**Session Program**

26–28 May 2015

PSR15

Developments in resummation

Tuesday 26 May

13:15

Developments in resummation
Session | **Location:** | **Convener:** Mrinal Dasgupta

13:15–14:00 **Generalised resummation for QCD jet observables**

Speaker
Pier Francesco Monni

14:00–14:45 **Progress in SCET**

Speaker
Thomas Becher

14:45–15:15 **Coffee break**

15:15–15:45 **Radiation beyond the soft approximation**

Speaker
Chris White

15:45–16:15 **Coulomb gluons and the ordering variable**

Speaker
Rene Angeles Martinez

16:15–16:45 **N-jettiness Subtractions for NNLO QCD Calculations**

Speaker
Jonathan Gaunt

17:00

Thursday 28 May

09:00

Developments in resummation
Session | **Location:** | **Conveners:** Krzysztof Kutak, Wiesiek Placzek

09:00–09:30   **A study of microjets**

Speaker
Frédéric Dreyer

09:30–10:00   **NLL event shape resummation within the Sherpa framework**

Speaker
Steffen Schumann

10:00–10:30   **Coffee break**

10:30–11:00

Non-global logarithms and the BFKL equation beyond the leading order

Speaker
Simon Caron-Huot

11:00–11:30

Resummation effects within k_t-factorization for $c \bar c$ and $c \bar c c \bar c$ production

Speaker
Antoni Szczurek

11:30–12:00   **Towards NLL threshold resummation for $2\to 3$ type processes**

Speaker
Vincent Theeuwes

12:00–12:30   **Automated calculations of dijet soft functions in SCET**

Speaker
Rudi Rahn

12:30
