Talent is universally distributed among  
various people across the world

... but opportunities are not

# Mentoring in a Nutshell

- It is a learning and development partnership between someone with vast experience and another that wants to learn.
- Mentor, Counsellor, Advisor
- Instructs, Guides, Directs
- Protégé, Mentee, Student

# Benefits

- Imagine someone walking up to you and saying “**because of you, I didn’t give up.**”
- In reality, mentoring is a two-way street, you get what you put what in.

- The mind is not a container (vessel) that needs filling
- ... but a wood that needs igniting
- It can create the difference in someone's life.

# Mentoring Application

- An app that would enable easy meeting of new intakes to mentors – accelerating knowledge!
- Connecting like minds and interests
