Shifters

Deputy  
MOMs

Daily Ops  
18 Meetings

**Getting this far took...**

**TOF**

**Run Plans**

**Meetings**

**Water**

**DS**

**PPS**

**BLOC**

**Target**

**PRY**

**Alignment**

**FC**

**SSU & SSD**

**Beam Settings**

M. Bonesini to health check during CM41.

**DAQ**

**ATWs**

**Beam Authorisation Requests**

**Arranging Meetings**

**Run Control**

**MAUS**

**CDB**

**Shift Cancellations**

**Training**

**Safety**

**Proton Absorber**

**Magnet Cooldown**

**Compressors  
Data Mover**

**ISIS Beam Status**

**Conventional Magnets**

**EMR**

**MDR 3 TK**

**Unpacking**

**Tracker**

**Online Monitoring**

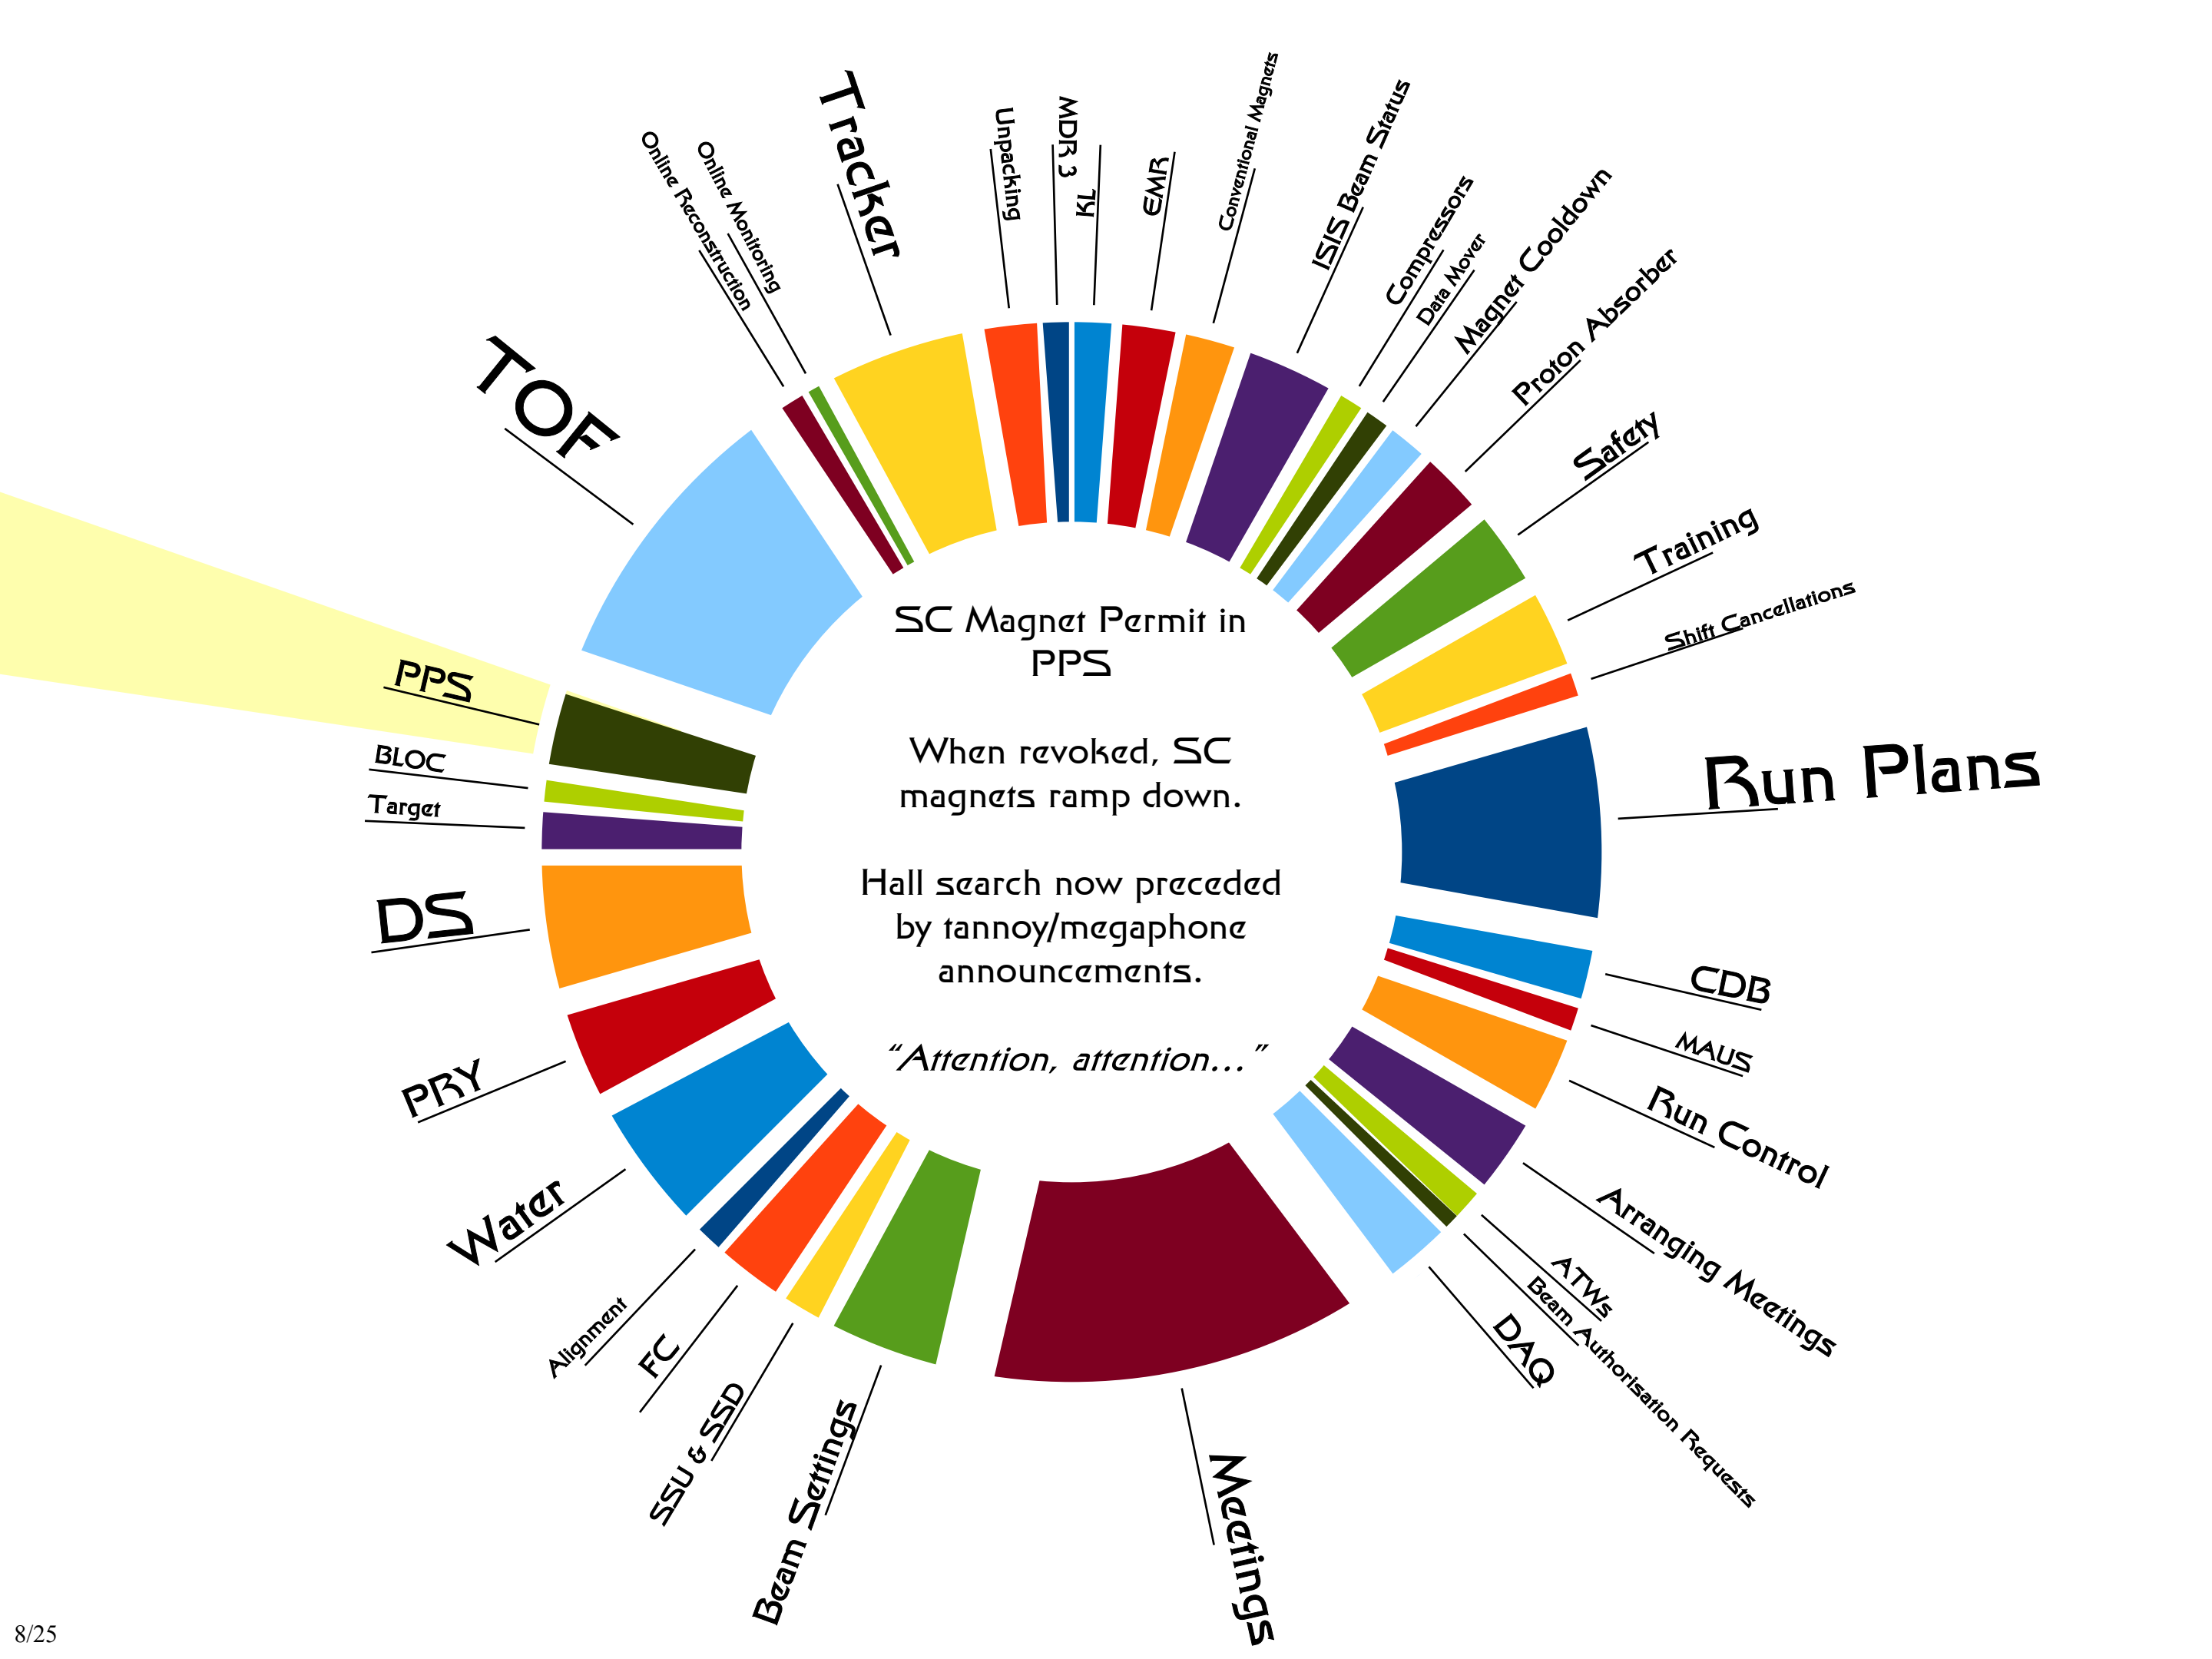

**Online Reconstruction**

TOF1 removed for upstream tracker and PRY installation.

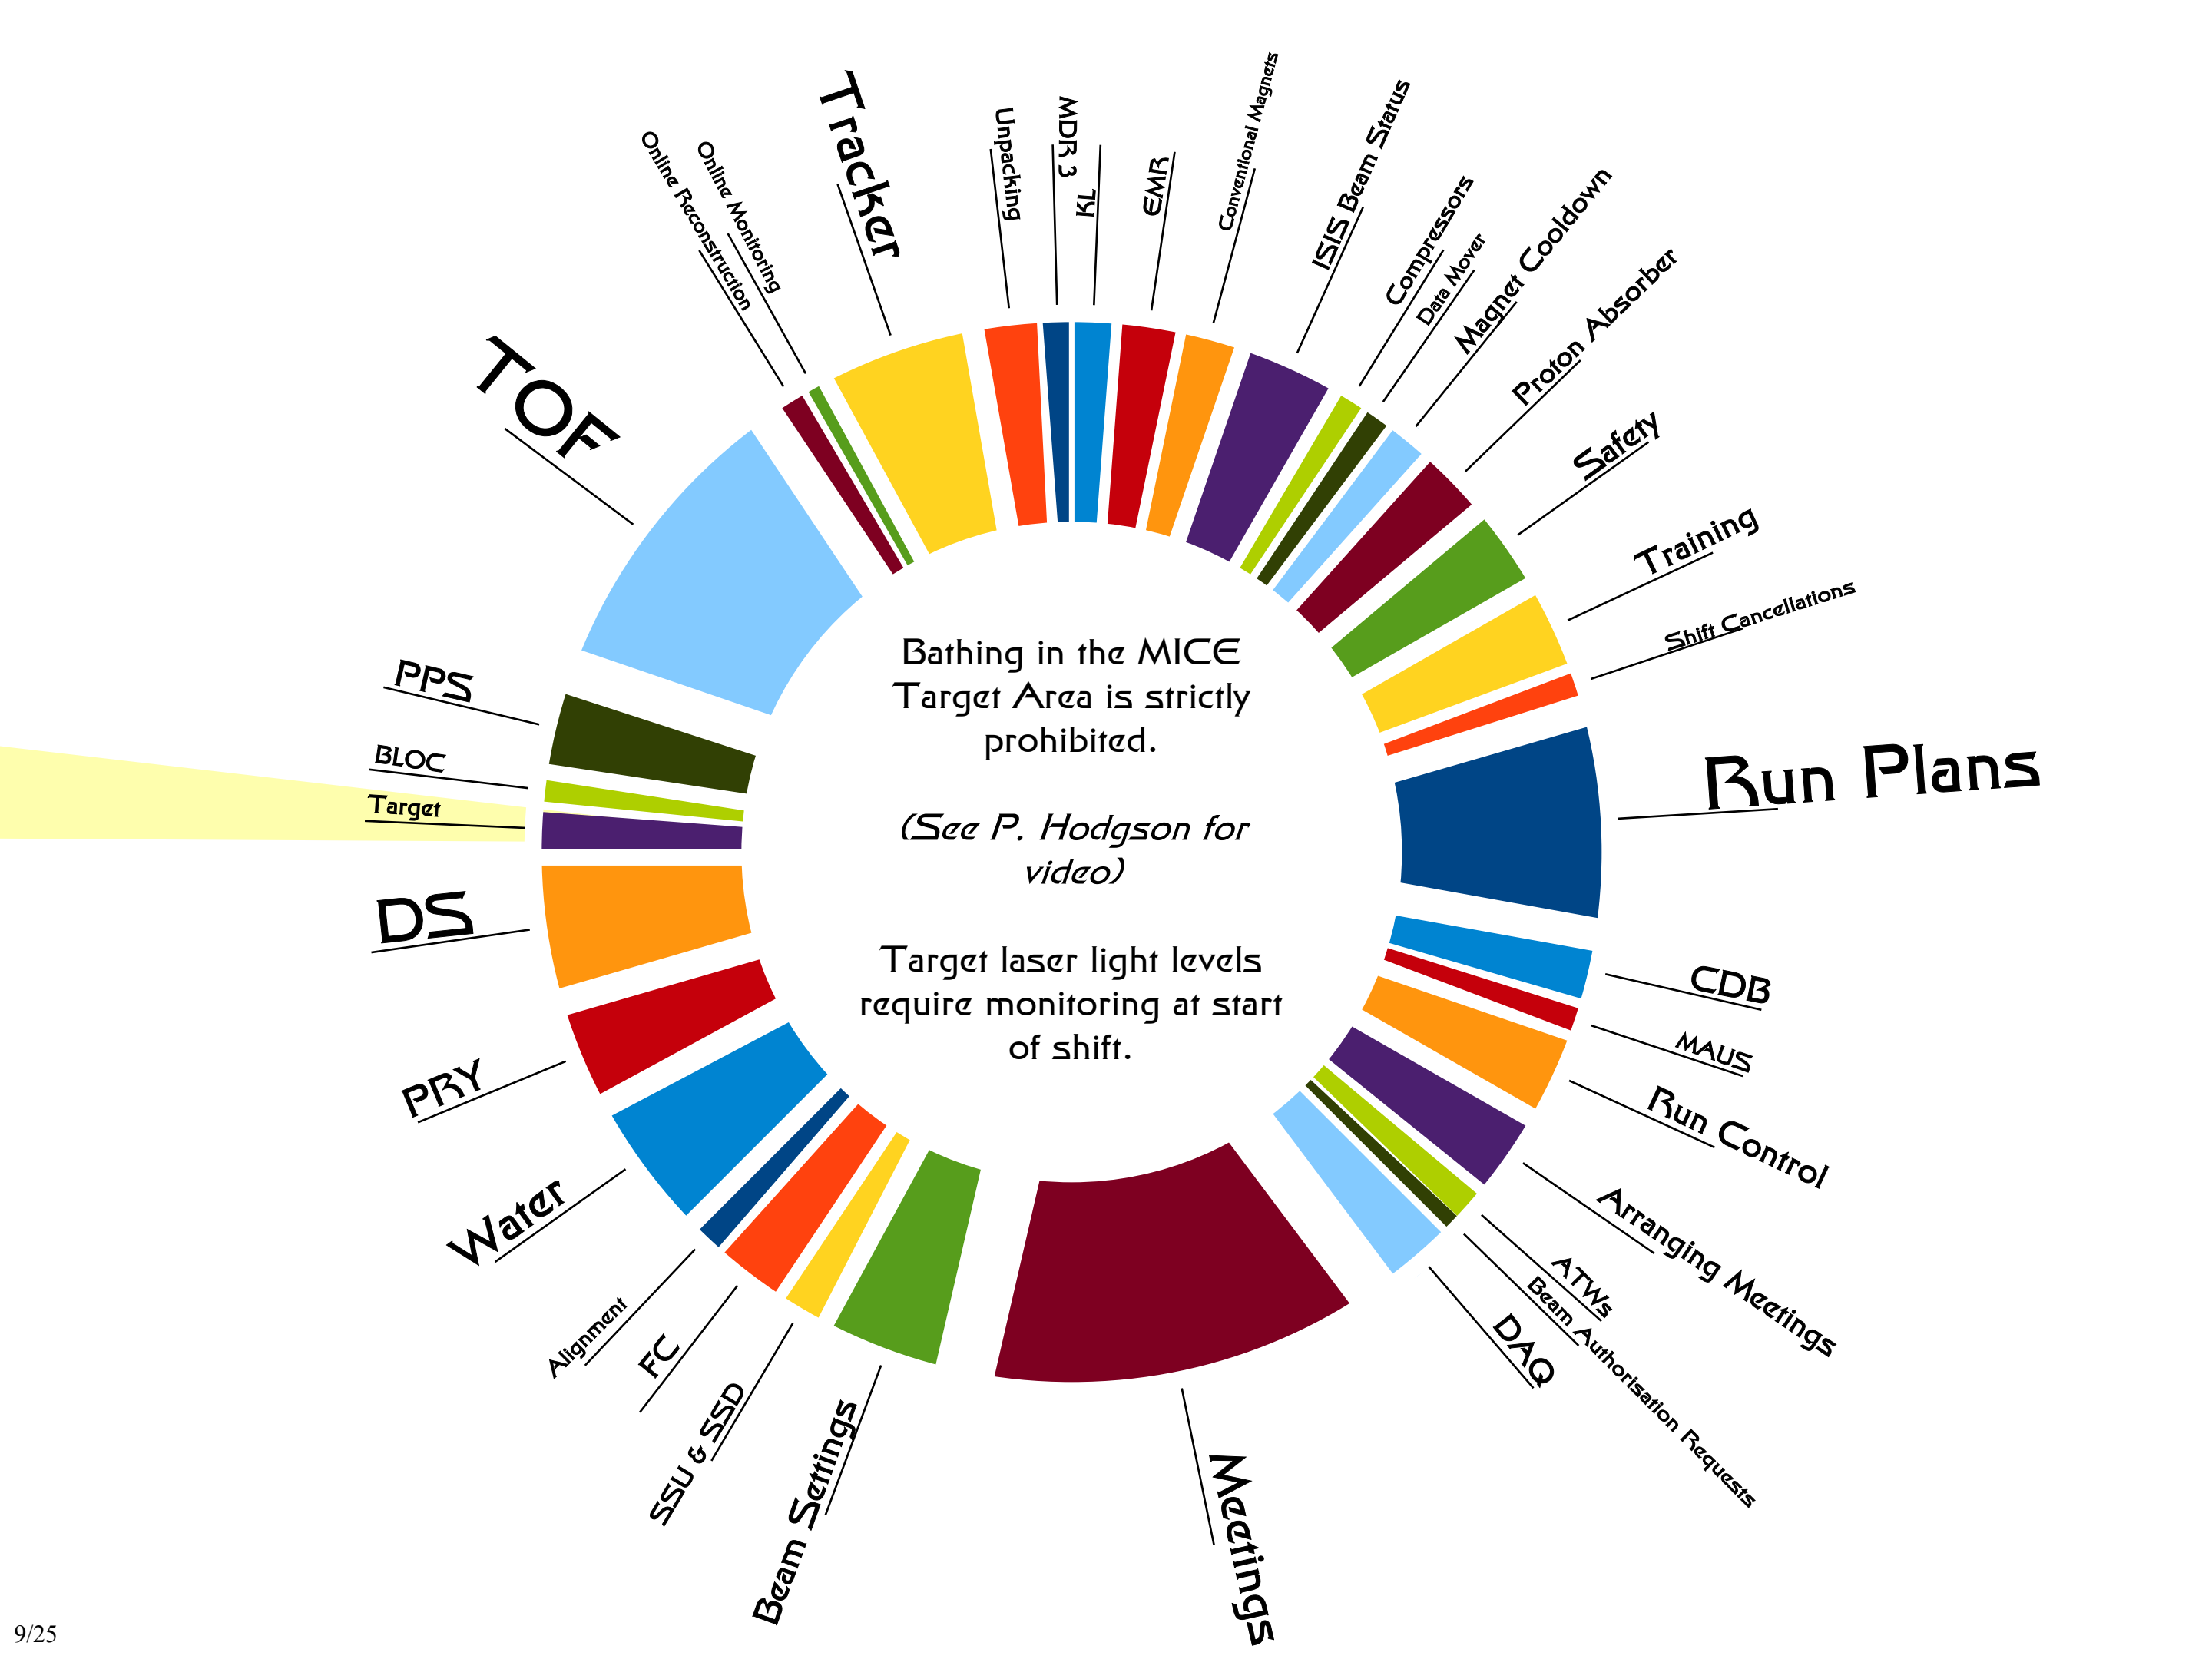

2 HV cables shorted, now repaired

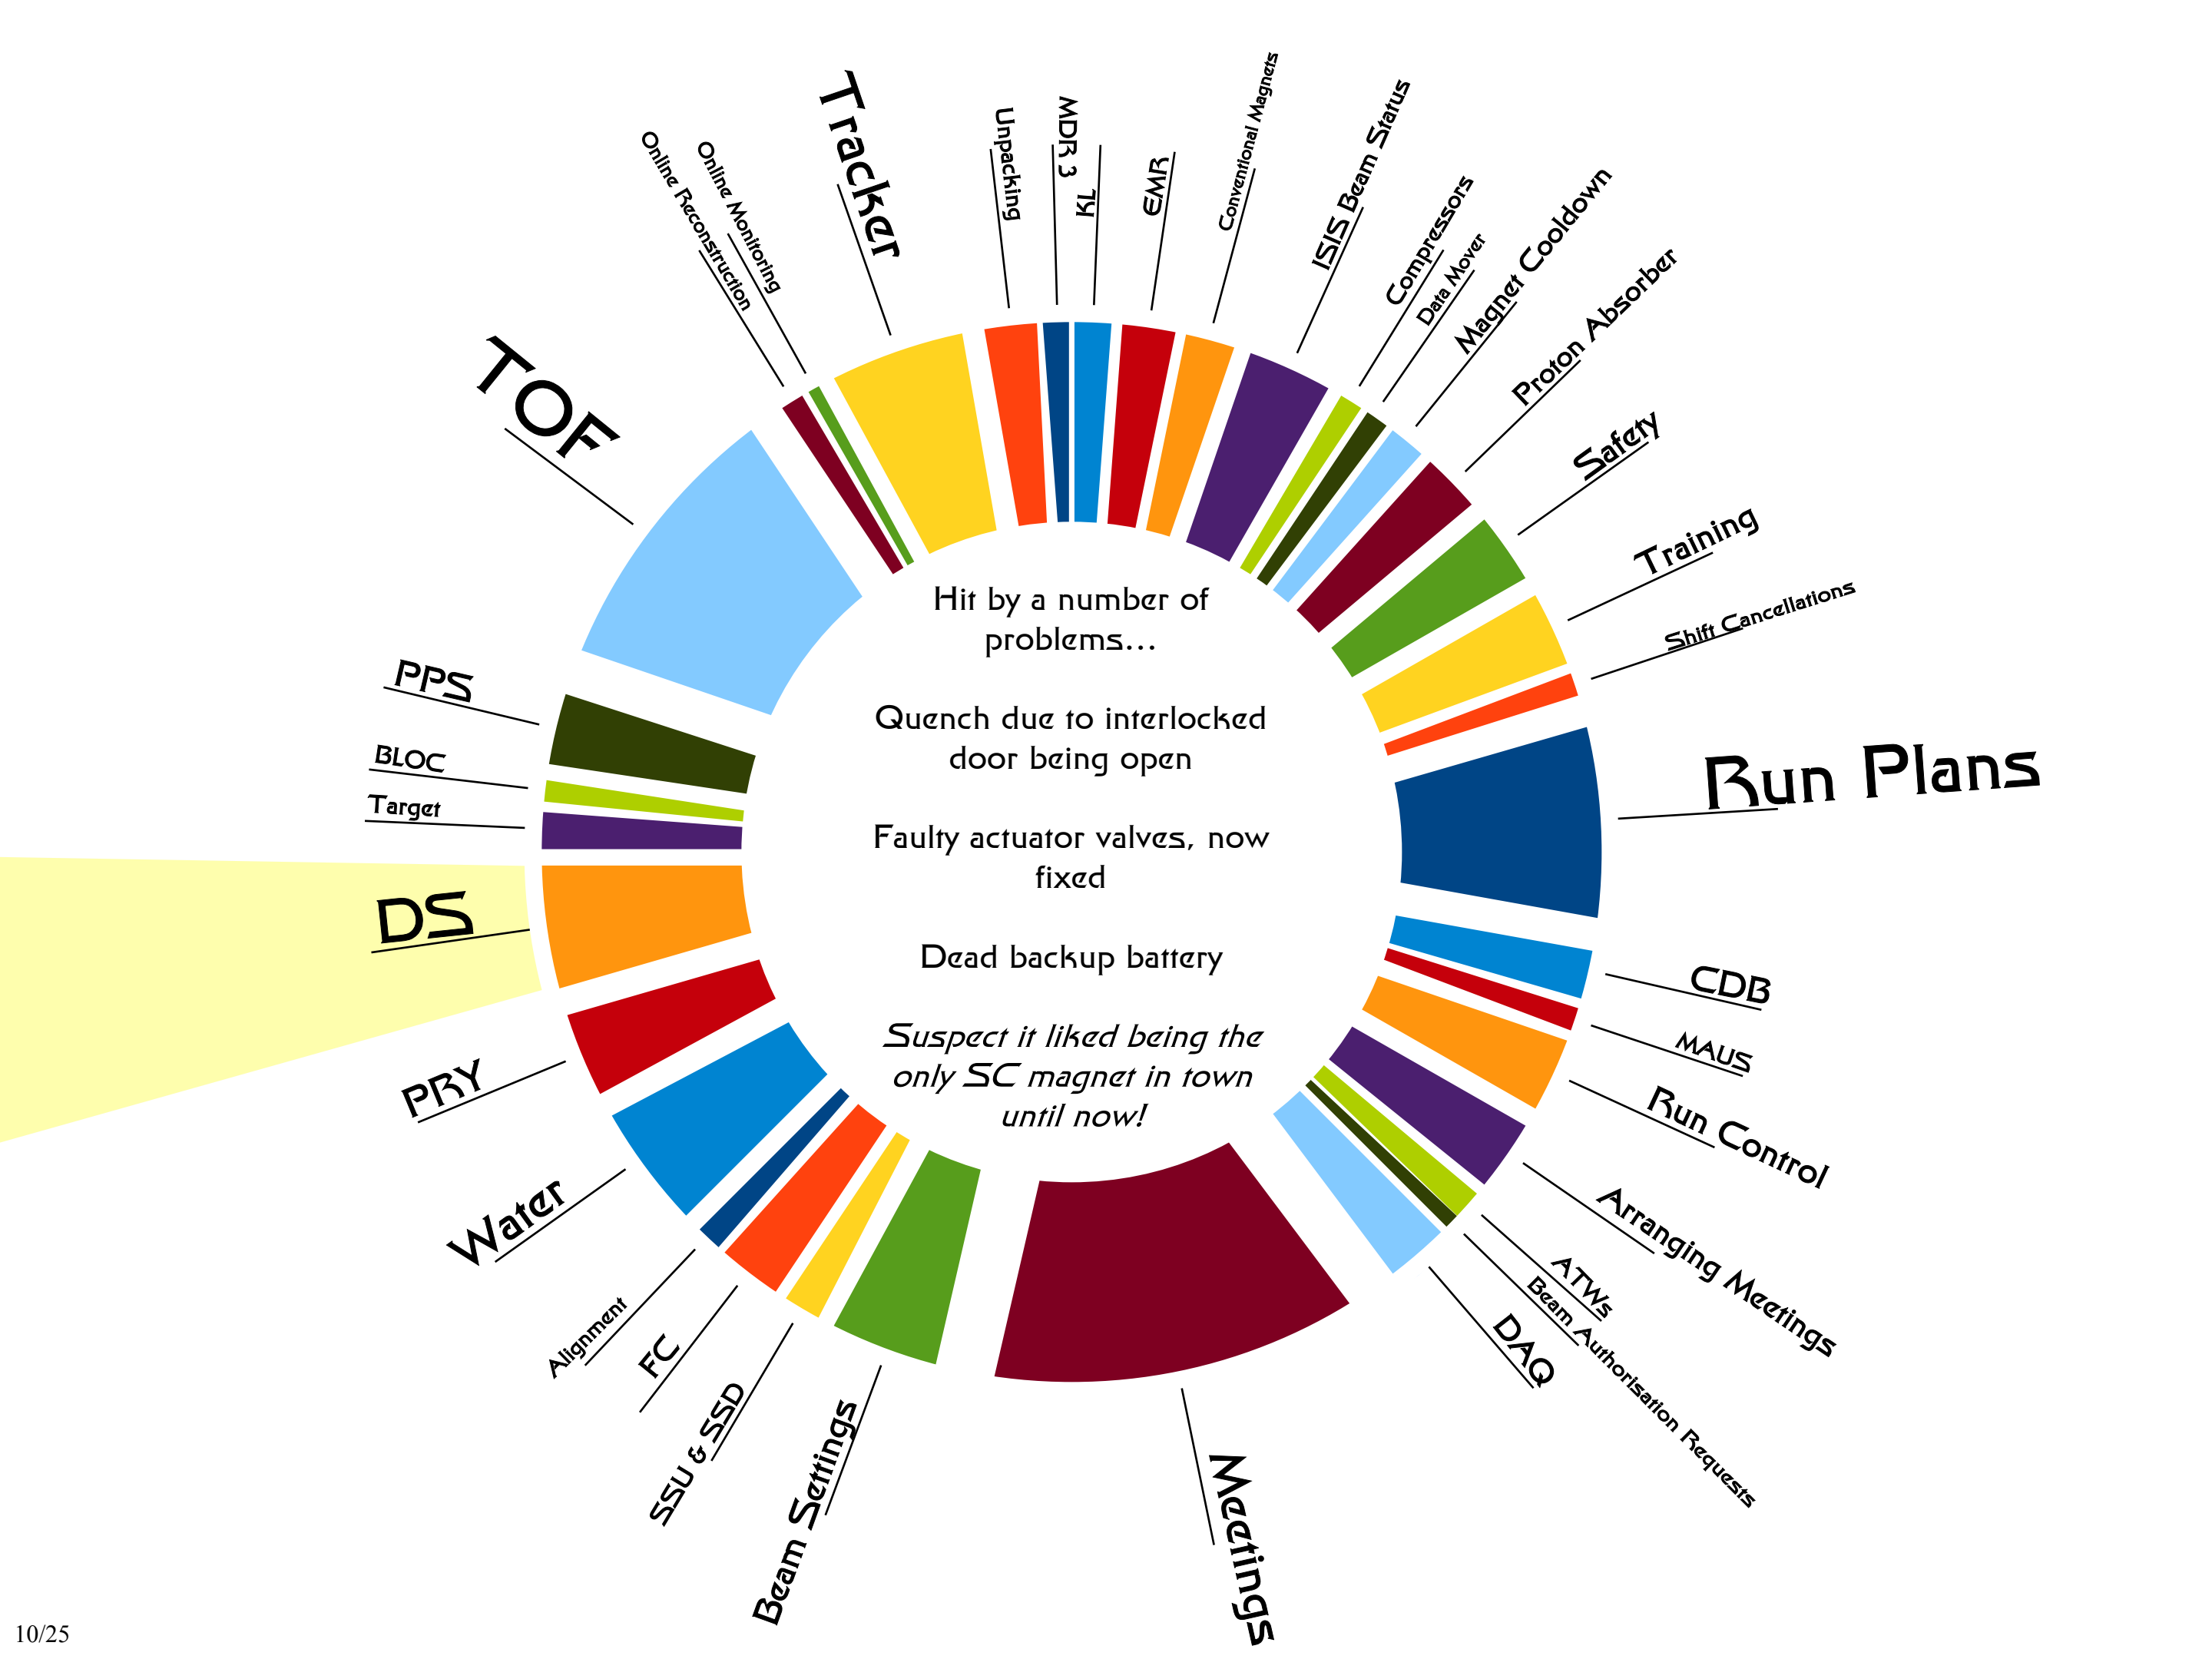

3 signal cables, intact but bruised. Signals OK on oscilloscope.

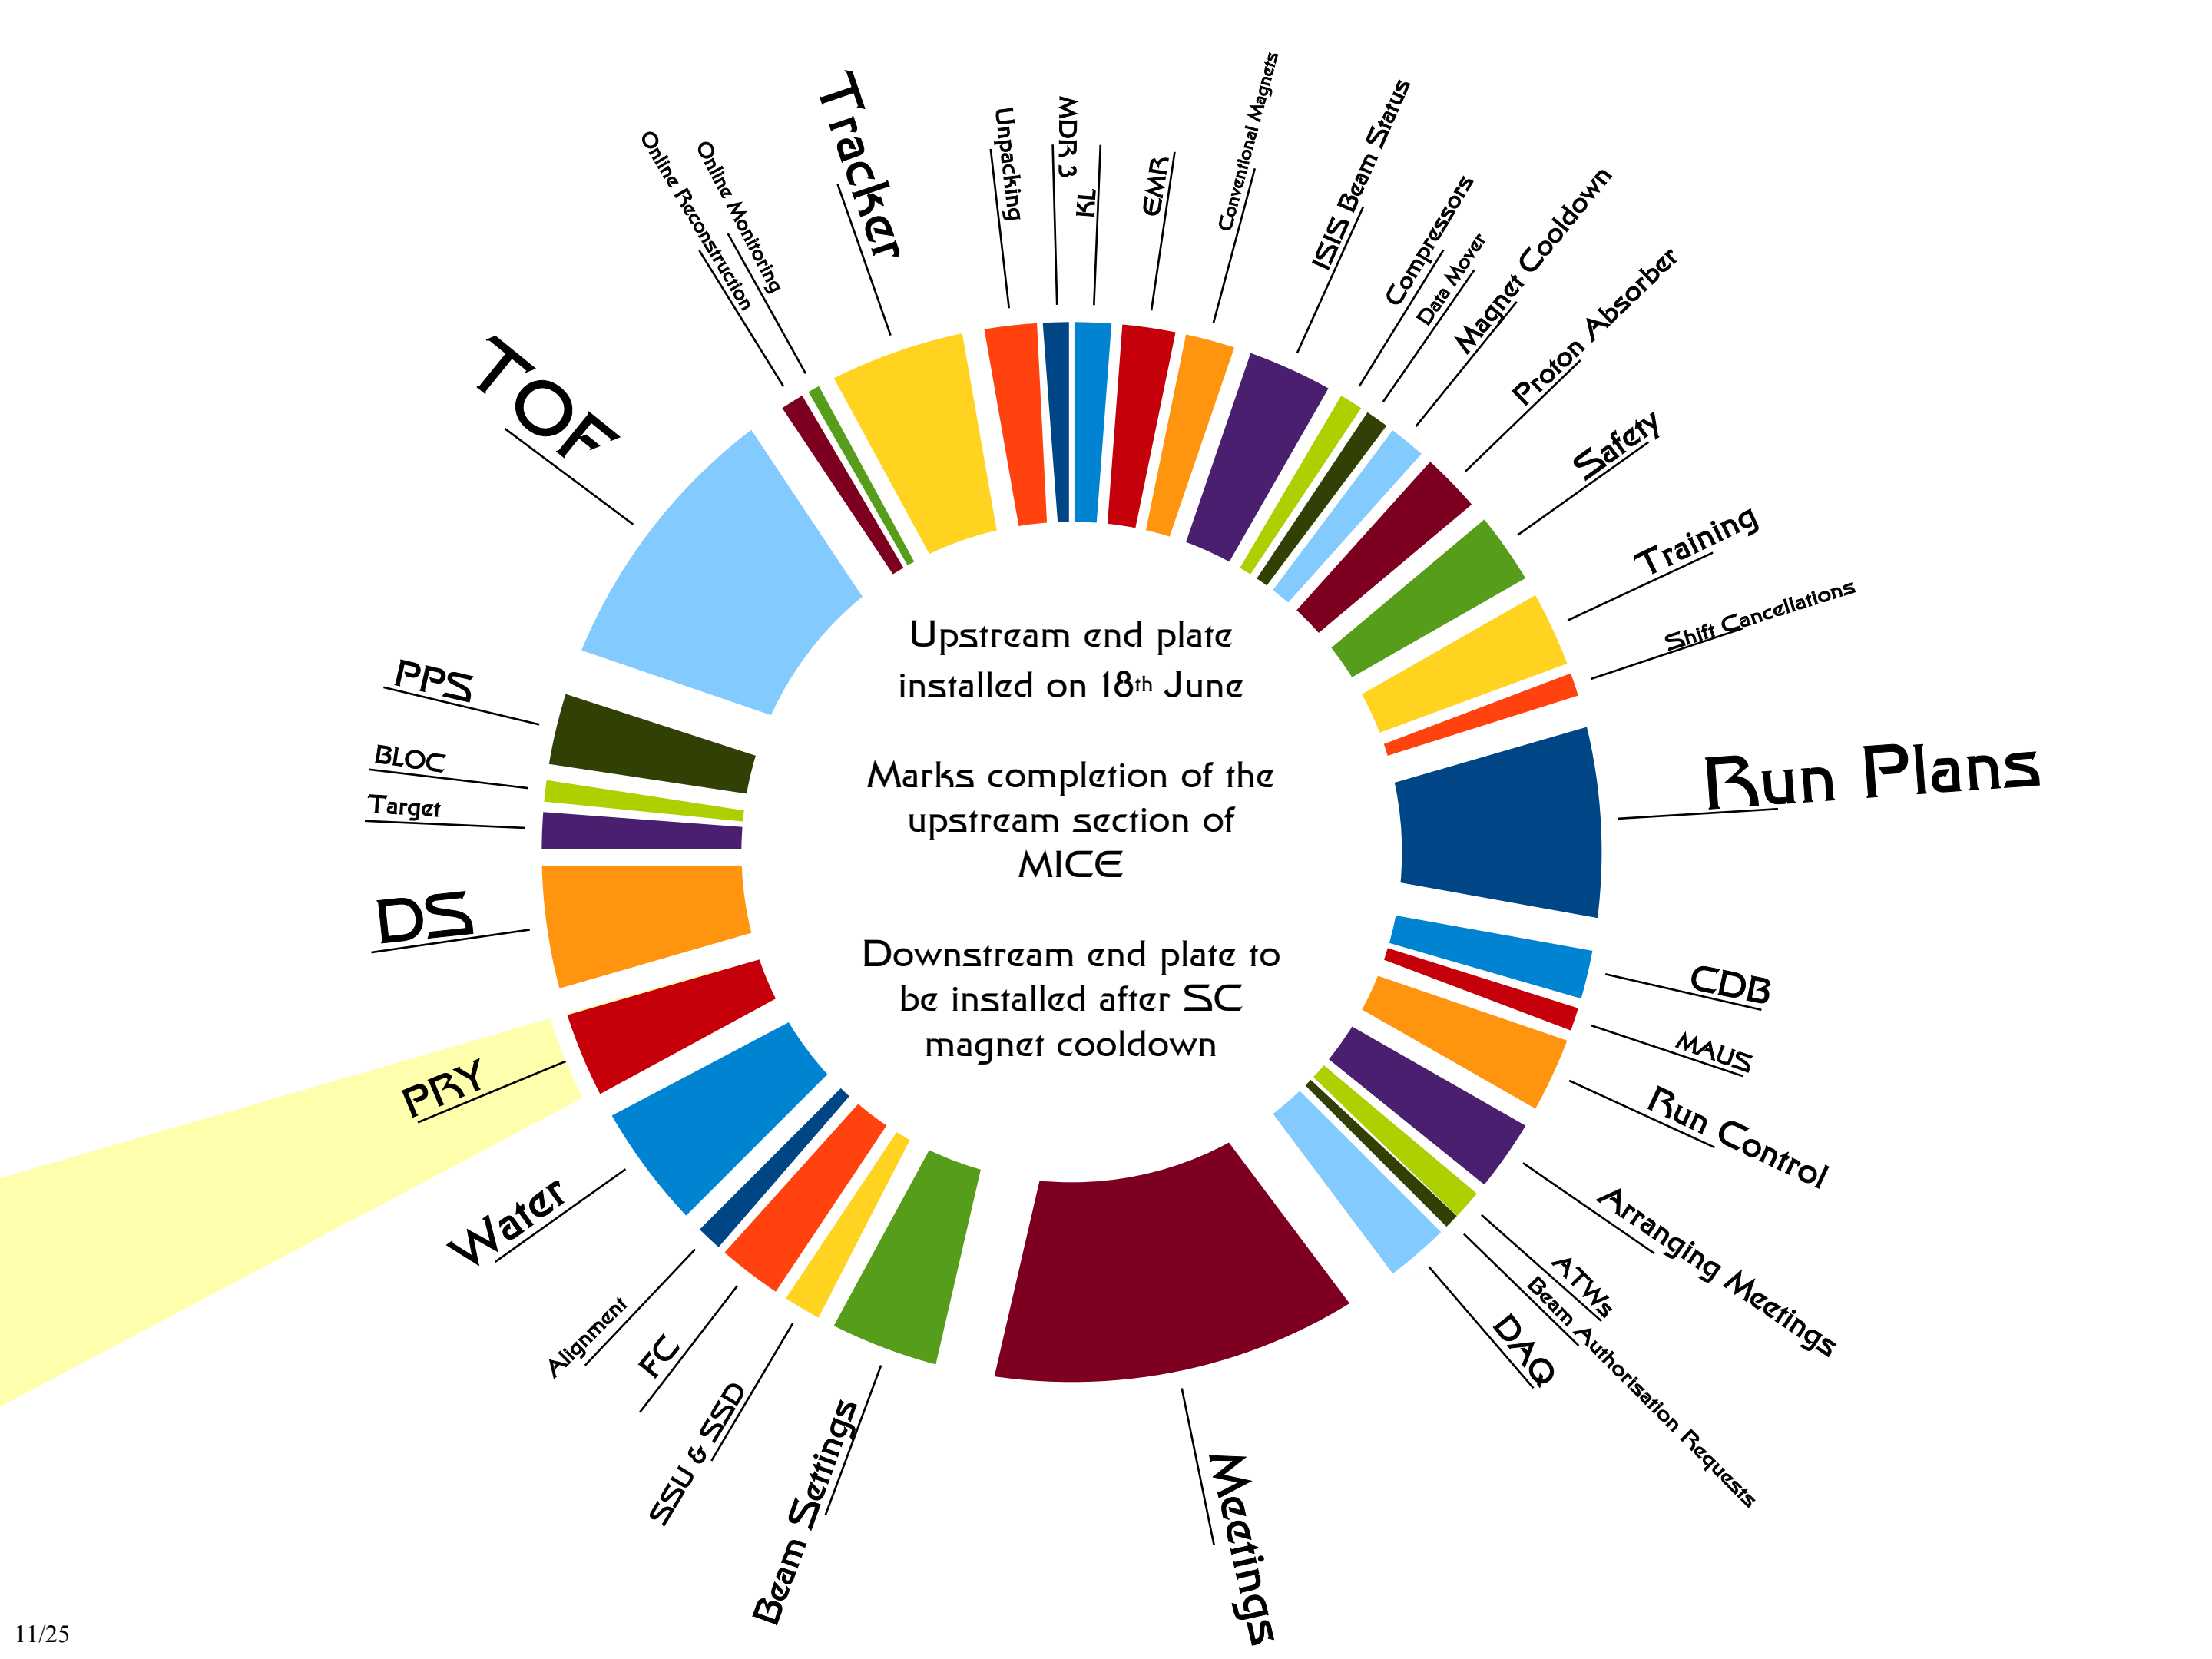

TOF1 back in beam line and taking data.

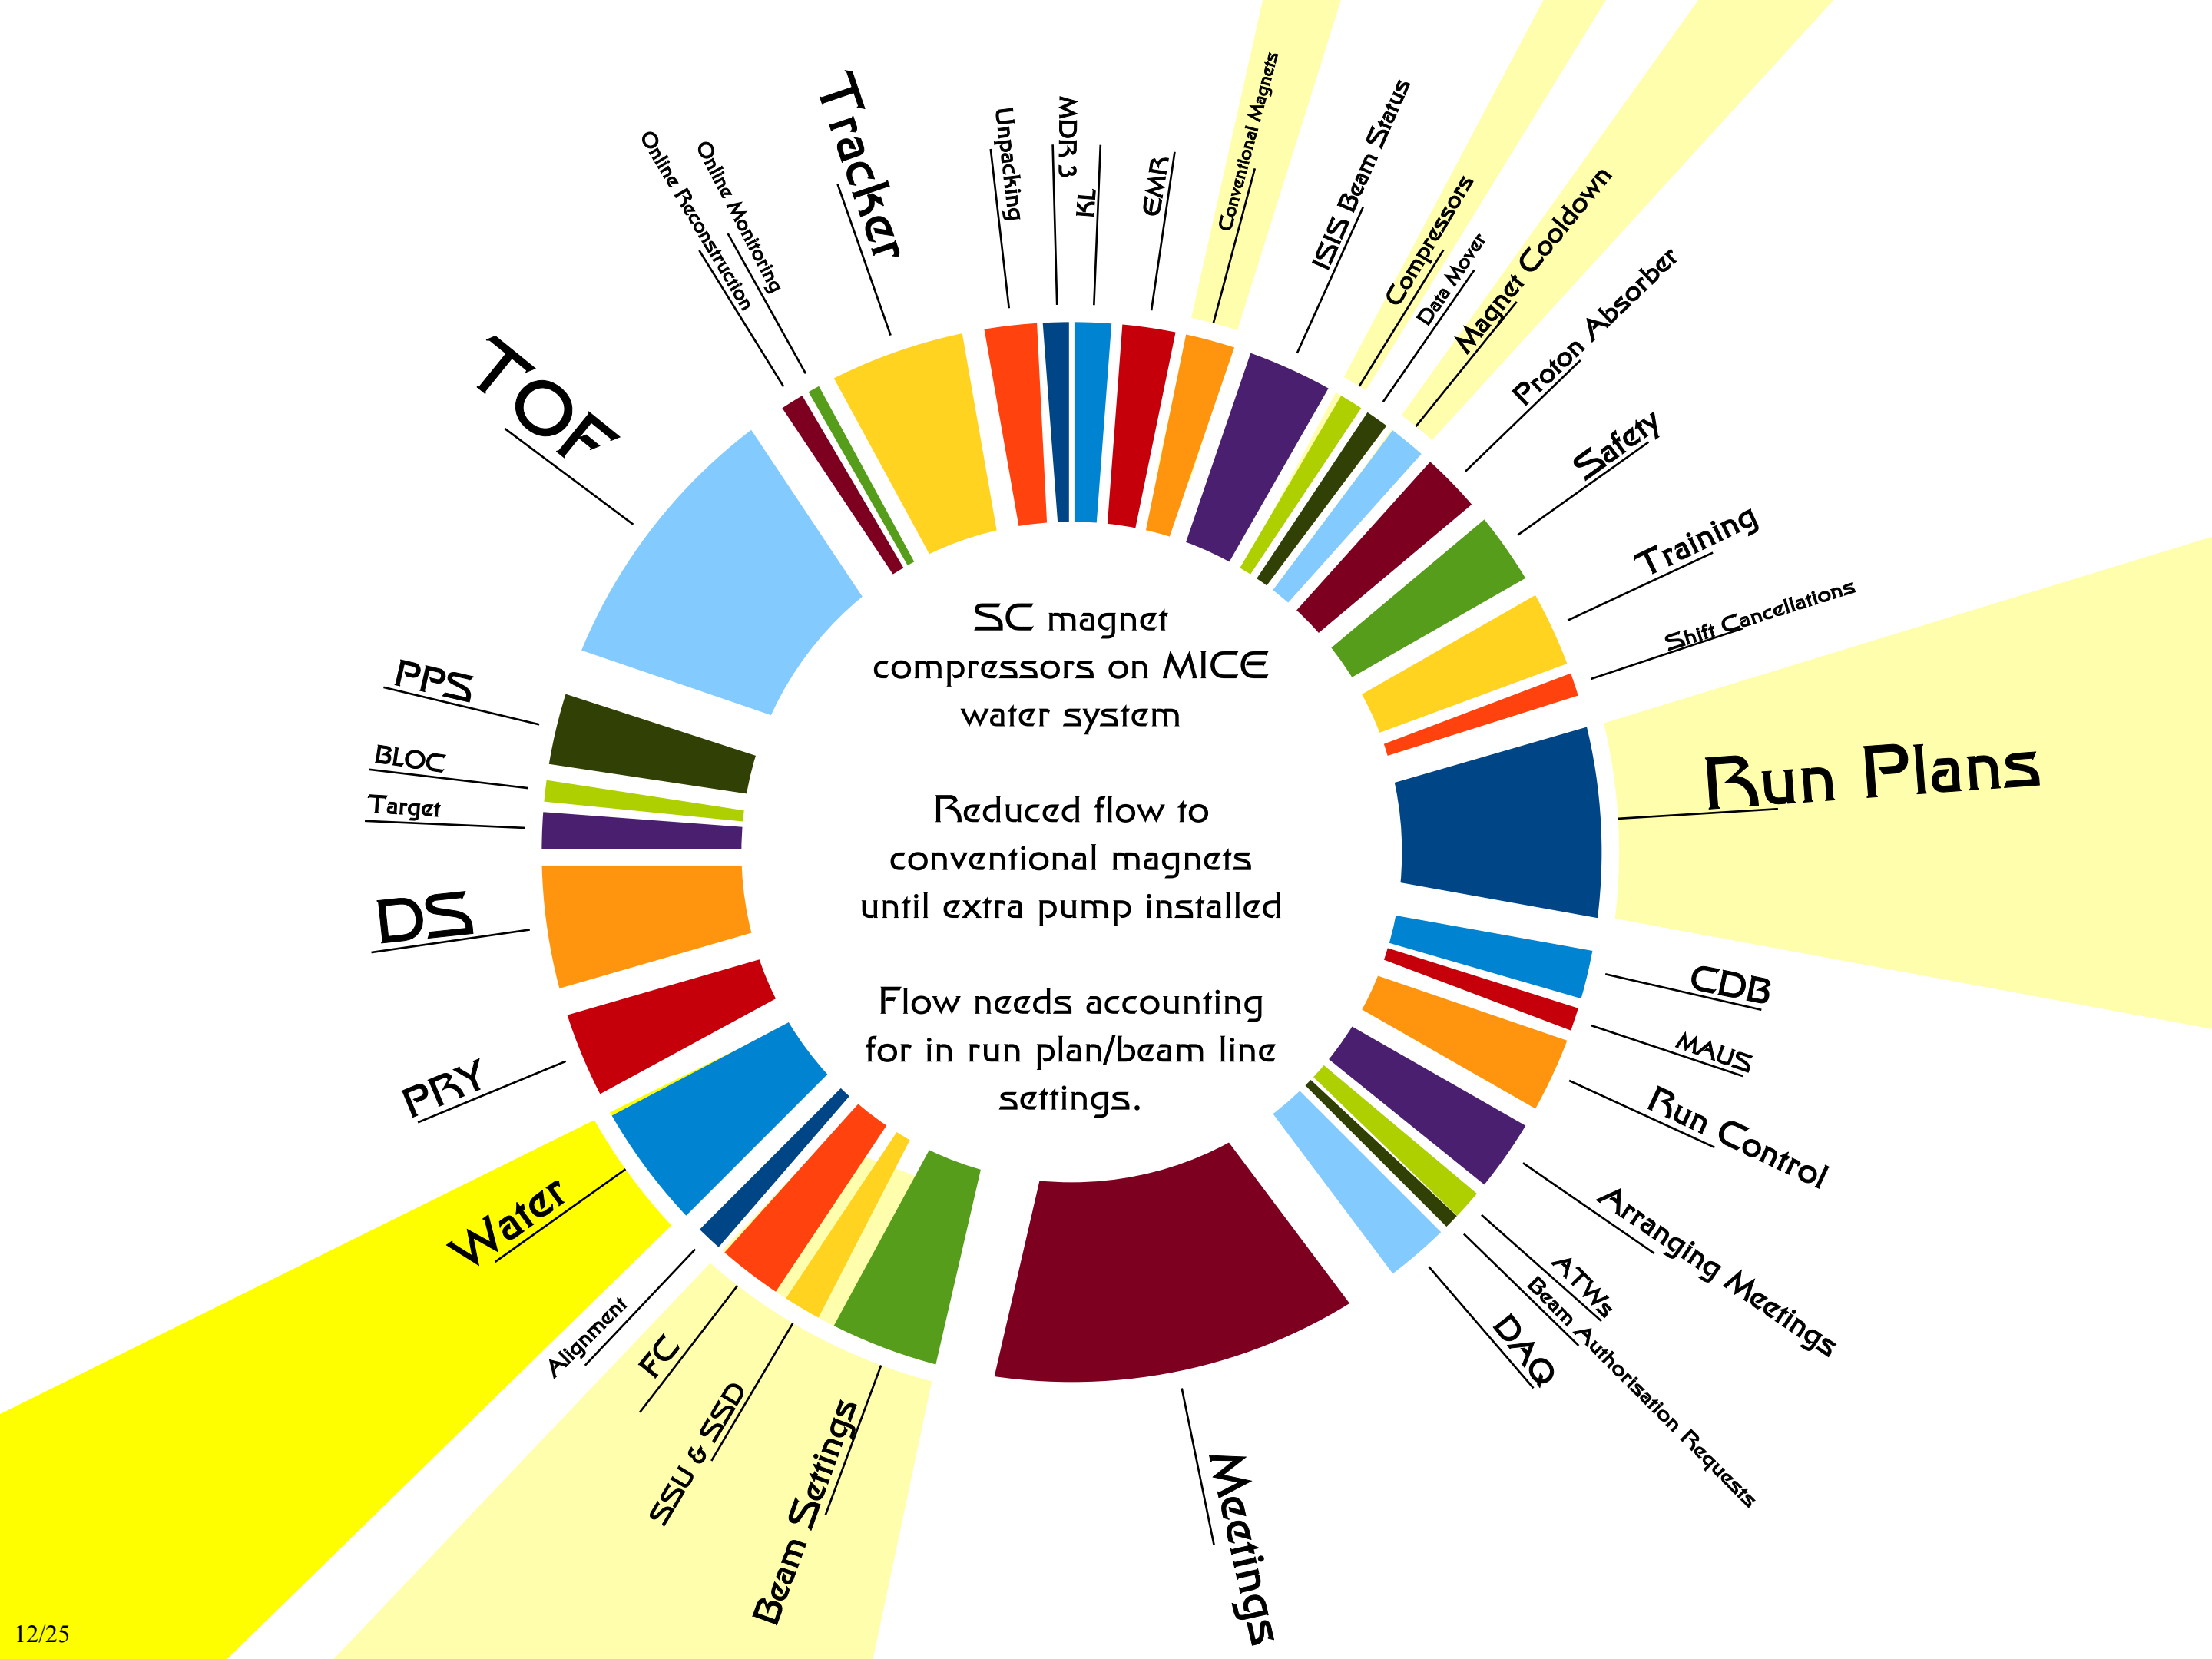

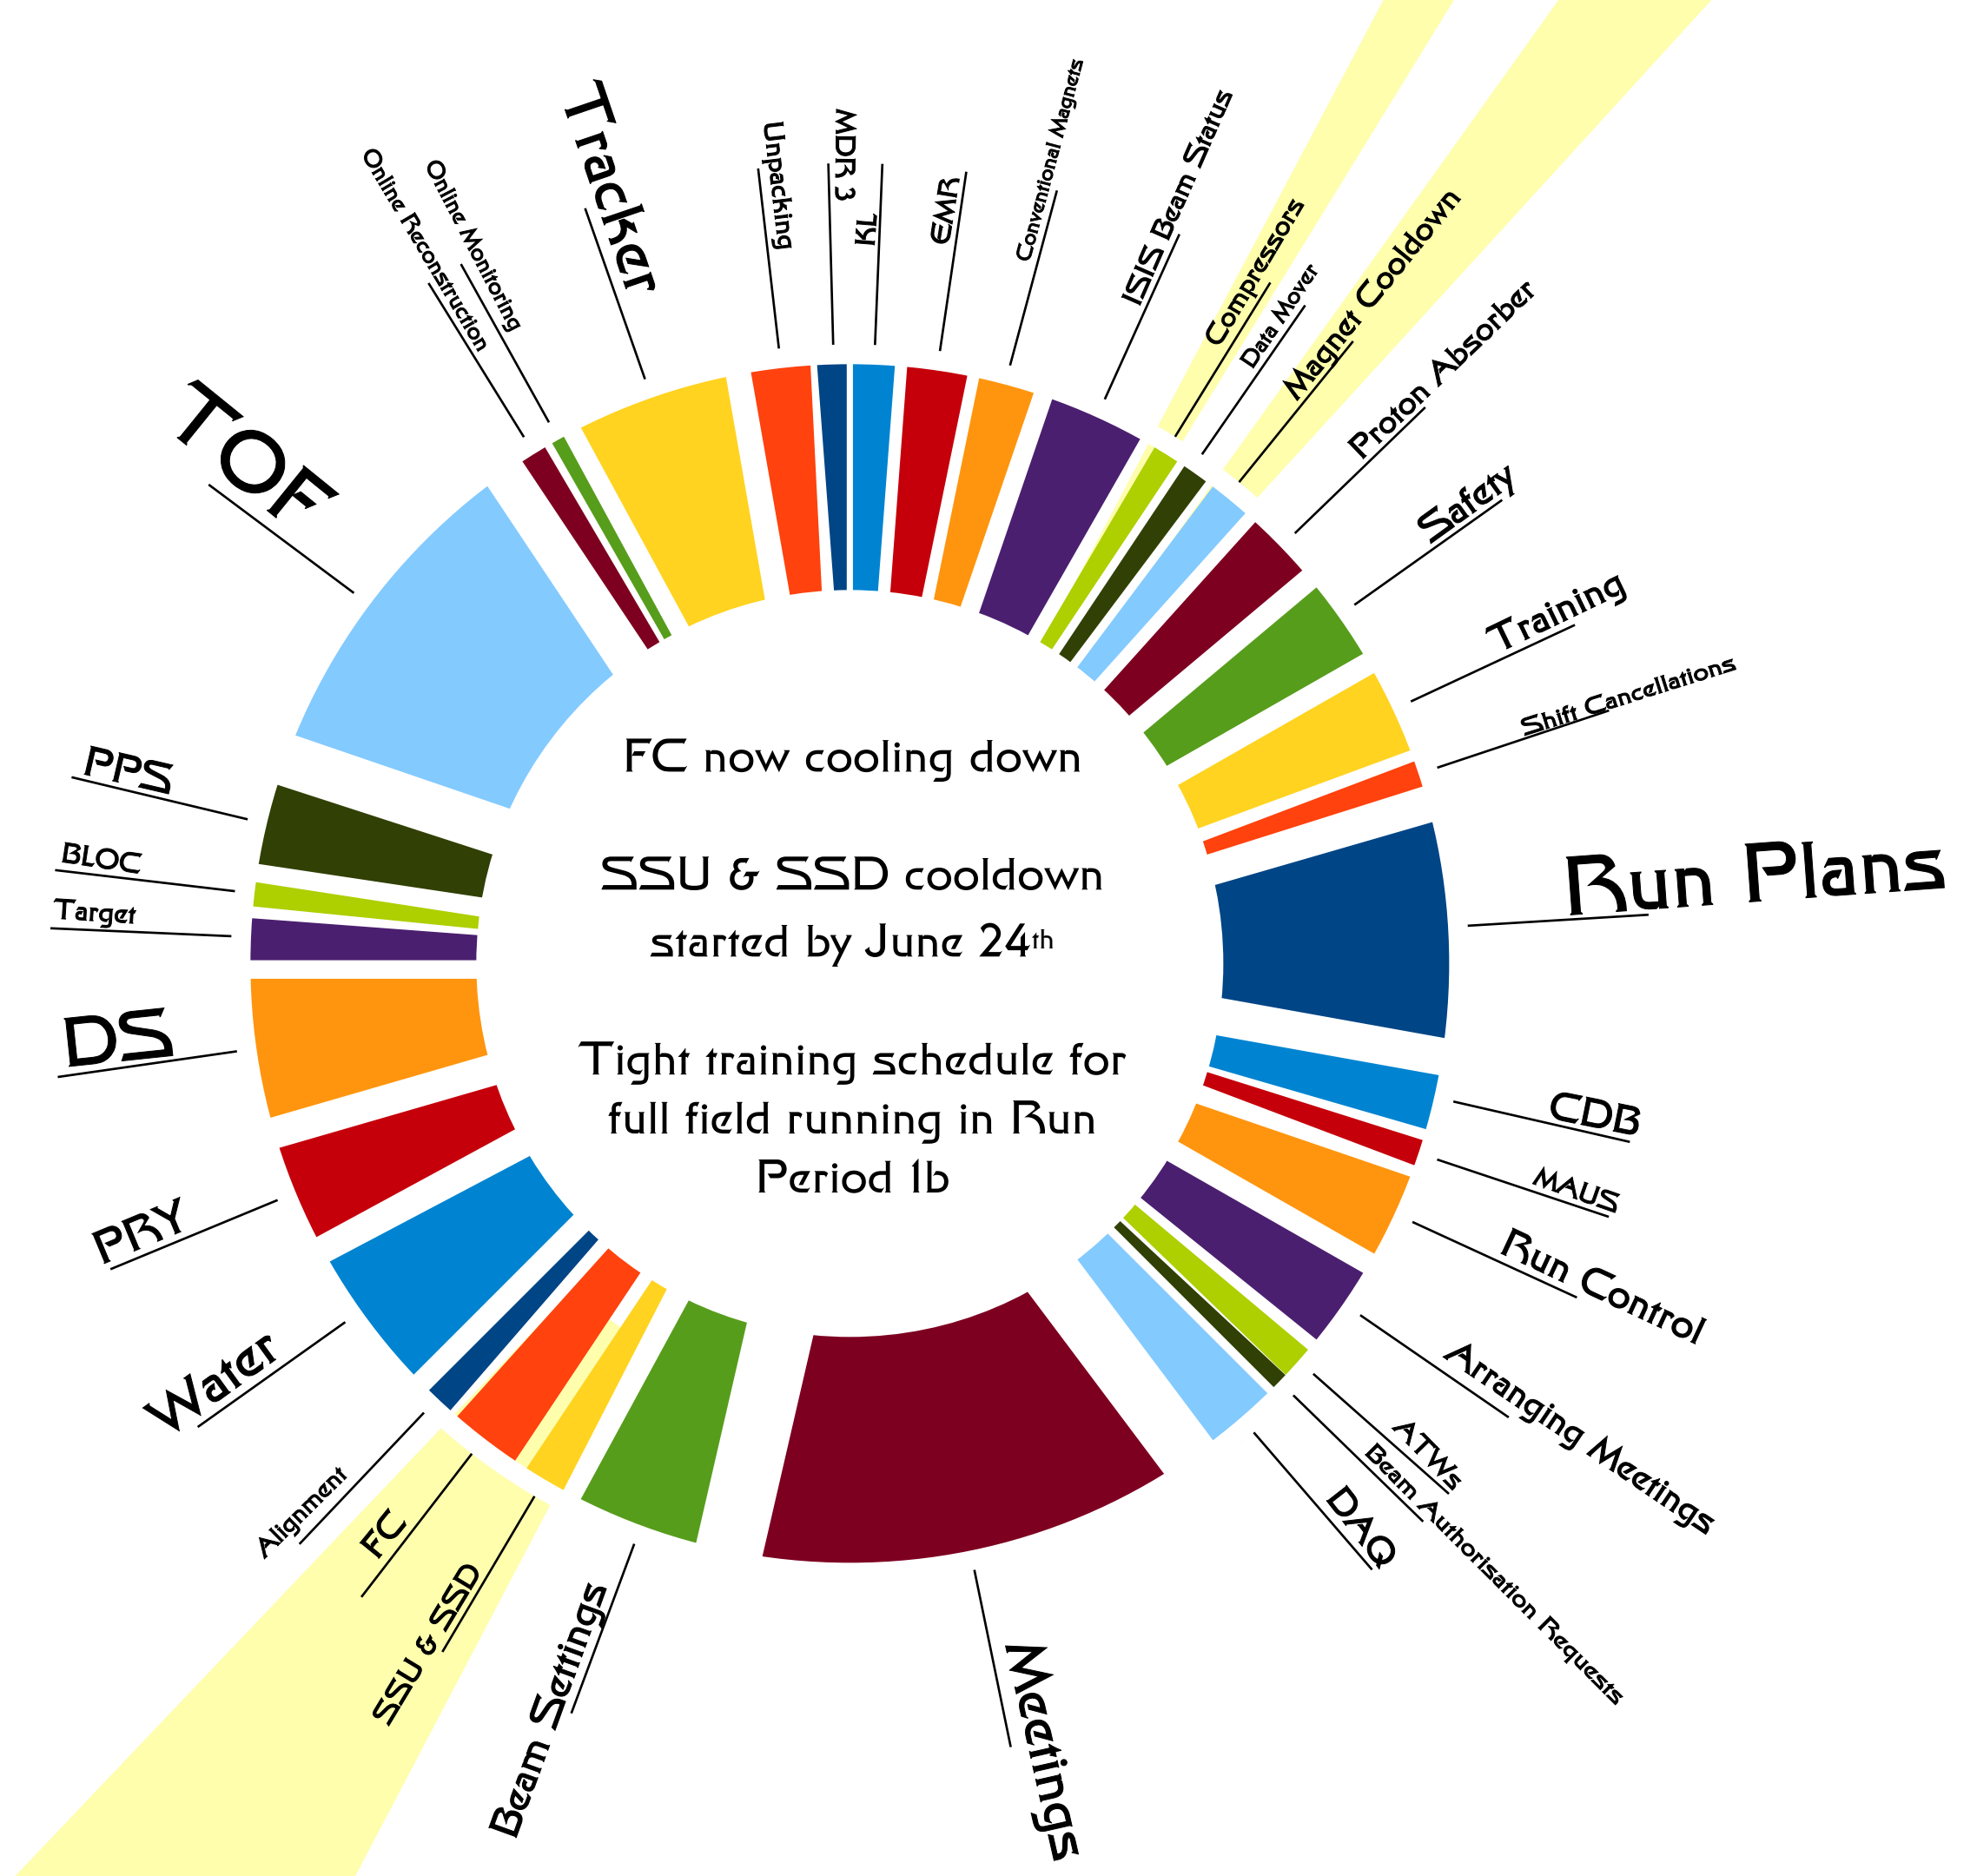

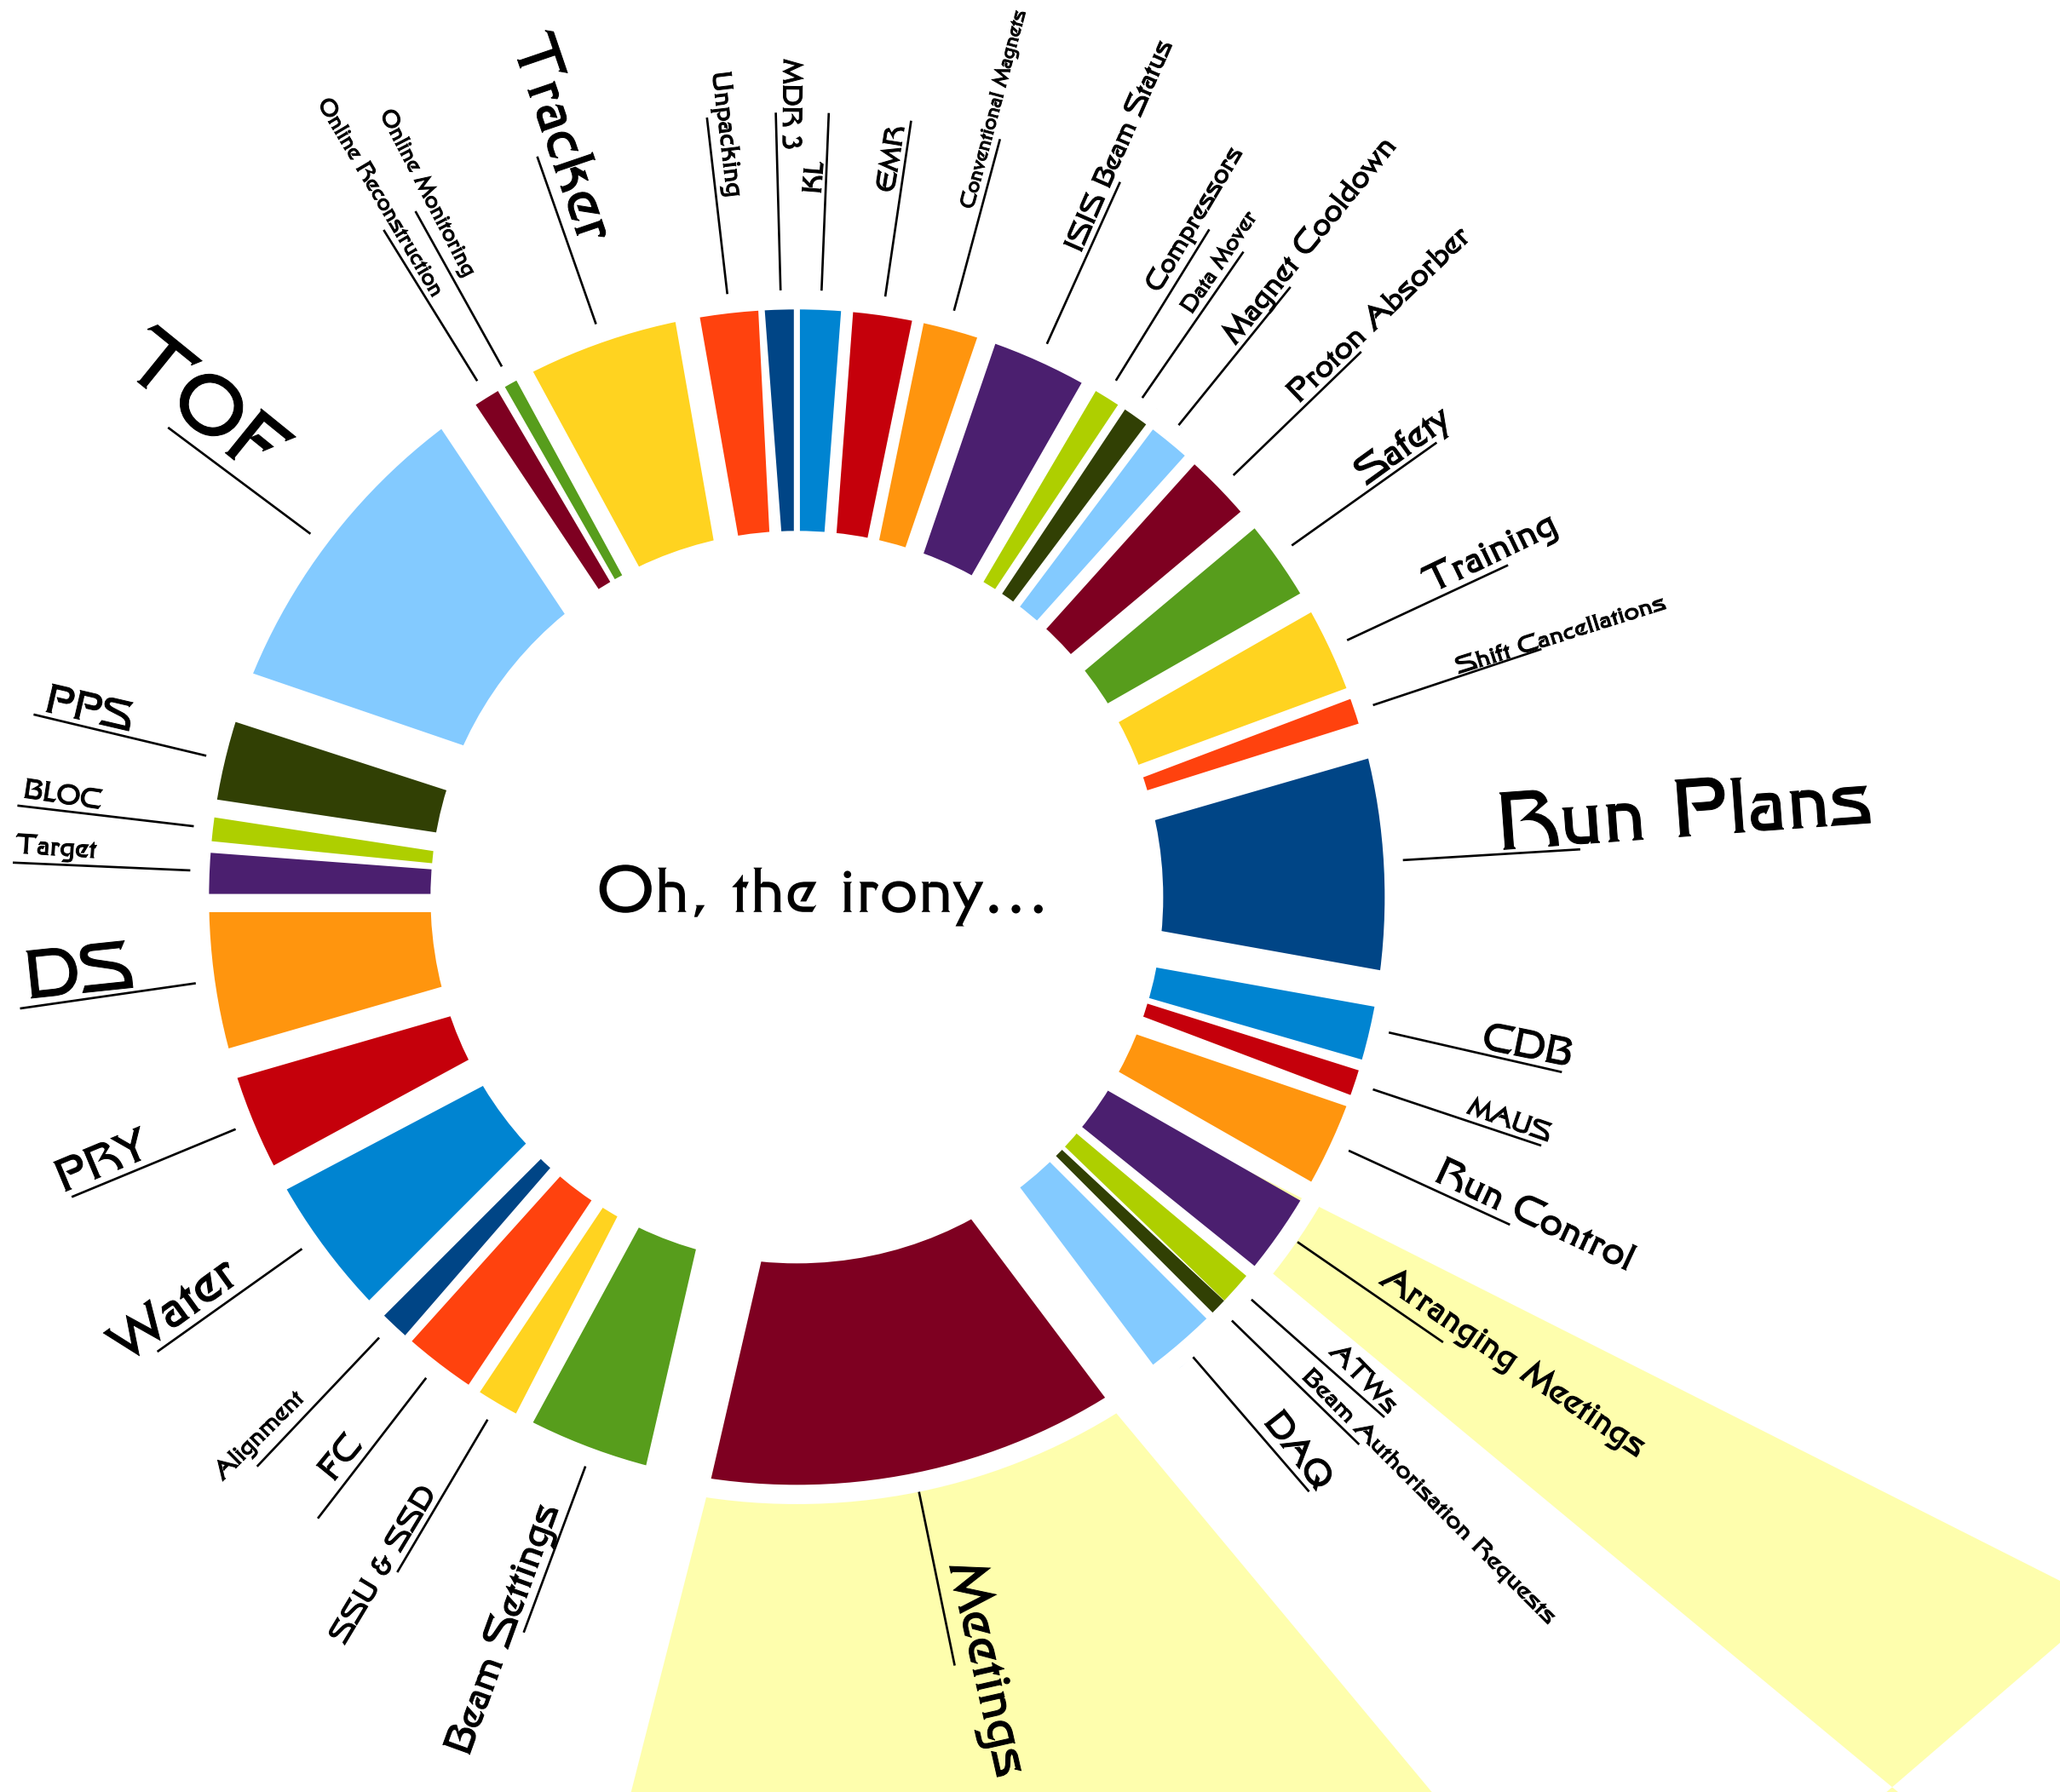

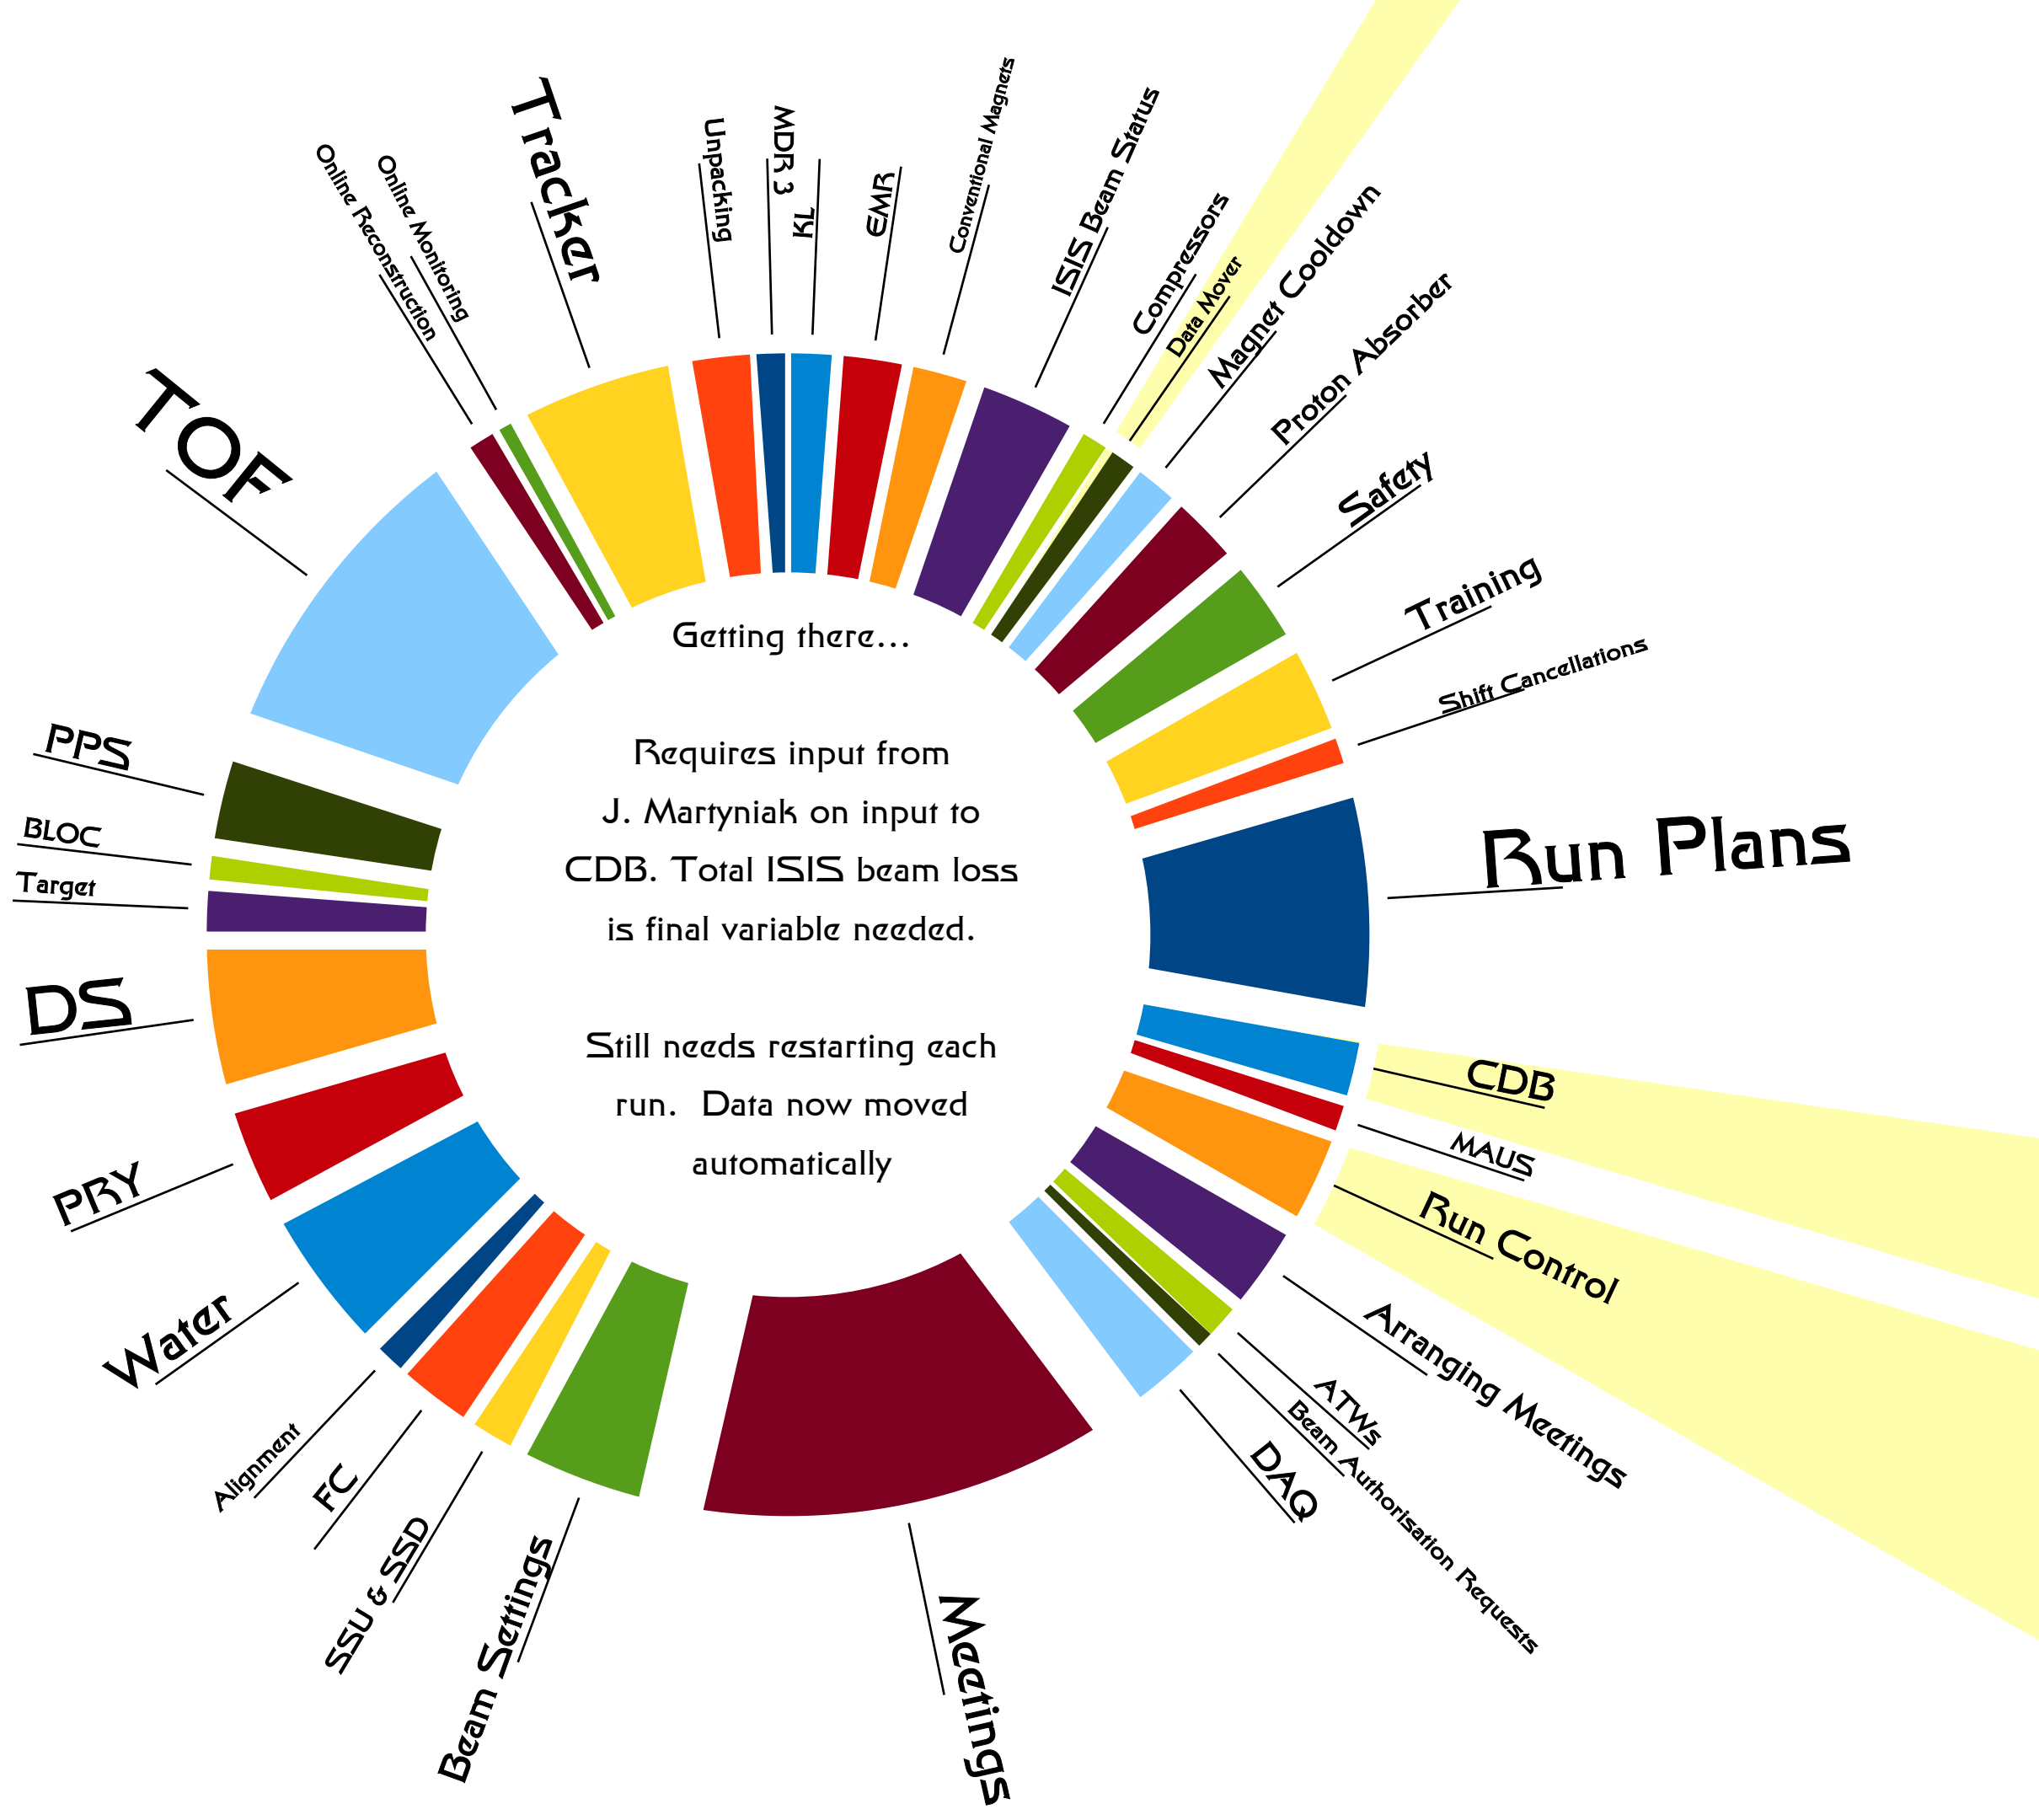

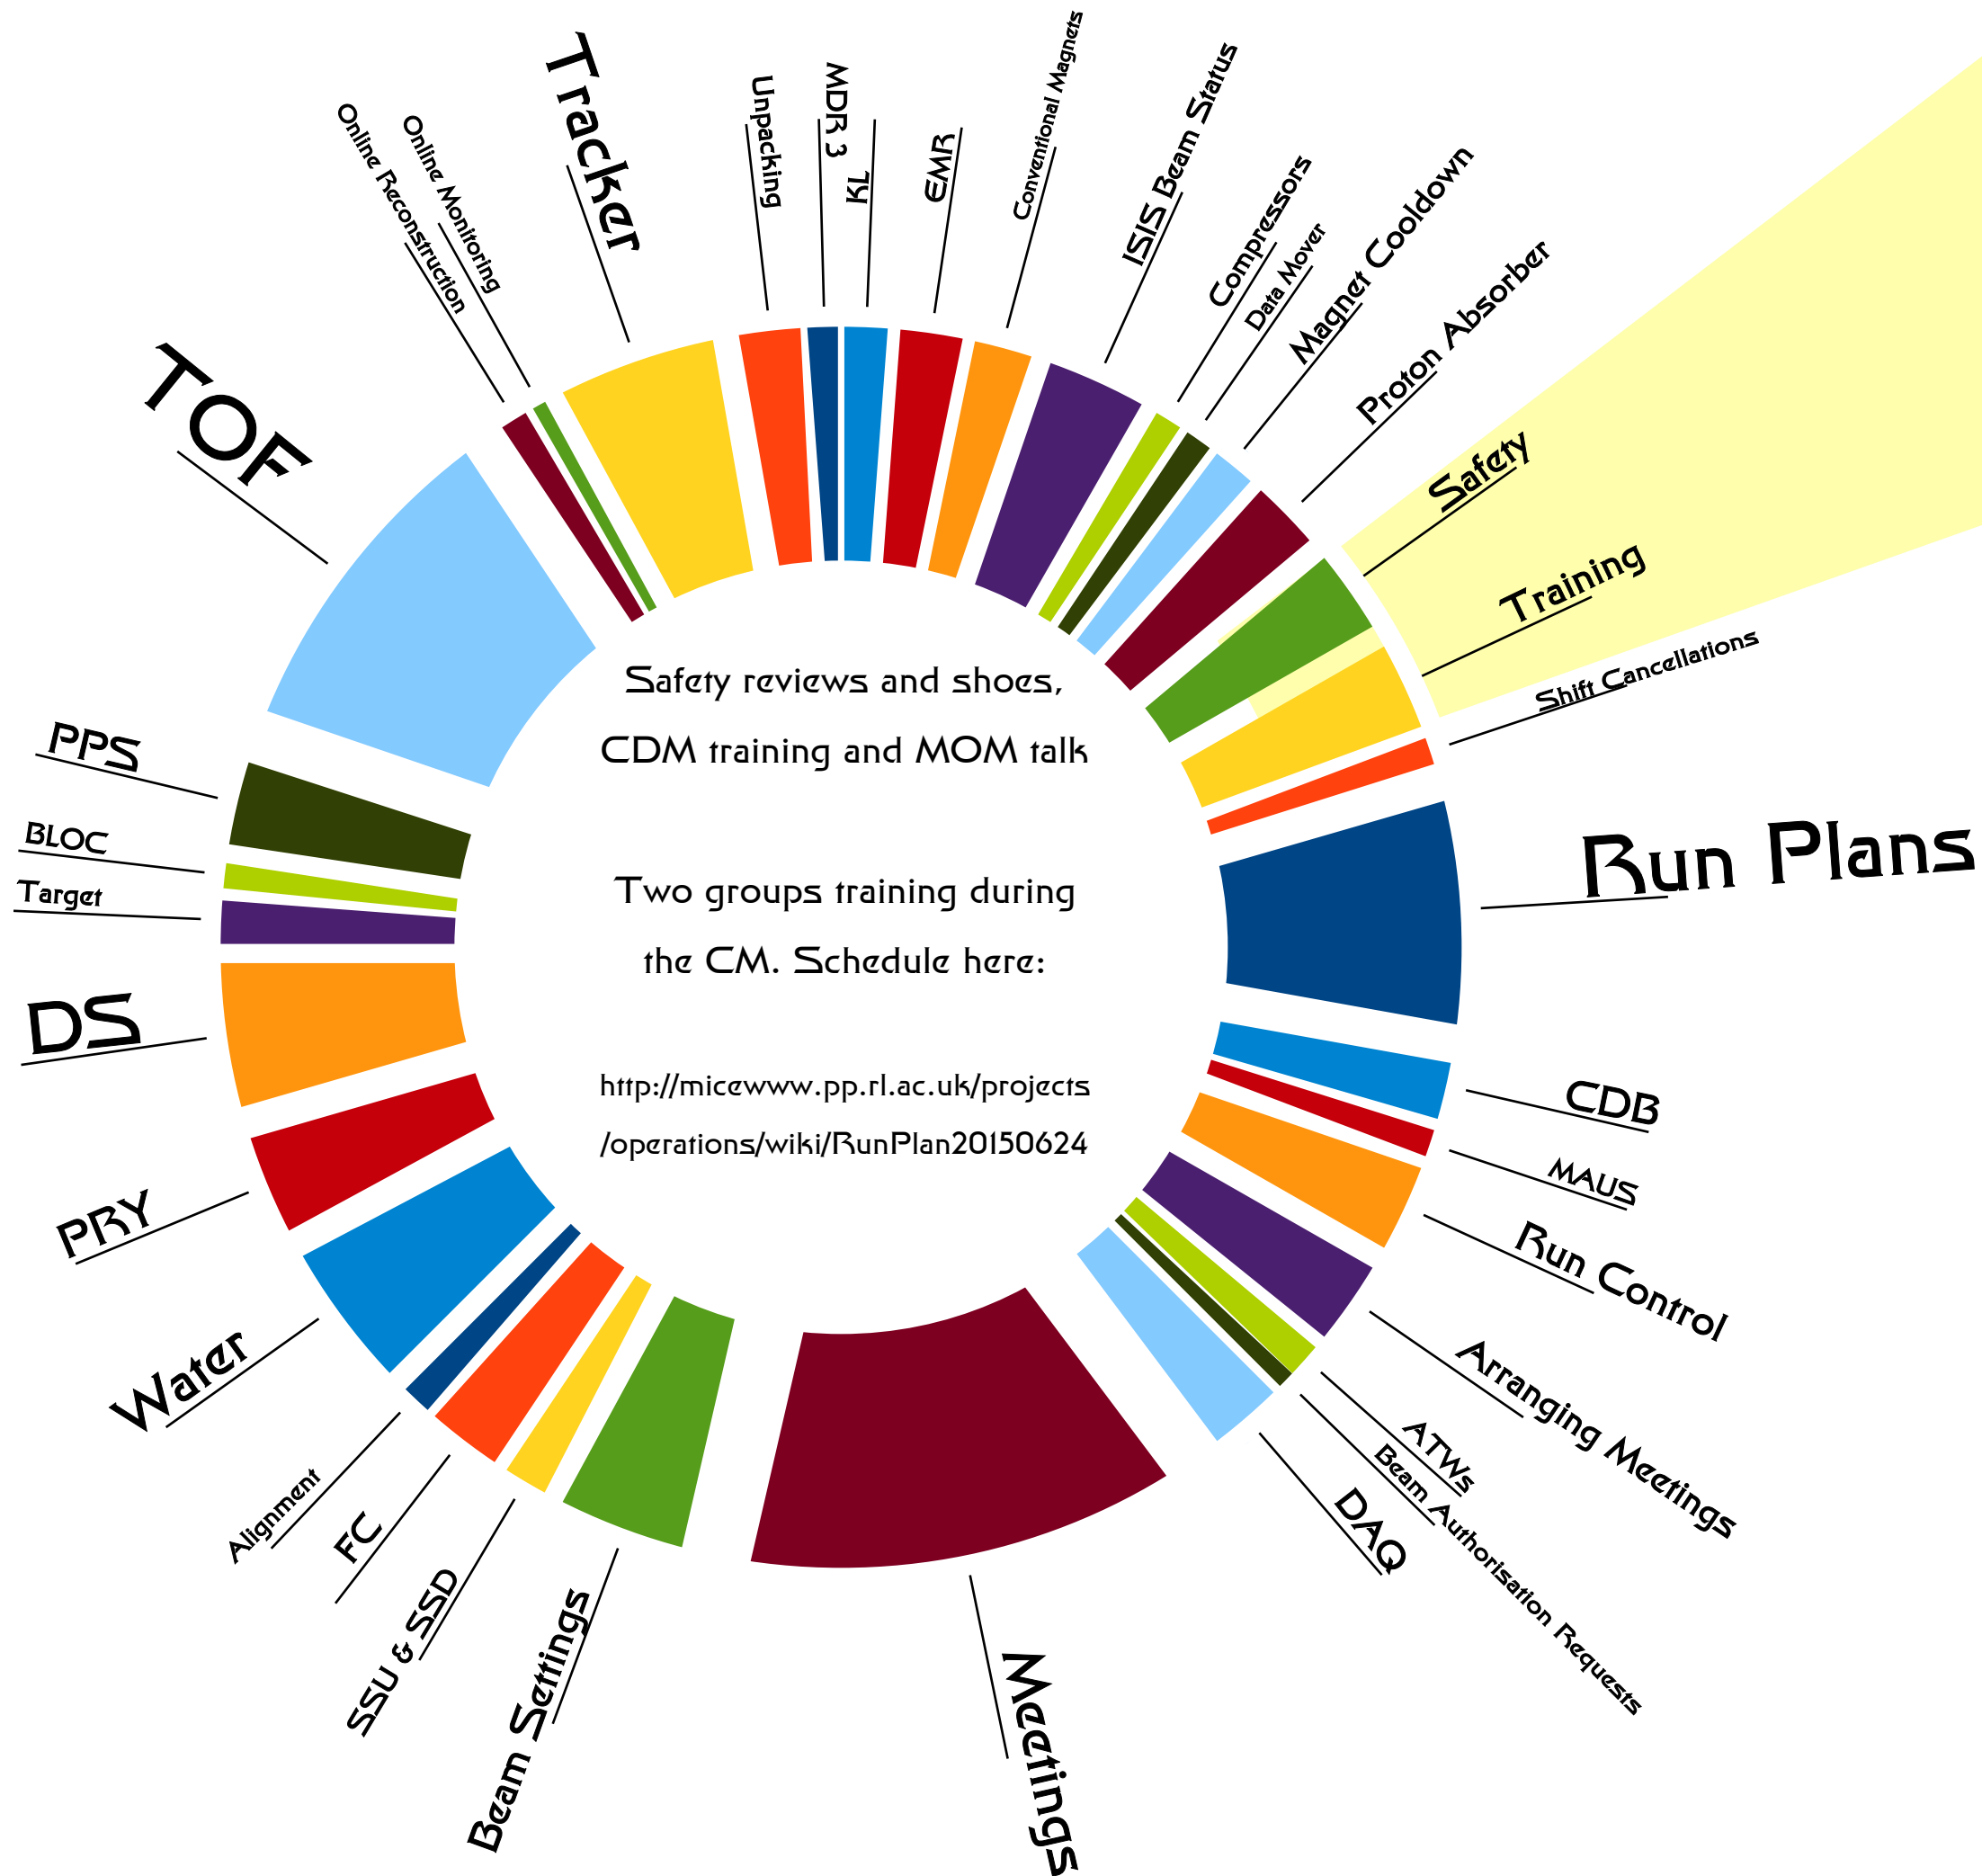

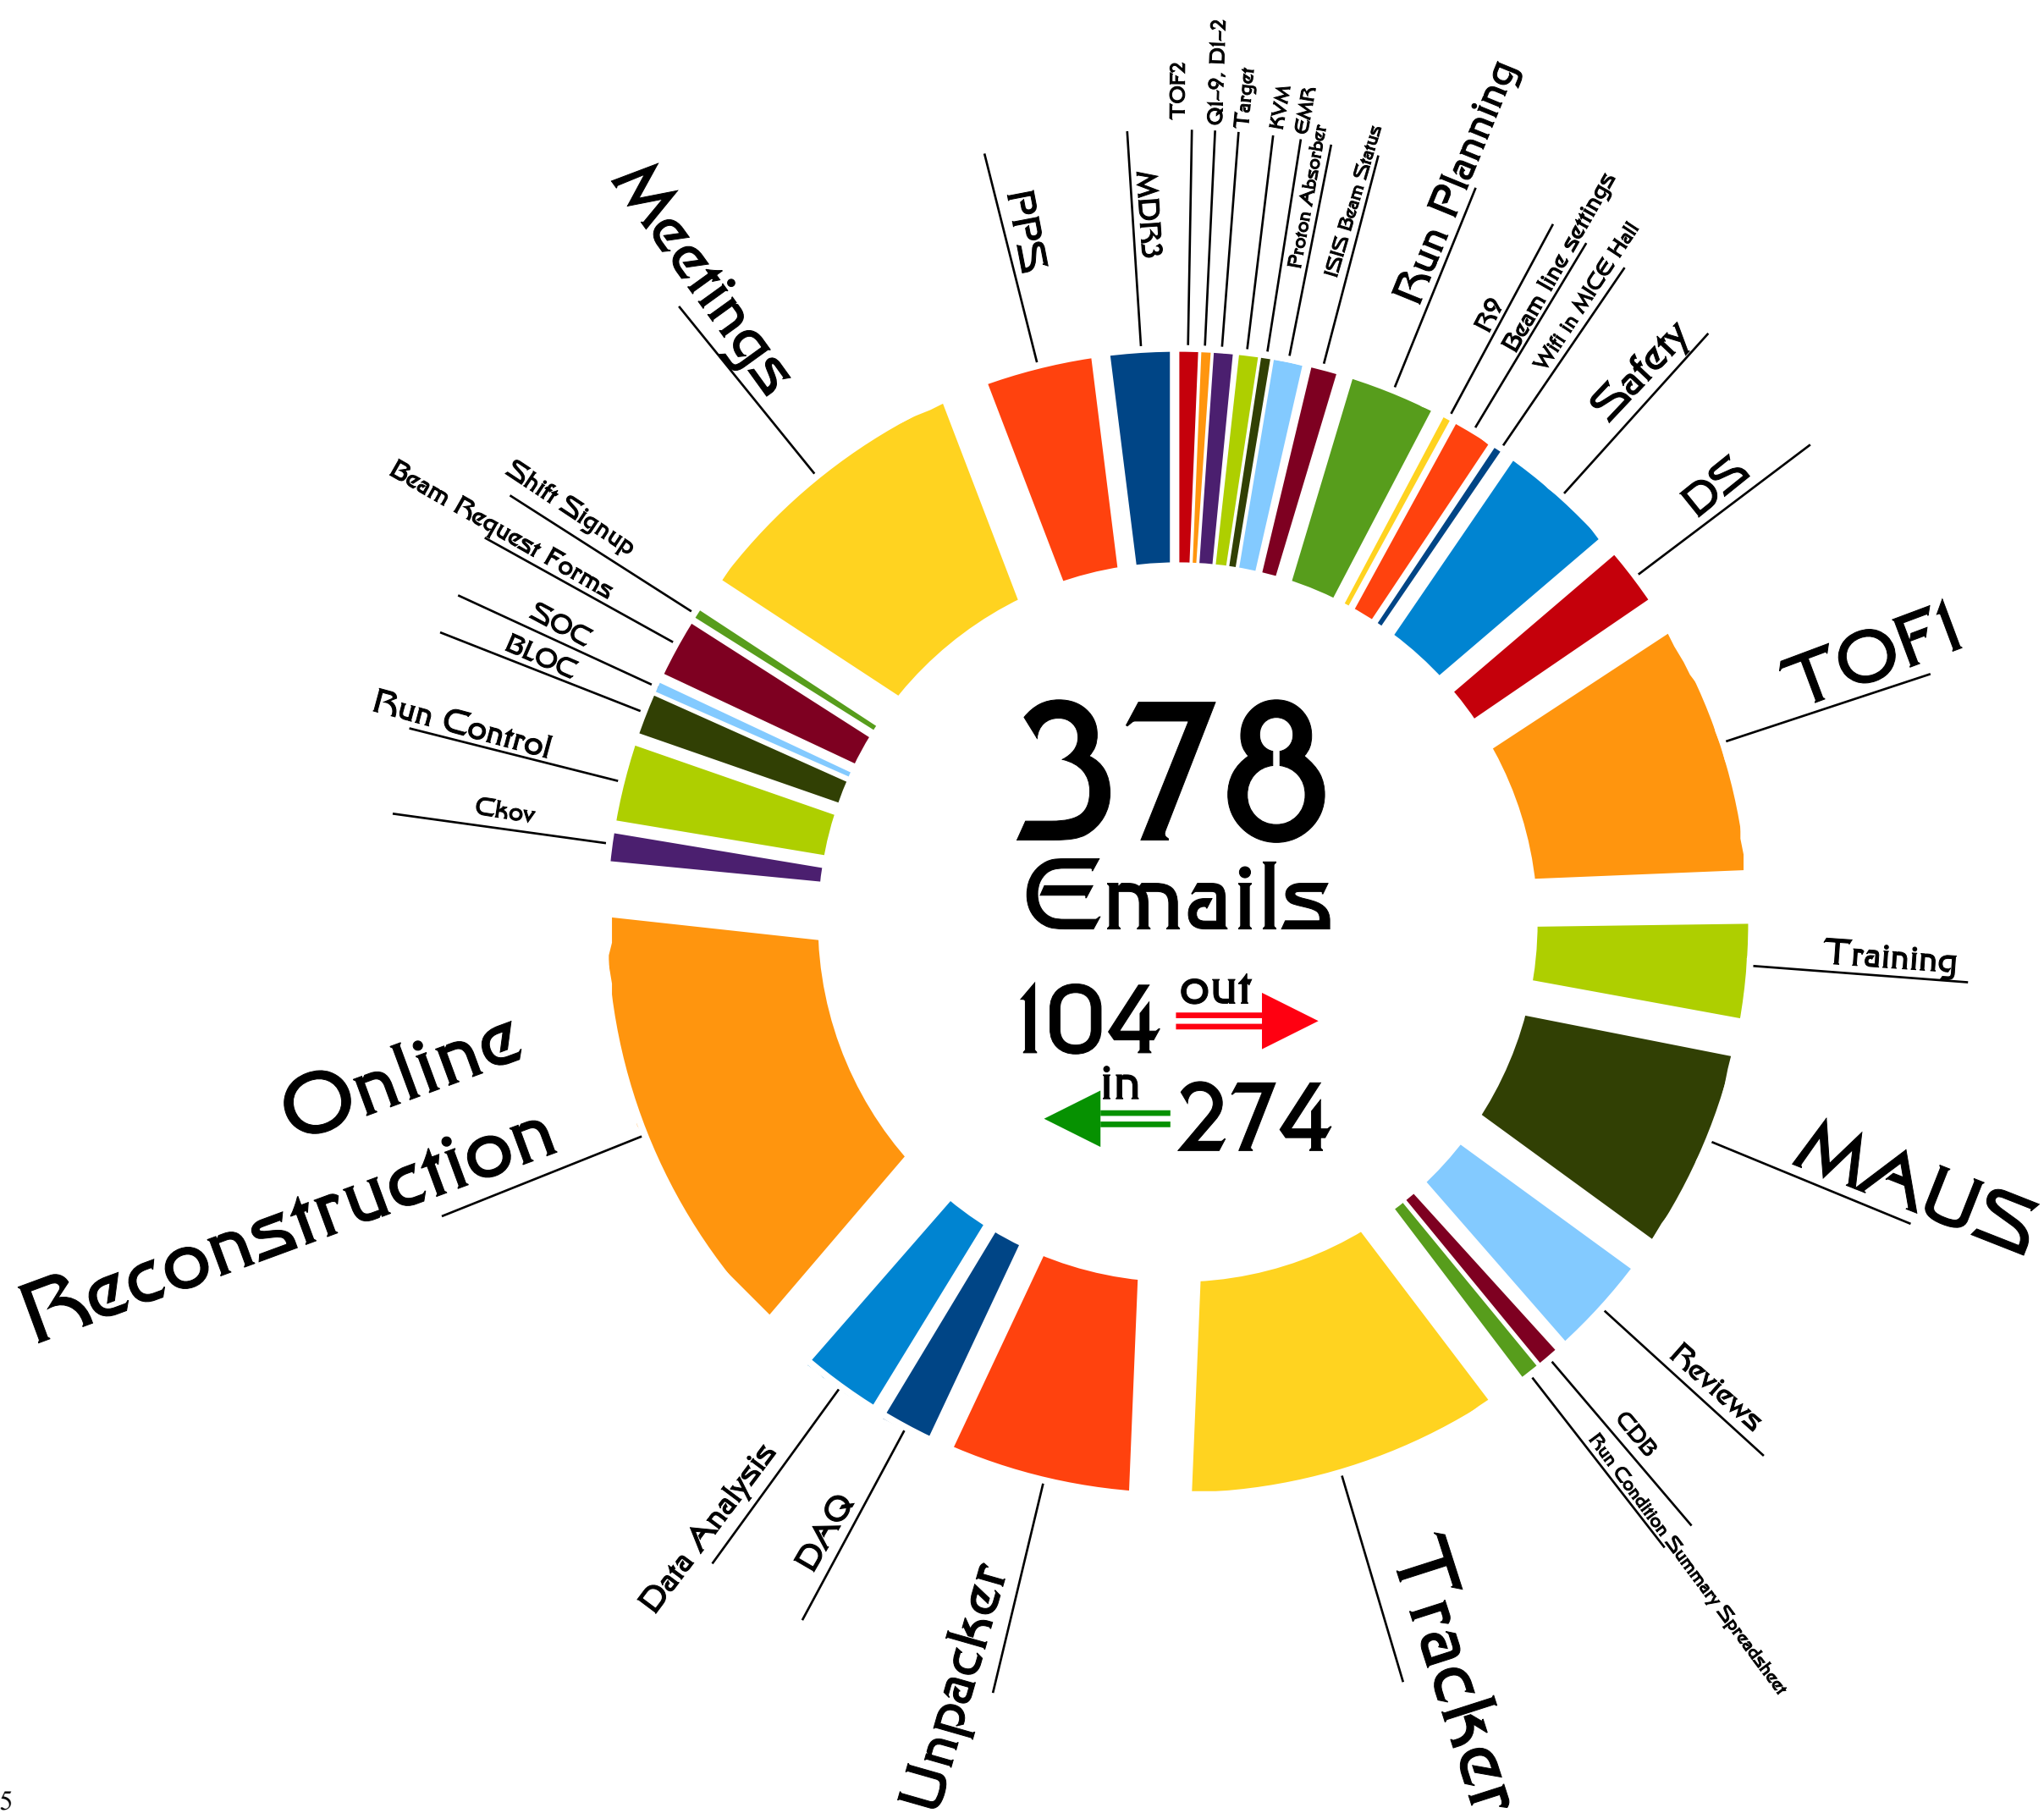

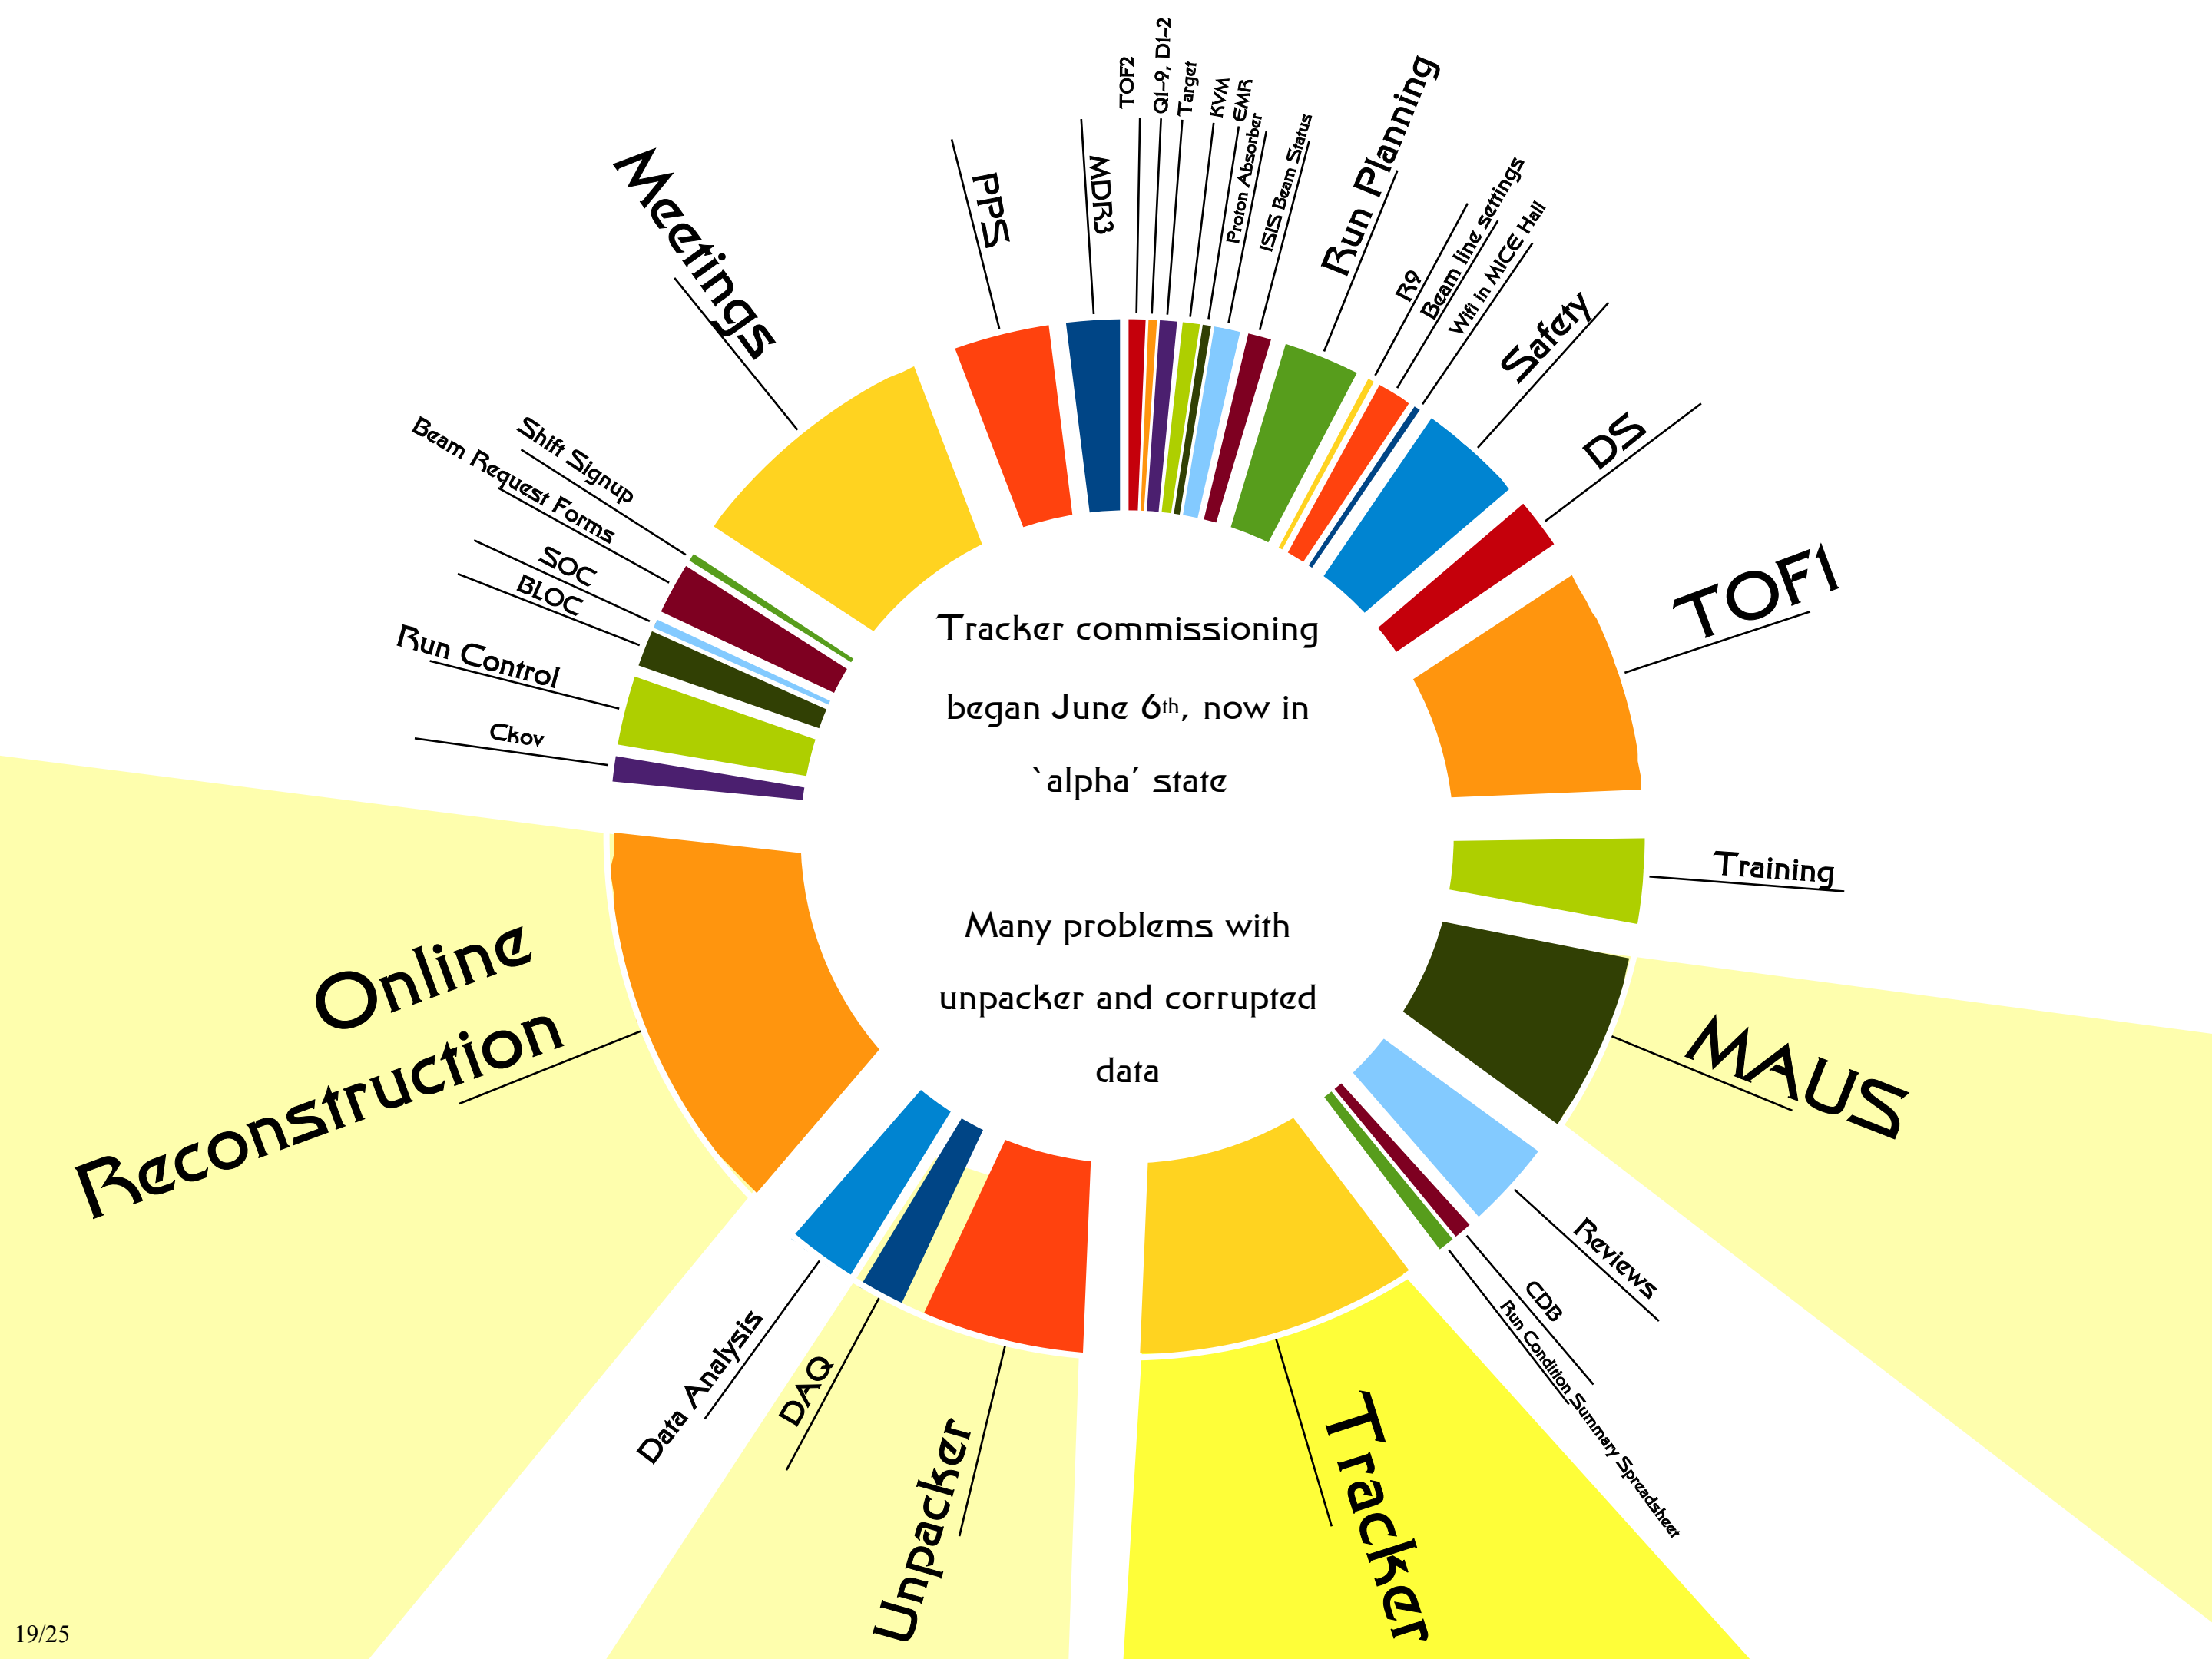

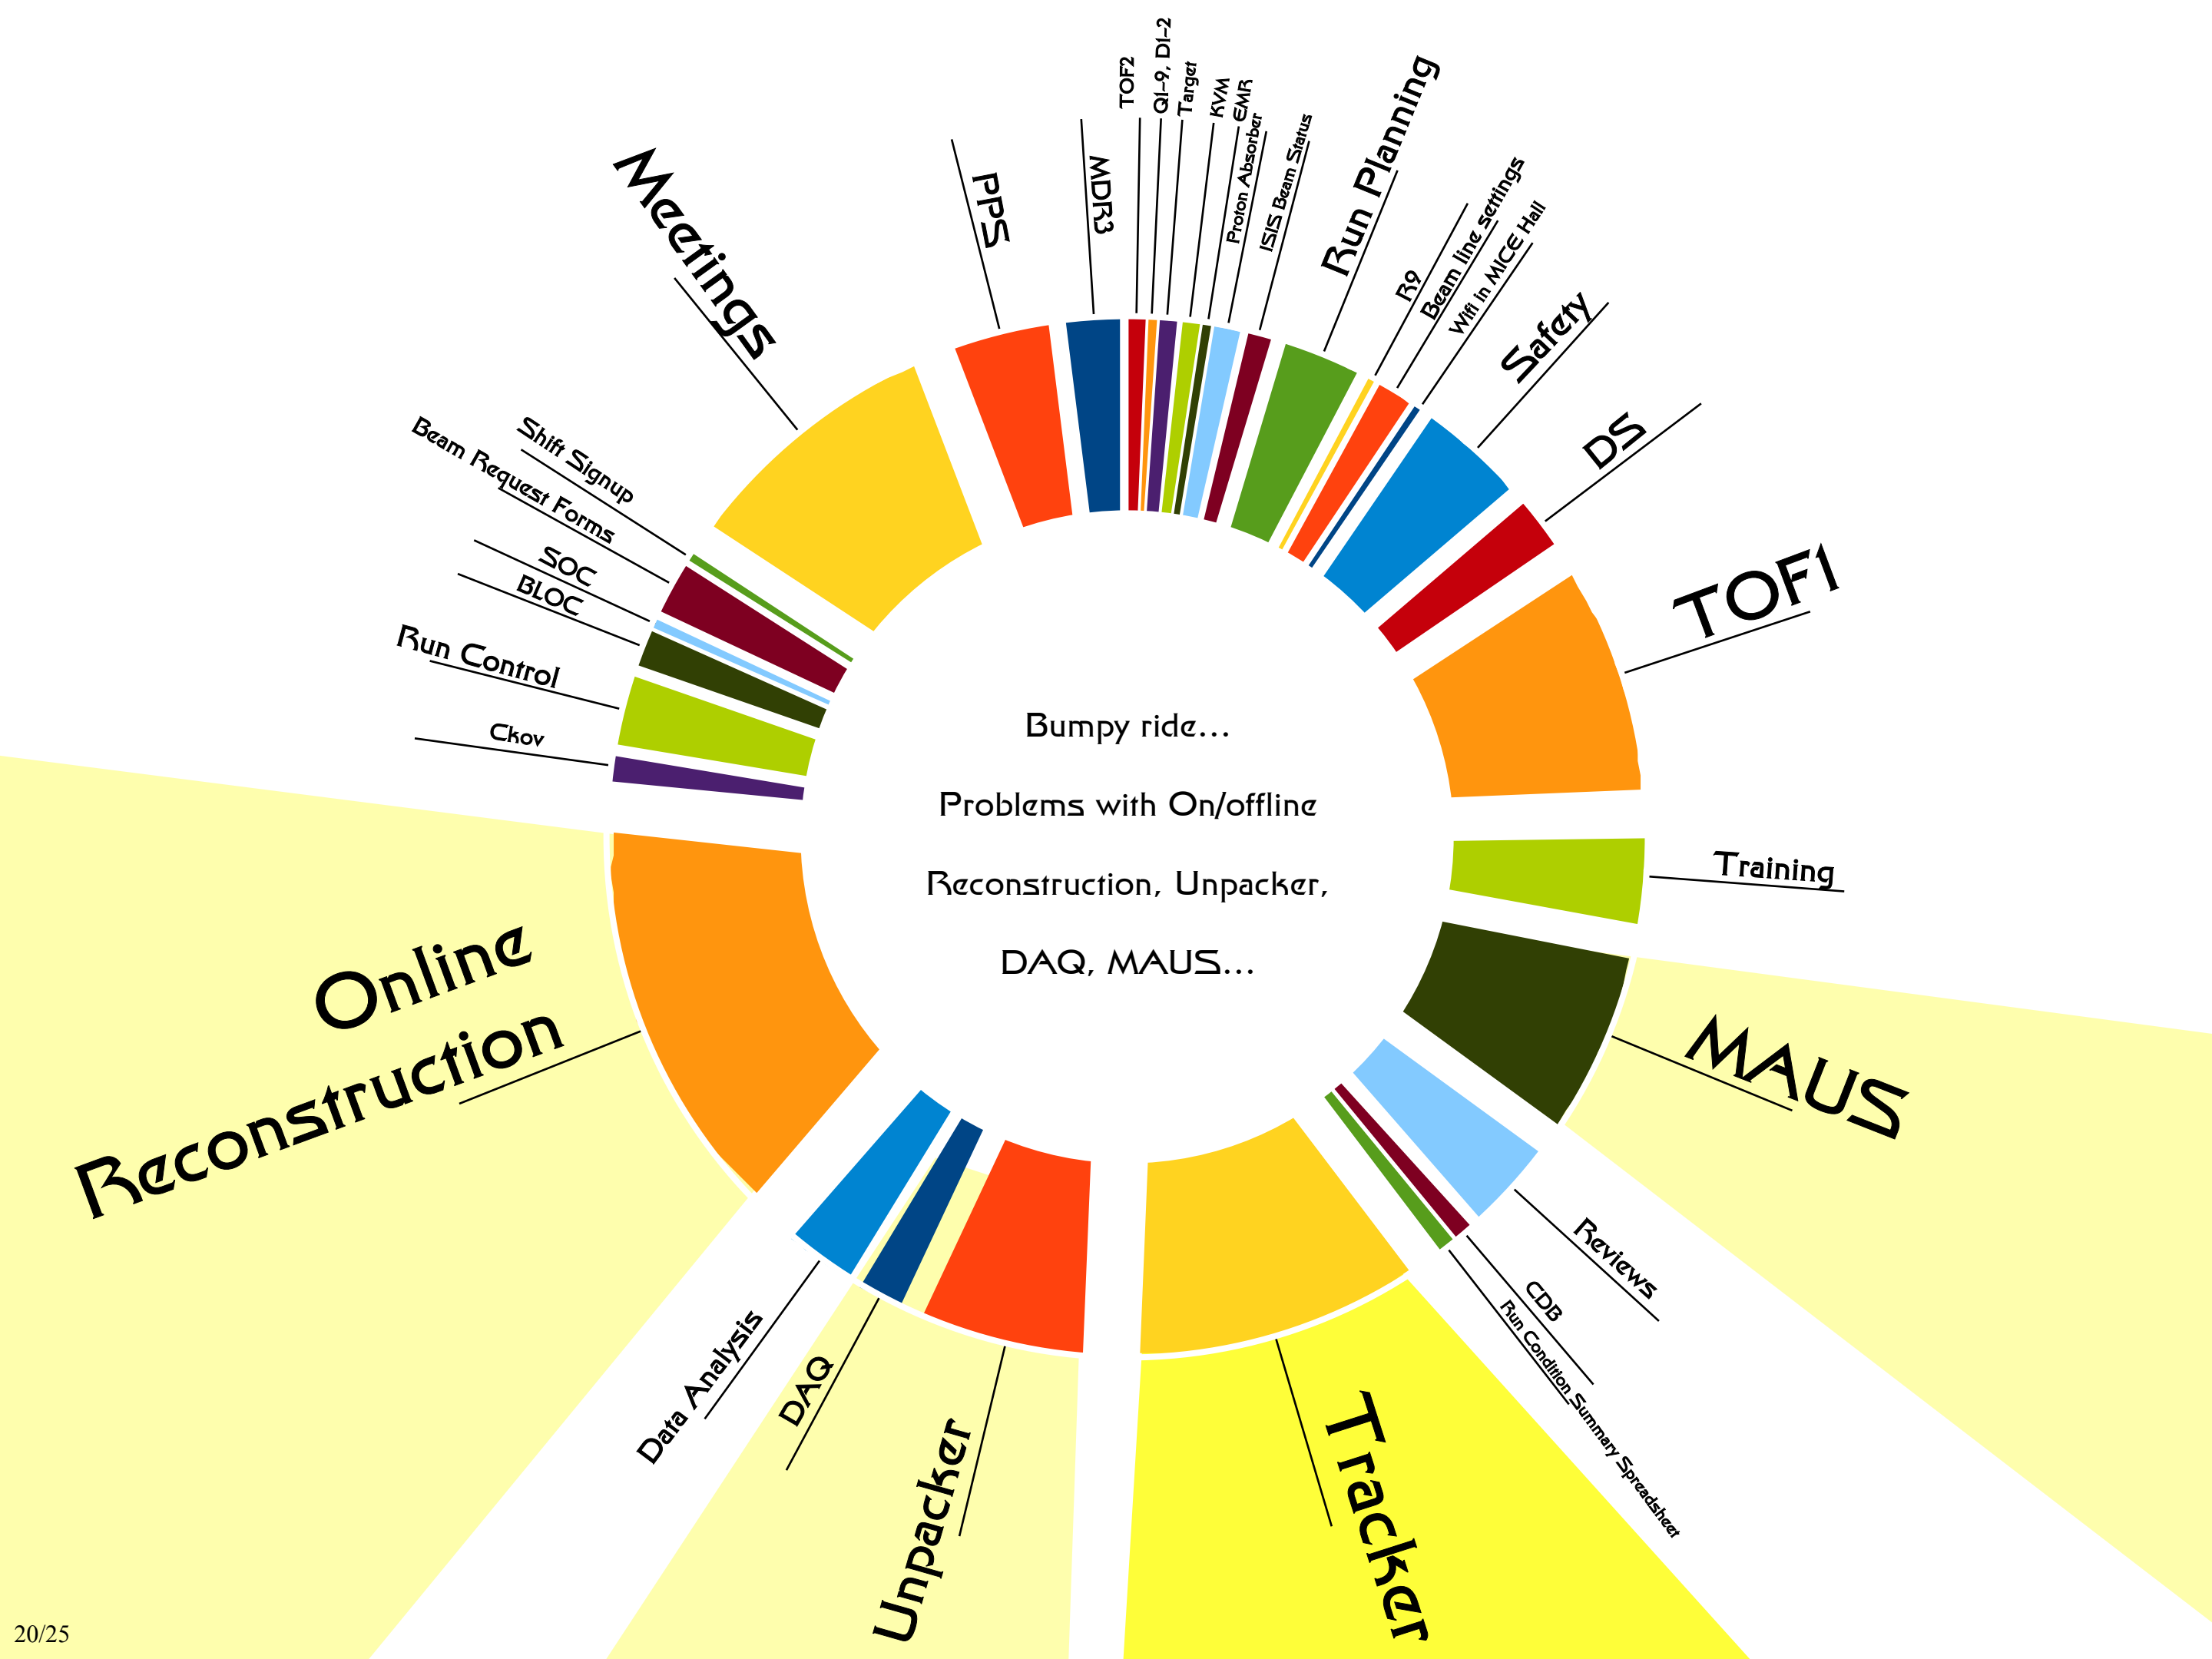

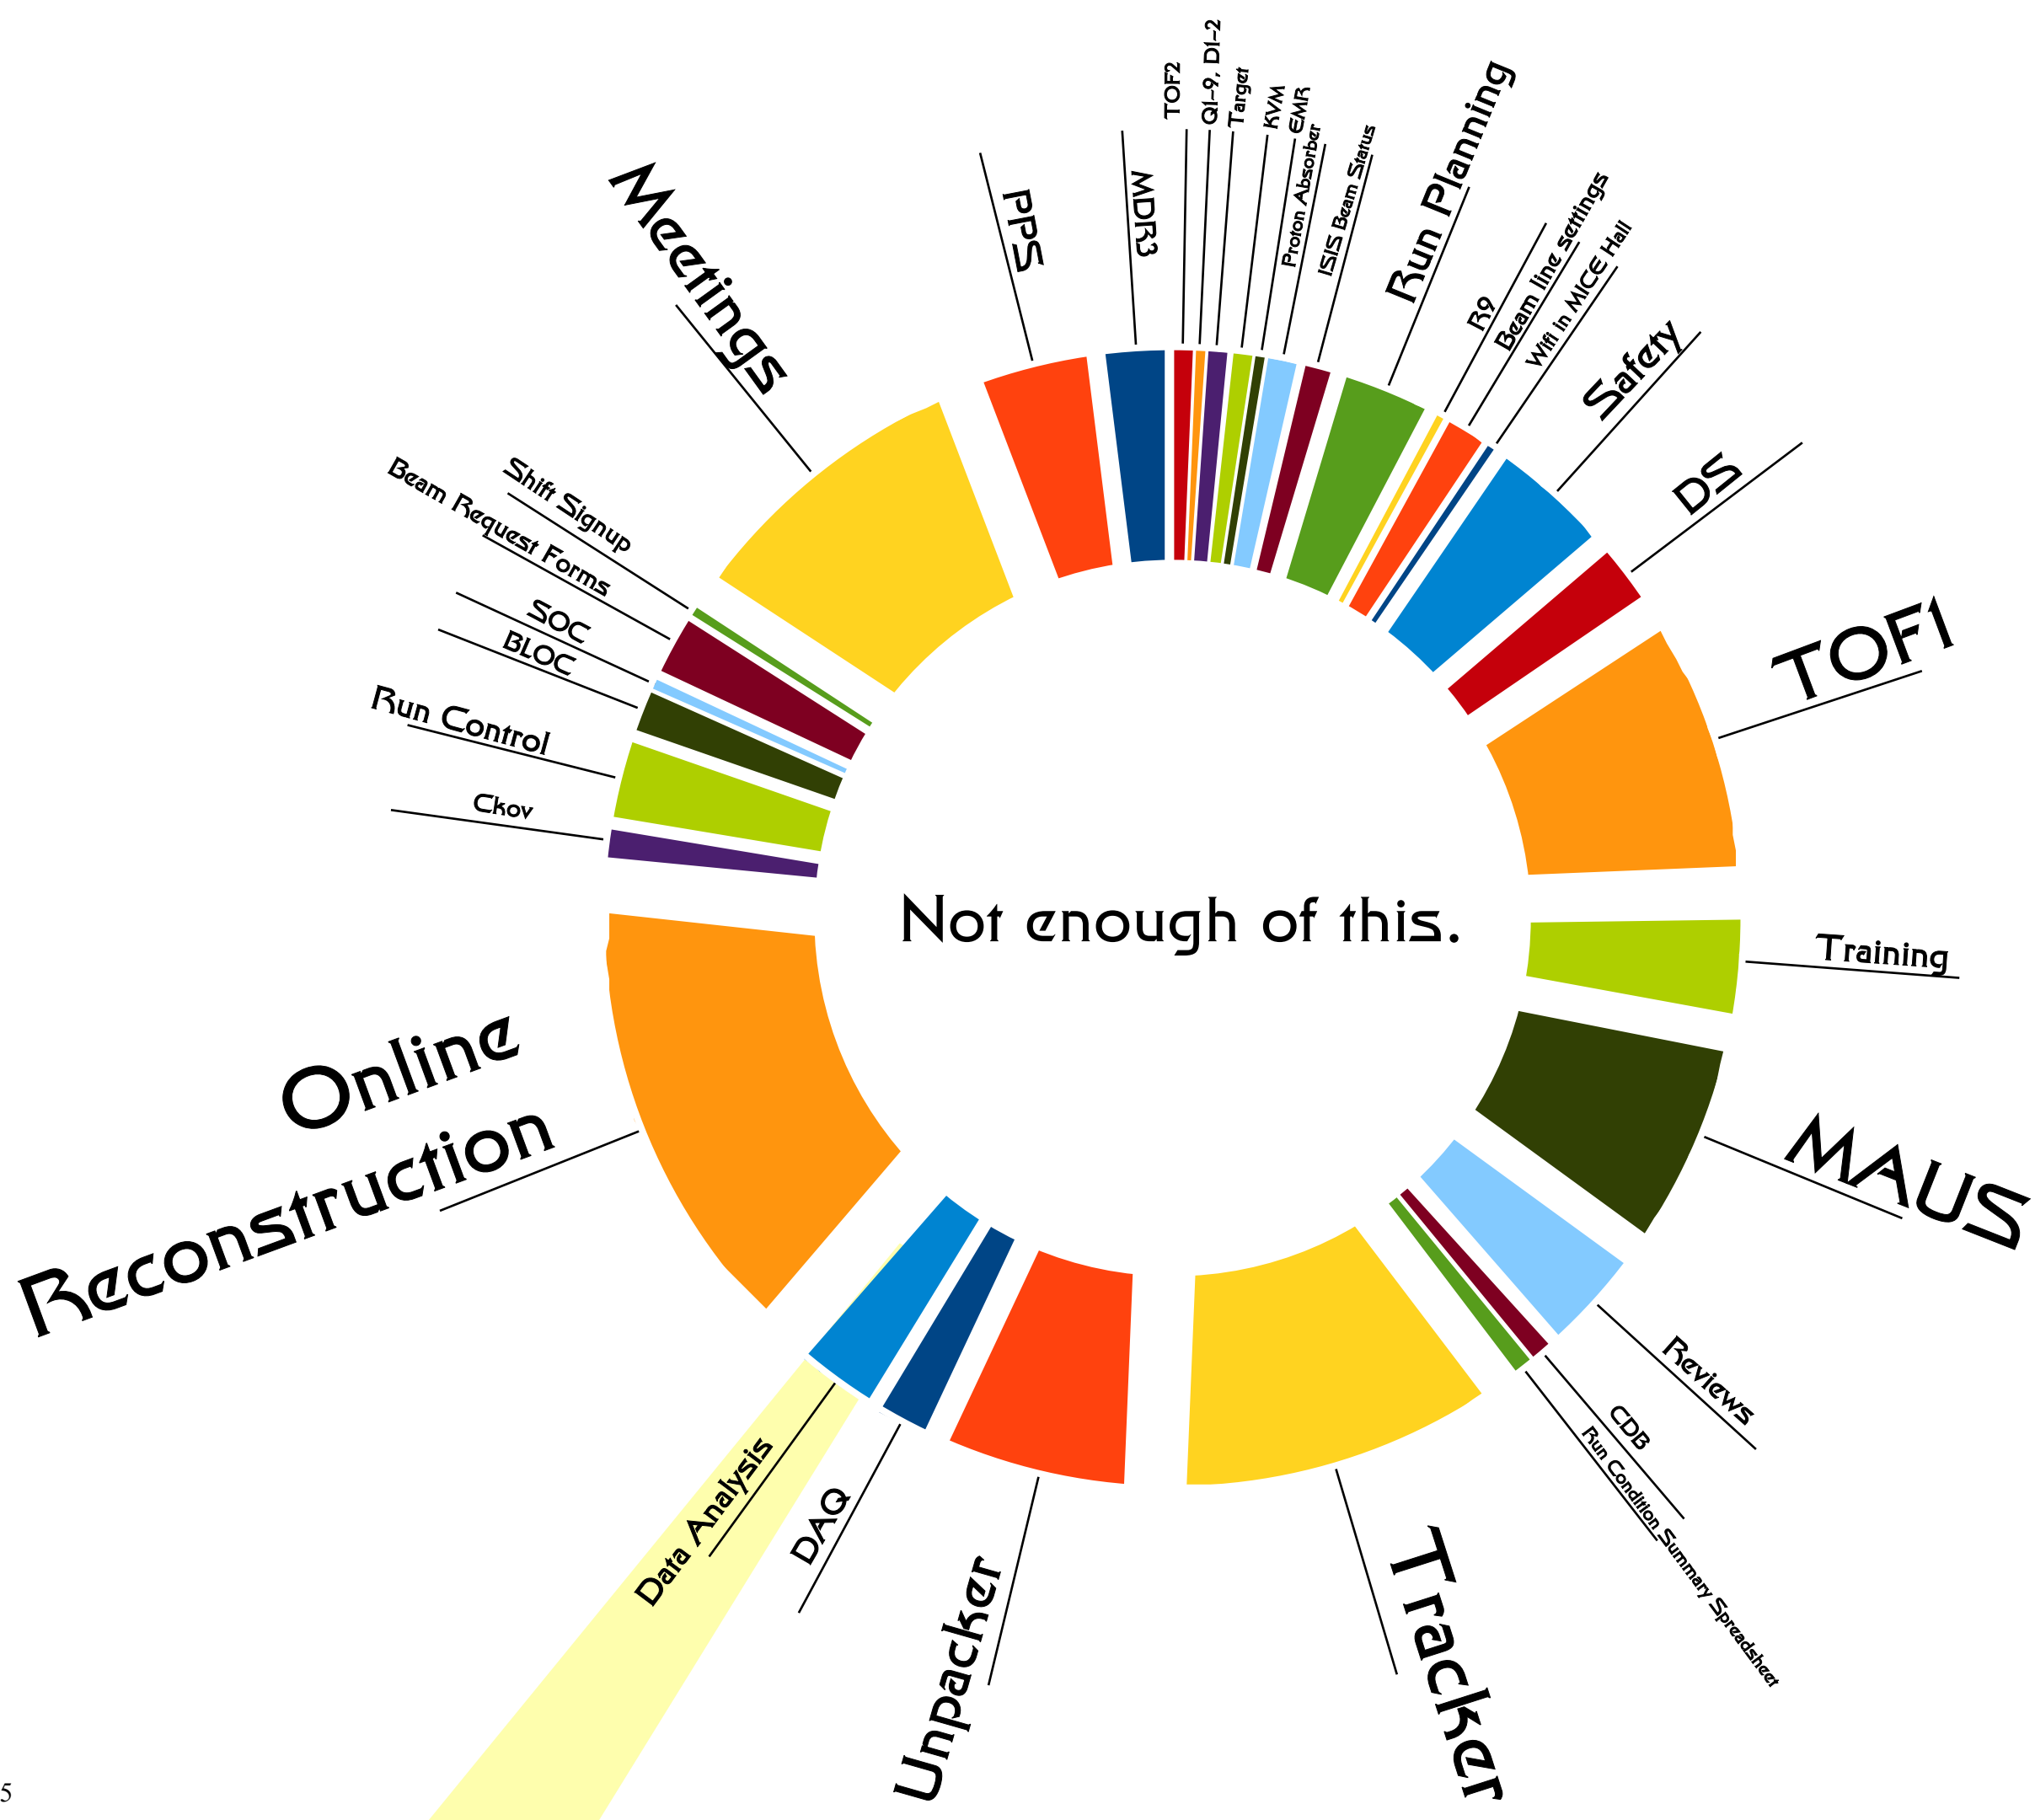

**... and there's more...**

**Yes, really.**

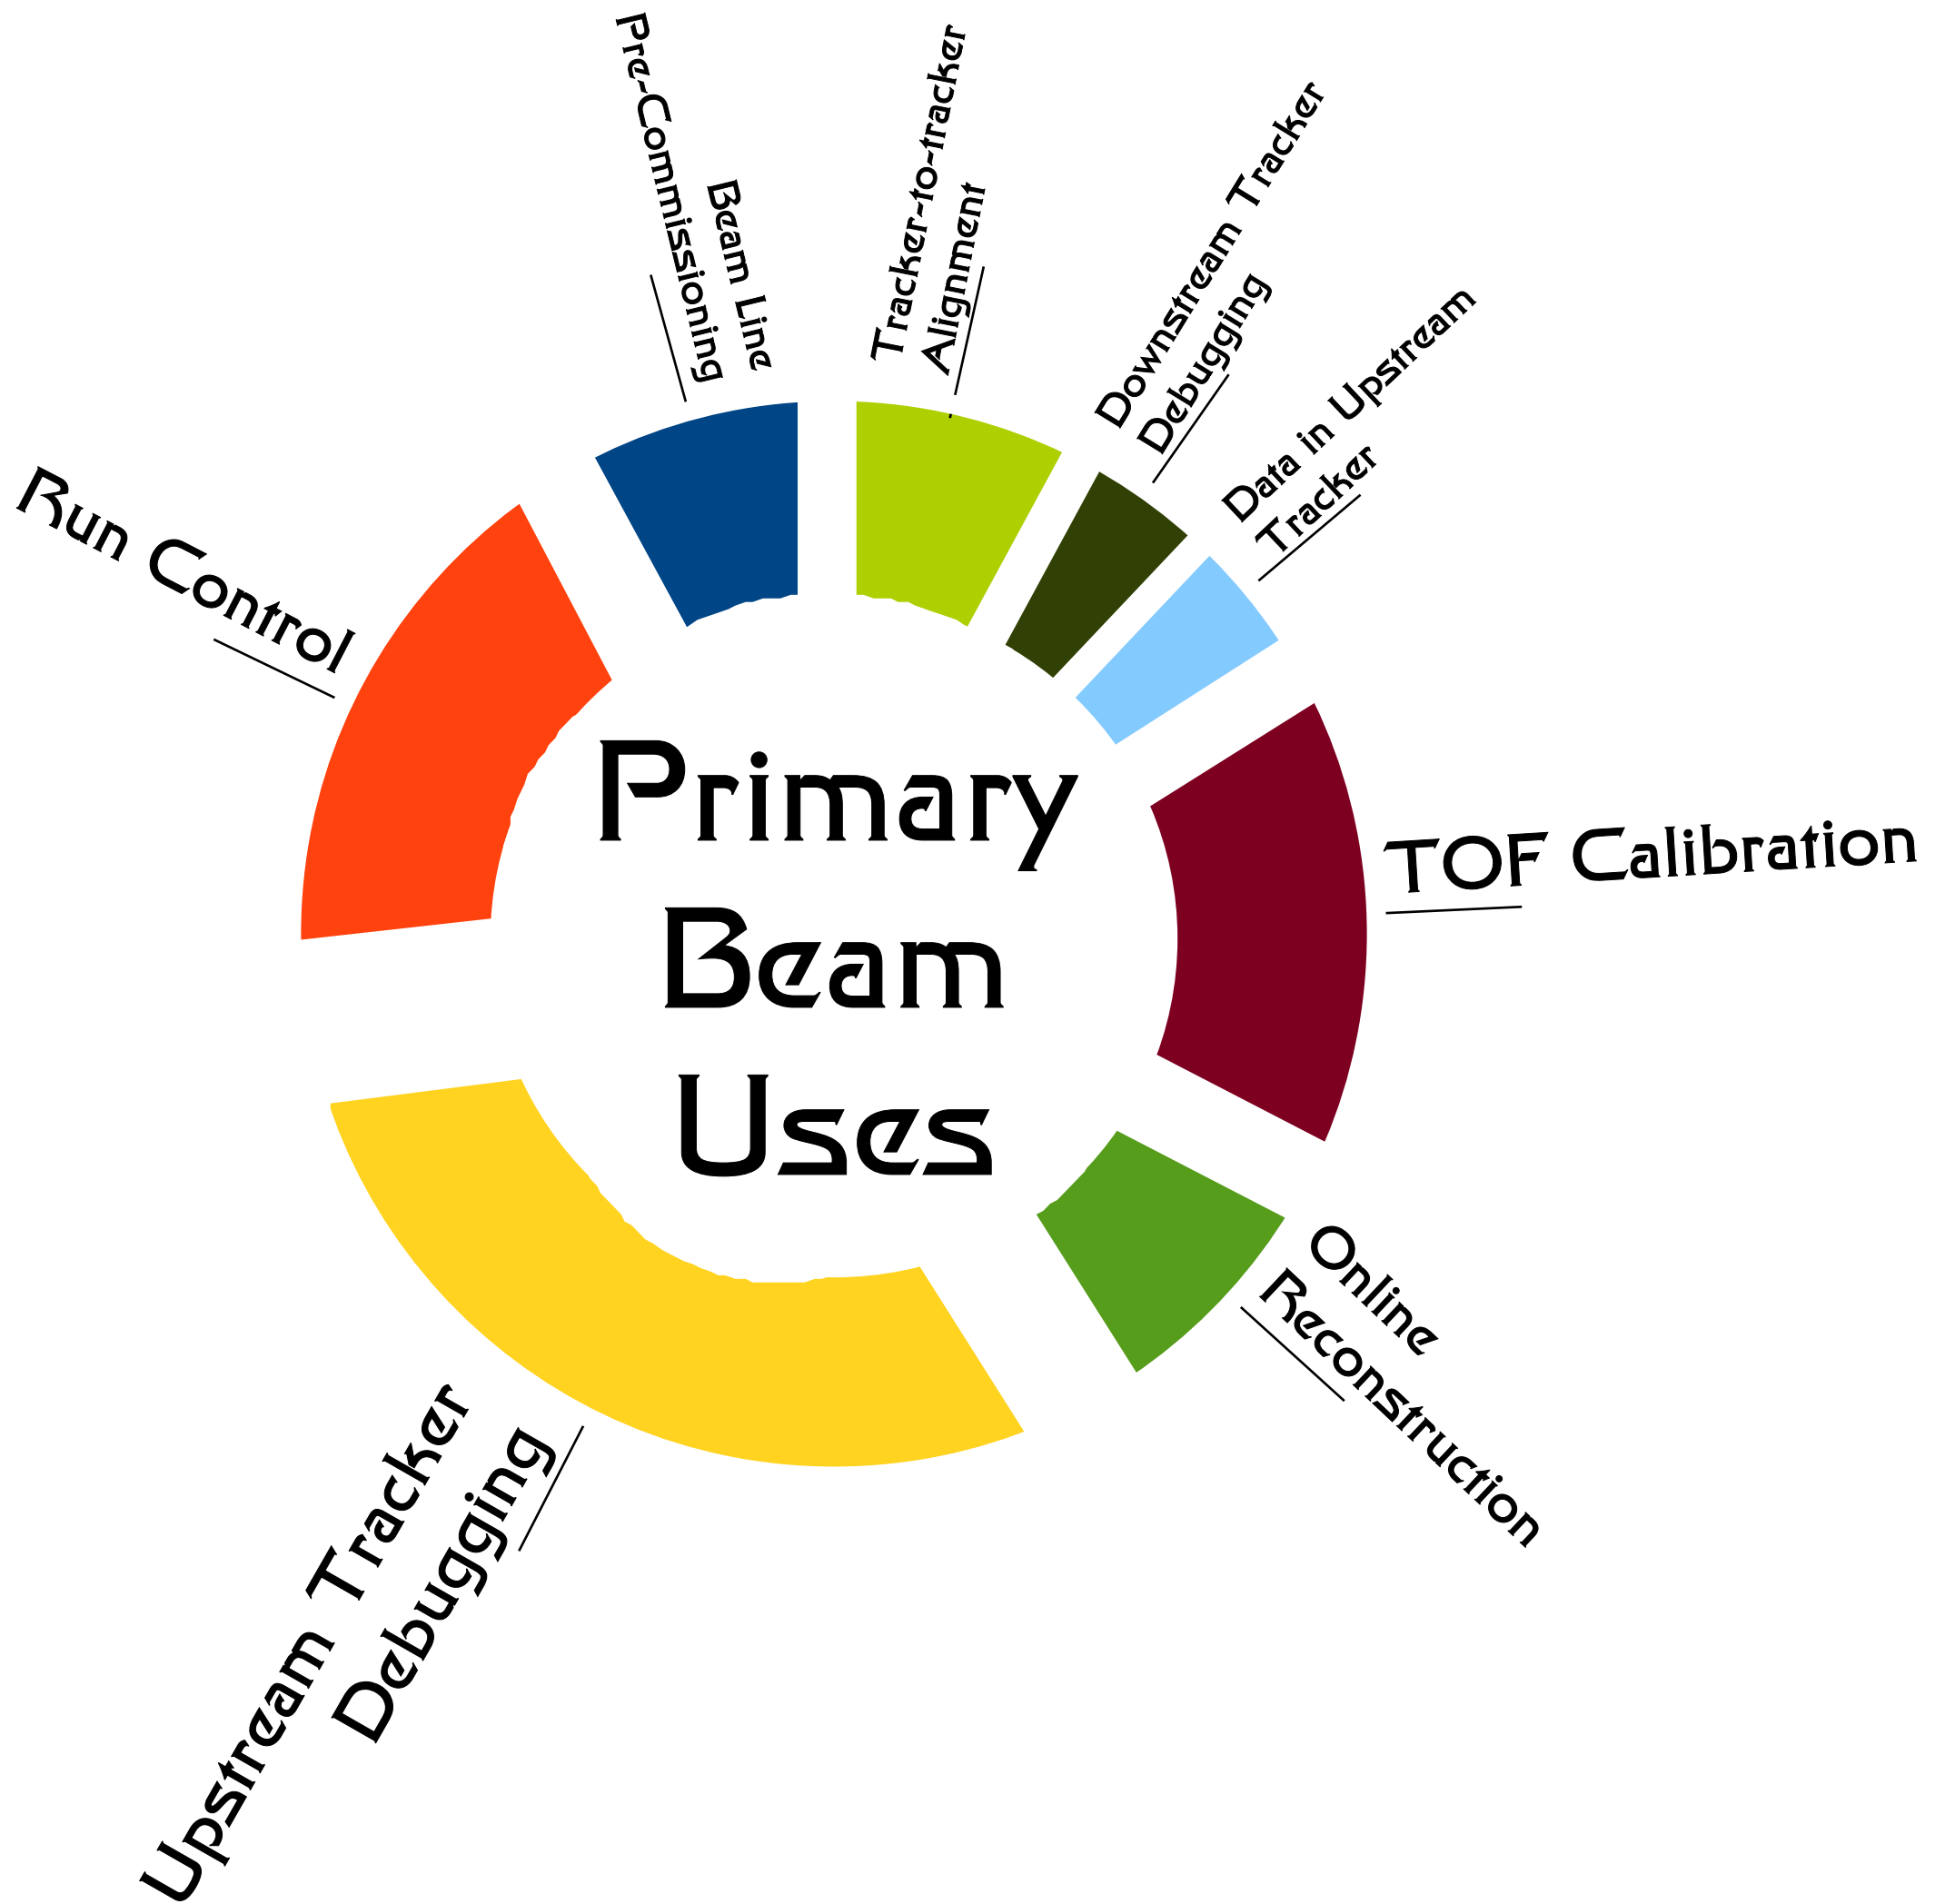

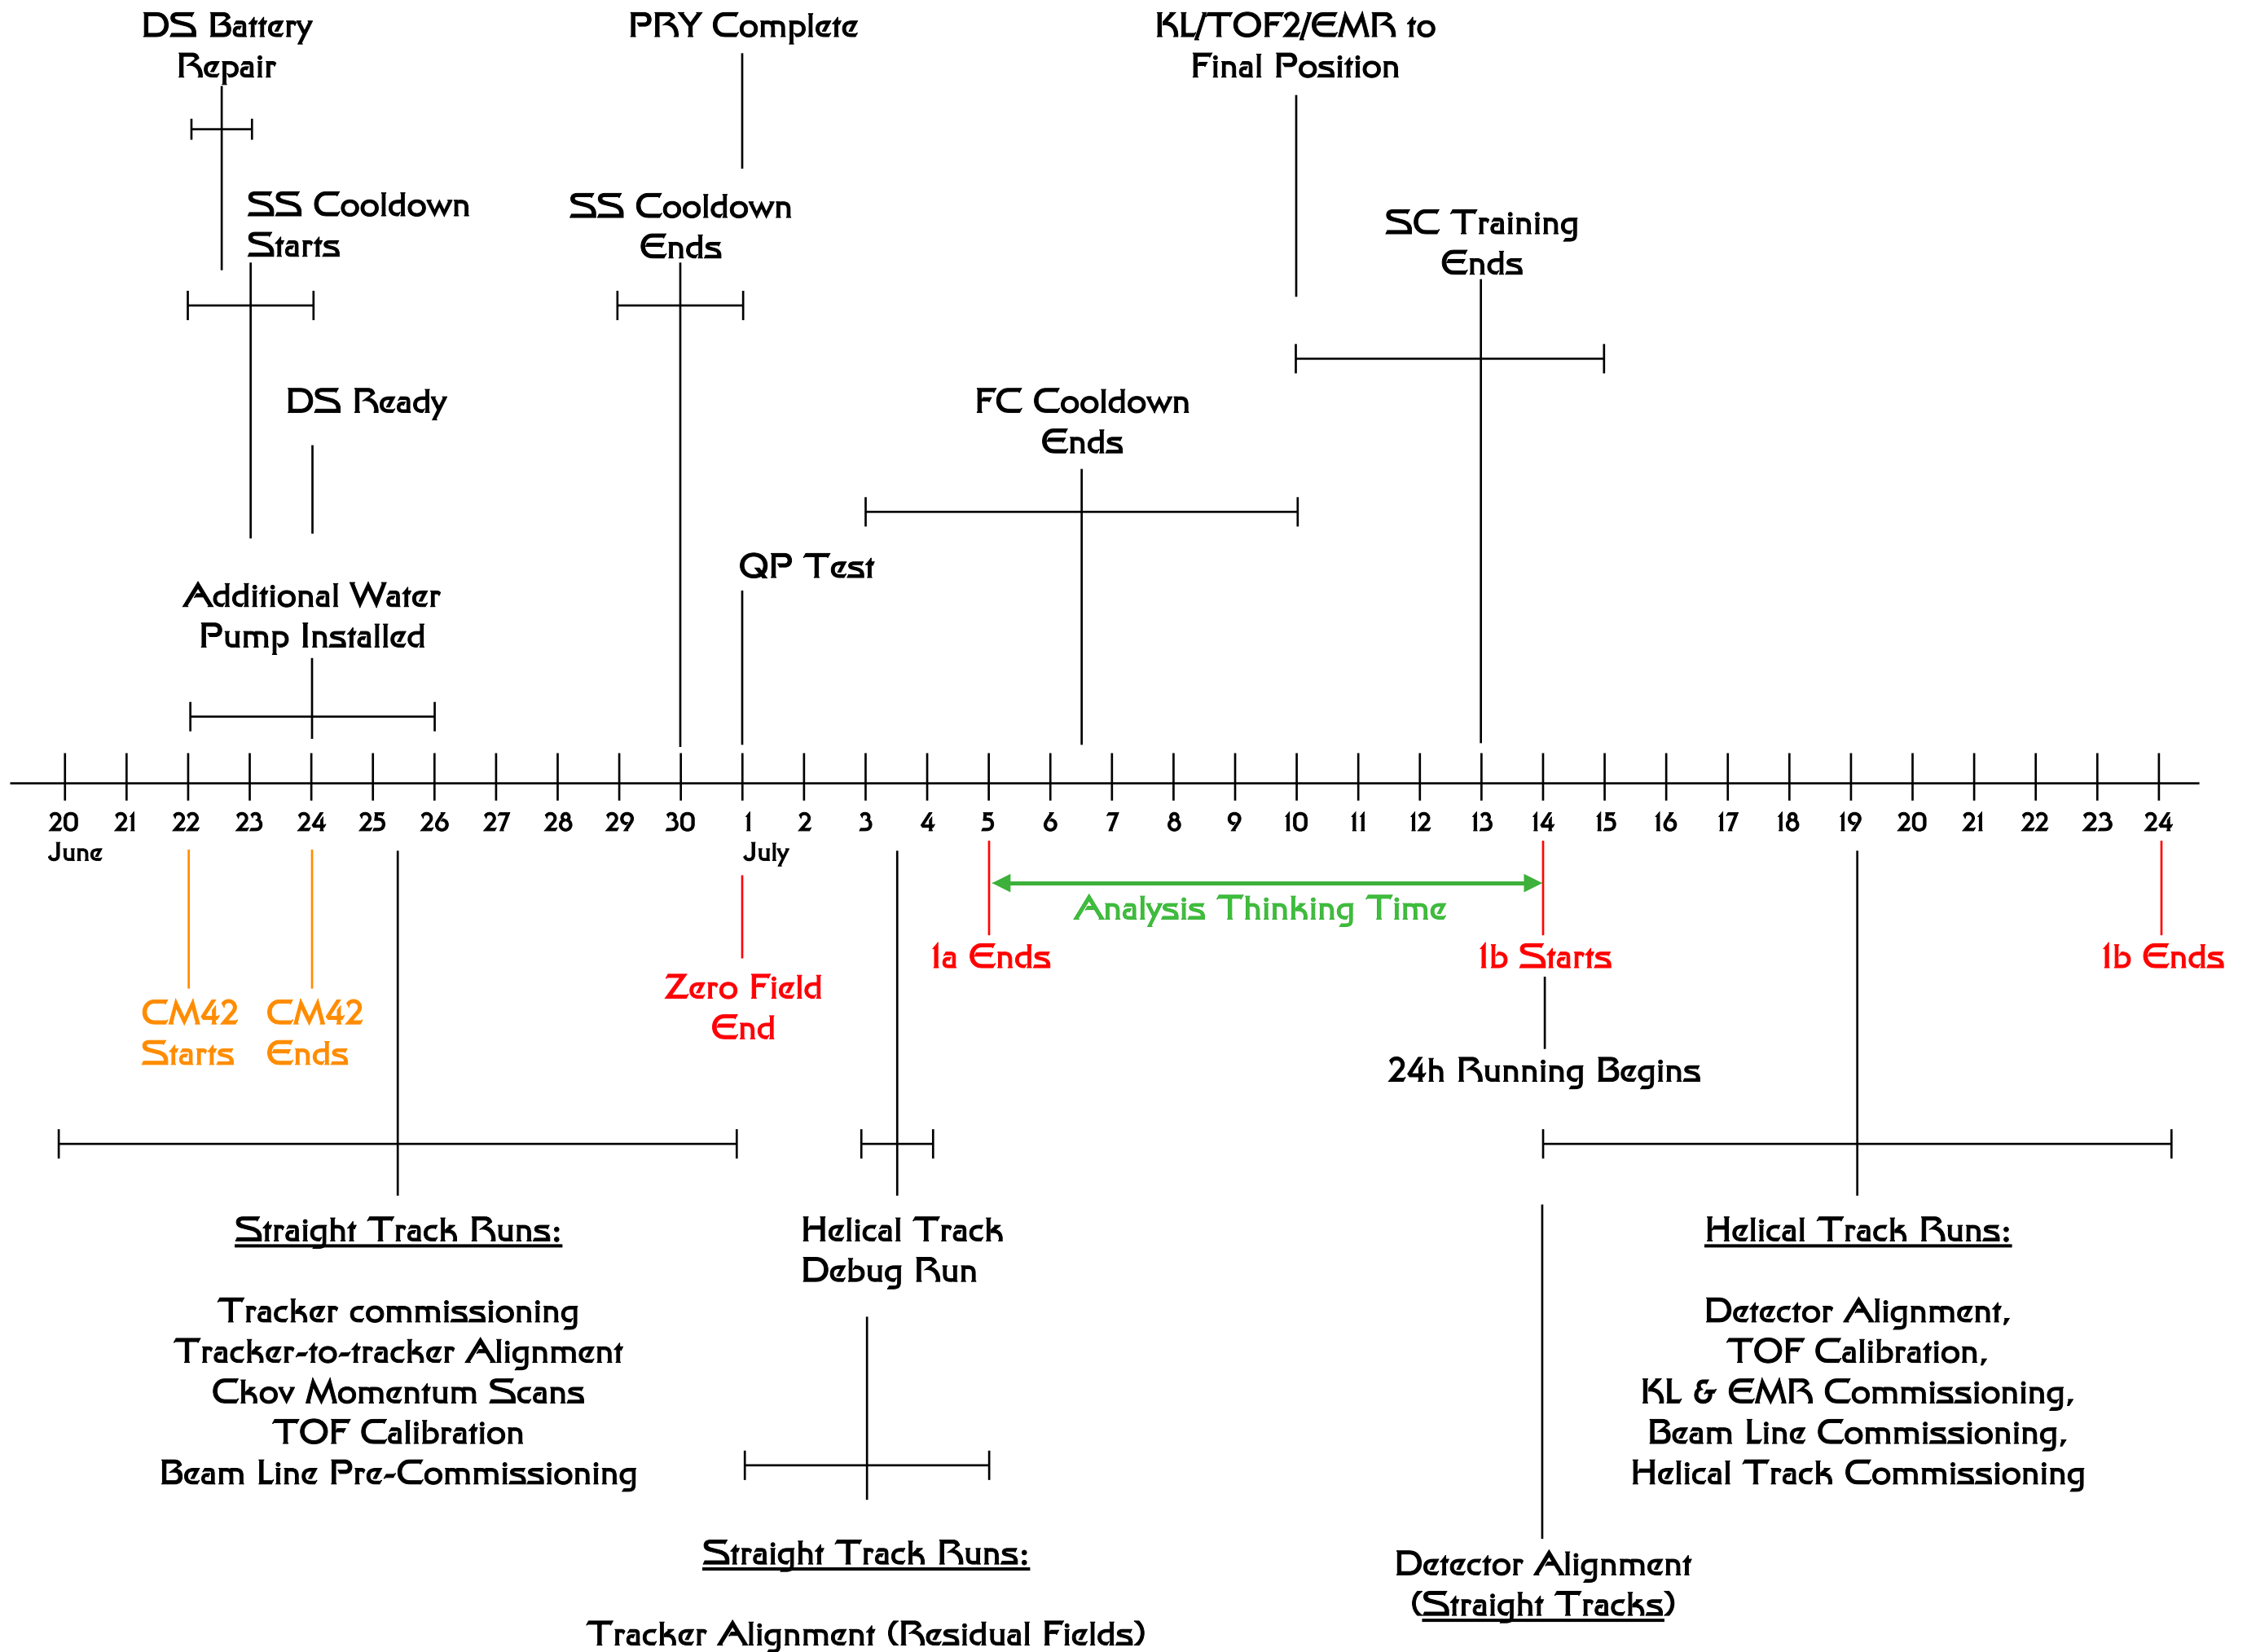

Plus the many, many conversations and  
phonecalls that were held in short-term memory...

*(Please don't test me on them...)*

# And the nominees for Mouse of the Year 2015\* are:

In alphabetical order:

- G. Barber, for services to the Tracker Group
- R. Bayes, for valorous Physics Shifting and rescuing of the current MOM
- J. Cobb, for services to the Focus Coil and Magnetic Alignment
- M. Courthold, for services to the Decay Solenoid
- A. Dick, for valorous Shifting
- A. Dobbs, for valorous Shifting and BLOC work, services to MAUS
- F. Drielsma, for valorous Shifting and the Order of Deputy MOM
- P. Franchini, for valorous Shifting and Physics Shifting
- R. Gamet, for the Order of Deputy MOM
- J. Govans, for patience dealing with the MOM
- P. Hanlet, for services to C&M, BLOC work and the Order Of Deputy MOM
- C. Heidt, for services to the Tracker Group, valorous Shifting and BLOC work
- P. Hodgson, for services to the Target Group and the Order of MOM
- Y. Karadzhov, for services to the DAQ and Unpacking
- K. Ladhams, for services to the Tracker Group
- K. Long, for services to the Tracker Group and the Order of Deputy MOM
- C. Macwaters, for TOF1 Rapid Rescue Response, services to the PPS and Tracker Group
- S. Middleton, for valorous Shifting
- H. Nebrensky, for services to the Tracker Group and ensuring the Muon Beam Line operates
- J. Nugent, for valorous Shifting
- E. Overton, for services to the Tracker and Target Groups
- J. Pasternak, for services to Beam Optics
- C. Pidcott, for valorous Shifting and BLOC work
- M. Popovic, for the Order of MOM
- D. Rajaram, for services to MAUS
- C. Rogers, for valorous Physics Shifting, services to MAUS
- J. Tarrant, for ensuring everything fits
- M. Tucker, for services to the Decay Solenoid
- M. Uchida, for services to the Tracker Group
- S. Watson, for services to the Focus Coil and Hydrogen System
- A. Young, for valorous Shifting

*\*Mouse of the Year 2015 award only available as knowledge of a Job Well Done. No physical prize exists. Nominees mysteriously not on this list have been neglected only due to a hole in the space-time continuum that has addled the current MOMs mind.*

*Terms and Conditions apply.*
