

Interferometric measurement of electron density in plasma medium for laser wakefield acceleration

Thursday 15 October 2015 17:15 (40 minutes)

Recent interferometric measurement of electron density distribution of plasma driven by petawatt laser, which is important for studying laser wakefield acceleration process will be presented.

Author: Dr SHIN, Junghun (Advanced Photonics Research Institute, Gwangju Institute of Science and Technology)

Co-authors: Mr HOJBOTA, Calin (Department of Physics and Photon Science, Gwangju Institute of Science and Technology); Prof. NAM, Chang Hee (Center for Relativistic Laser Science, Institute of Basic Science); Dr LEE, Hwang Woon (Center for Relativistic Laser Science, Institute of Basic Science); Dr KIM, Hyung Taek (Advanced Photonics Research Institute, Gwangju Institute of Science and Technology); Dr SUNG, Jae Hee (Center for Relativistic Laser Science, Institute of Basic Science); Prof. NAKAJIMA, Kazuhisa (Center for Relativistic Laser Science, Institute of Basic Science); Dr LEE, Seong Ku (Center for Relativistic Laser Science, Institute of Basic Science)

Presenter: Dr SHIN, Junghun (Advanced Photonics Research Institute, Gwangju Institute of Science and Technology)

Session Classification: POSTER SESSION

Track Classification: Poster session
