

# Topics for diffractive discussion session

- Future of measurements at HERA - Issues - Alice
- FL<sup>A</sup>D prospects in H1 - David
- Proton dissociation at HERA - Leif, Gosta
- Exclusive and inclusive diffraction - Christophe
- Soft and hard pomeron – Jean-Rene
- Hybrid model for diffraction at Tevatron and LHC - Robi
- Forward physics at the LHC - Laszlo
- Photon anomalous coupling at the LHC – Christophe
- Future measurements at the Tevatron, needs for LHC
- From HERA to LHC, survival probabilities?
- LHC: First diffractive measurements, diffraction at high lumi
- Soft diffractive cross section at the Tevatron - Dino
