Starting with Quattor development and unittesting

Thursday, 5 March 2015 10:00 (2 hours)

2 hours (if network permits) hands-on for general introduction to quattor development and unittesting

required for the handson:
- access to RH system with yum
- network
- root permissions (or sudo rights on yum)

Ideally scheduled in the afternoon, in the morning people can run script to already gather everything.
