Reports

Subcontributions

Do you think that the take-up of Science WS recommendations by RDA EU is satisfactory? How could it be improved?

Do you think that RDA as it works now is sufficiently owned by researchers?

Are Data Sharing, Re-use and Interoperability issues of relevance for you and if so how?

Are mechanisms to improve trust with increasing data worldwide?

How can personal data be protected, or is that impossible? Do we need to simplify?

To what extent should the lead be undertaken by computer scientists or by users from other disciplines? How can the maximum benefit be obtained by balancing push and pull?

Do you agree with the major statements of the Data Harvest Report (summary see attachment)? If so, how can the recommendations be fully realised?

Do you agree with the major statements of the Data Practices Report (summary see attachment)? If so, how can current practice being changed?

Which are the main obstacles for you and your colleagues when working with research data and are they met in the reports?

Should initiatives such as RDA be core funded by the EC and member states working together?
